I. Record of Changes

Date	A* M, D	In charge	Change Description
28/10/2026	A	Lê Thành Minh Trung	First version for Review 2: product overview, actors and use cases, screen flows and authorization, non-screen functions, ERD, functional requirements per feature, non-functional requirements, business rules, messages

*A - Added M - Modified D - Deleted

II. Software Requirement Specification

1. Product Overview

CampusStay FPT is a new system for the dormitory of FPT University's Tân Uyên campus. It takes a student from sign-in to a Bed and through every Term of their stay, and gives the dormitory office one place to run registration periods, assignment, payments, the Block desks, Term transitions, maintenance and reports. It replaces nothing: the campus has no dormitory system yet. It works beside FPT's student information system (the student list is imported from files) and the dormitory's bank account (students transfer with a VietQR code and Managers confirm the transfers).

The users are students (web portal and Android app), Staff of one Block, Managers of the dormitory (every Block) and the Administrator. The context diagram shows the boundary of the system and the data that crosses it.

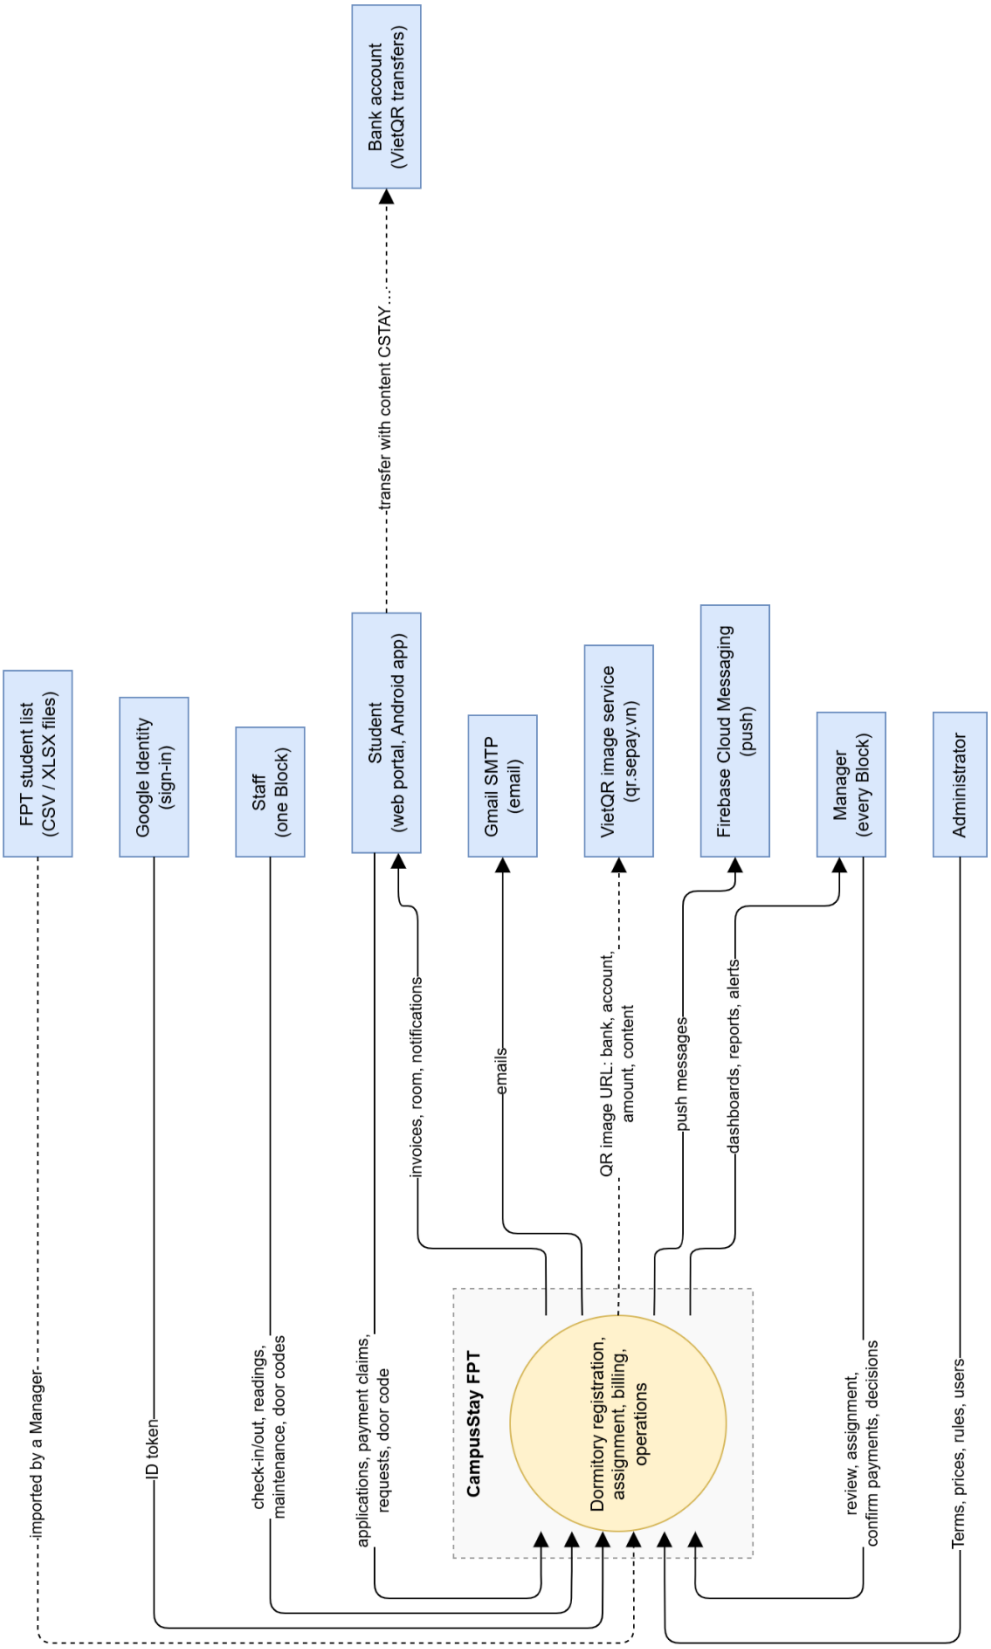

Figure 1: Context diagram: CampusStay FPT and the external entities

External entity	Data in	Data out
Student	Applications, payment claims, requests, Maintenance Requests, consents	Invoices, Room and Bed, door code, check-in pass, notifications
Staff	Check-in and check-out, meter readings, door codes, furniture, decisions on Block requests, inspections	Queues, dashboards, Room hub
Manager	Registration-period requests, reviews, assignment approvals, payment confirmations, reconciliations, decisions	Dashboards, reports, alerts, escalations
Administrator	Terms, prices, rules, users, notification texts	Reports, Audit Log
Google Identity	ID token of an FPT Google account	—
Firebase Cloud Messaging	—	Push messages to the Android app
Gmail SMTP	—	Emails
VietQR image service	—	QR image request (account, amount, transfer content)
FPT student list	CSV or XLSX files imported by a Manager	—
Bank account	Transfers by students (outside the system)	—

Glossary used in every report: **Term** (kỳ), **Block** (Building), **Floor**, **Room**, **Room Type** (number of Beds), **Room Class** (Basic, Standard, Premium), **Bed**, **Application**, **Allocation** (a student's Bed in a Term), **Stay** (Terms a student lives in a row), ***Gia hạn*** (Terms a student commits to), **Invoice** (Deposit, Balance, next-Term fee, Utility, charge), **Payment claim** ("I have transferred"), **requests window** (M2–M7 of the next Term), **next-Term Allocation**, **Maintenance Request**, **check-in**, **check-out**.

2. User Requirements

2.1 Actors

#	Actor	Description
1	Student	An FPT University student. Signs in with a password or the FPT Google account (a new account is verified by a Manager), applies for a Term, pays by VietQR transfer and claims it, lives in the dormitory (My Room, door code, check-in pass, furniture), files Maintenance Requests and next-Term requests. Uses the web portal or the Android app. Sees only their own records.
2	Staff	Dormitory staff of one or more Blocks. Runs the check-in and check-out desk, meter readings, door codes, furniture, inspections and Maintenance Requests, decides the next-Term requests of the Block, moves residents for operational reasons. Sees only the Blocks assigned to them.
3	Manager	Dormitory manager working for every Block (added after Review 1). Requests registration periods, verifies student accounts, imports the student list, reviews Applications, runs and approves the assignment, confirms payment claims, decides late check-ins, terminations and refunds, reconciles the enrolled list, issues next-Term fees, handles escalations, sets routing rules and Block settings, manages Staff accounts, reads reports.
4	Administrator	Configures the system: answers registration-period requests and builds and publishes Terms, sets Room Types, Room Classes, fees, Utility, rules and system parameters, manages Blocks, Rooms, furniture types and users, edits

#	Actor	Description
		notification texts, sends emails, reads the Audit Log and reports, resets demo data on the demo server.
5	System (scheduled jobs)	Time-driven work: Deposit expiry, Balance forfeit, door code release, requests-window milestones (M2, M3, M4, M7), overdue Invoices and Utility warnings, payment reminders, time-limit scans and escalations, swap expiry, inspection runs, email dispatch.
6	Google Identity, Firebase Cloud Messaging, Gmail SMTP, VietQR image service	External services: sign-in, push, email and the QR picture of a transfer (section 4.1).

2.2 Use Cases

2.2.1 Diagrams

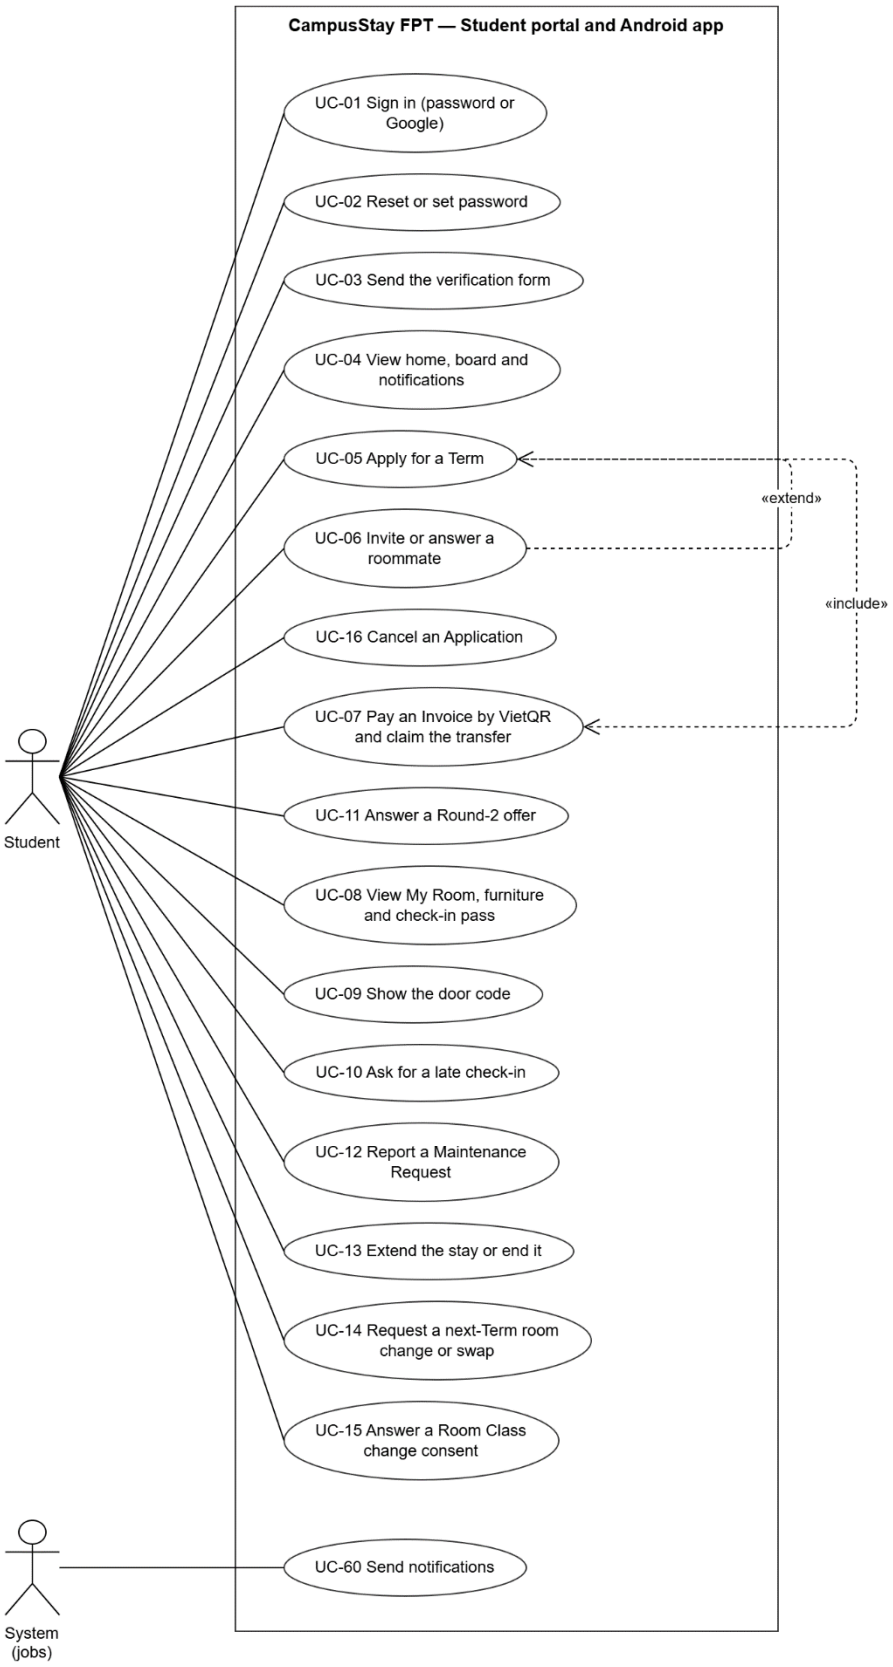

Figure 2: Use cases of the Student

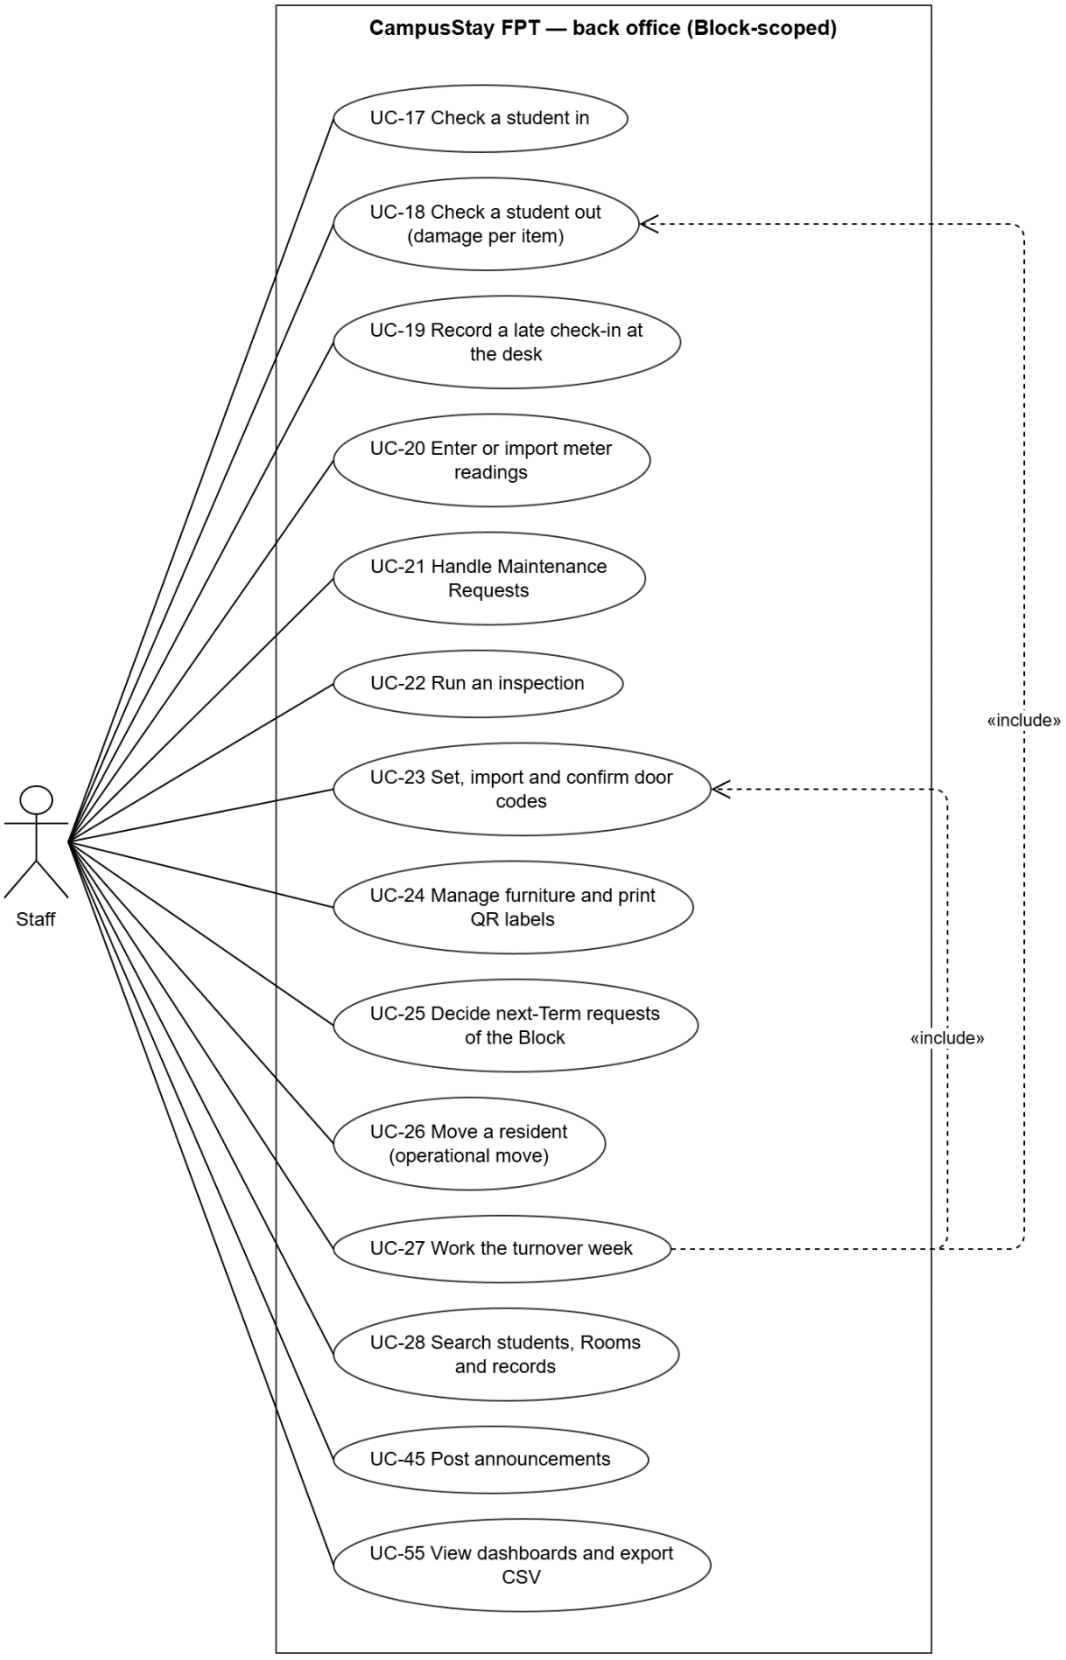

Figure 3: Use cases of the Staff

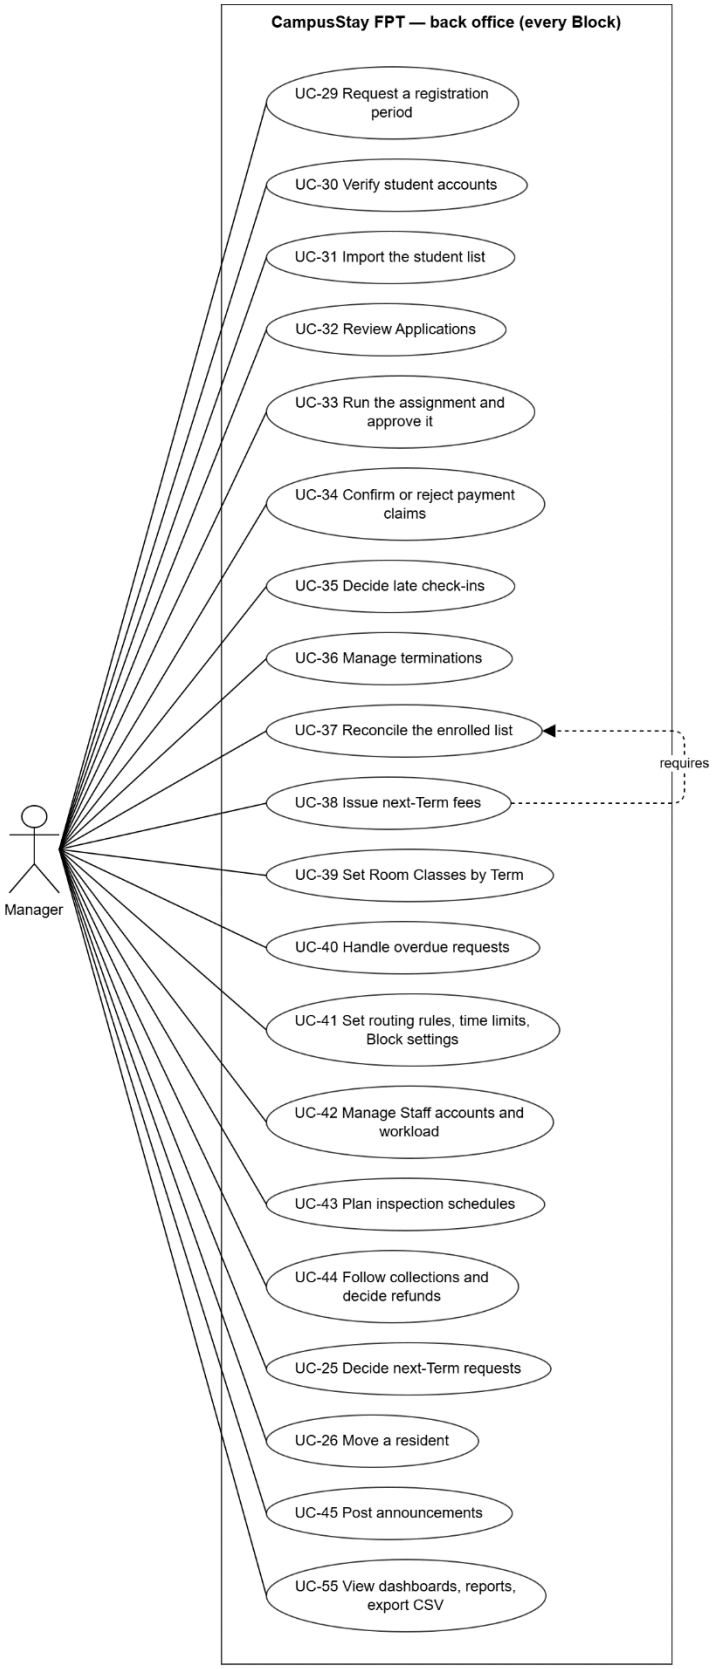

Figure 4: Use cases of the Manager

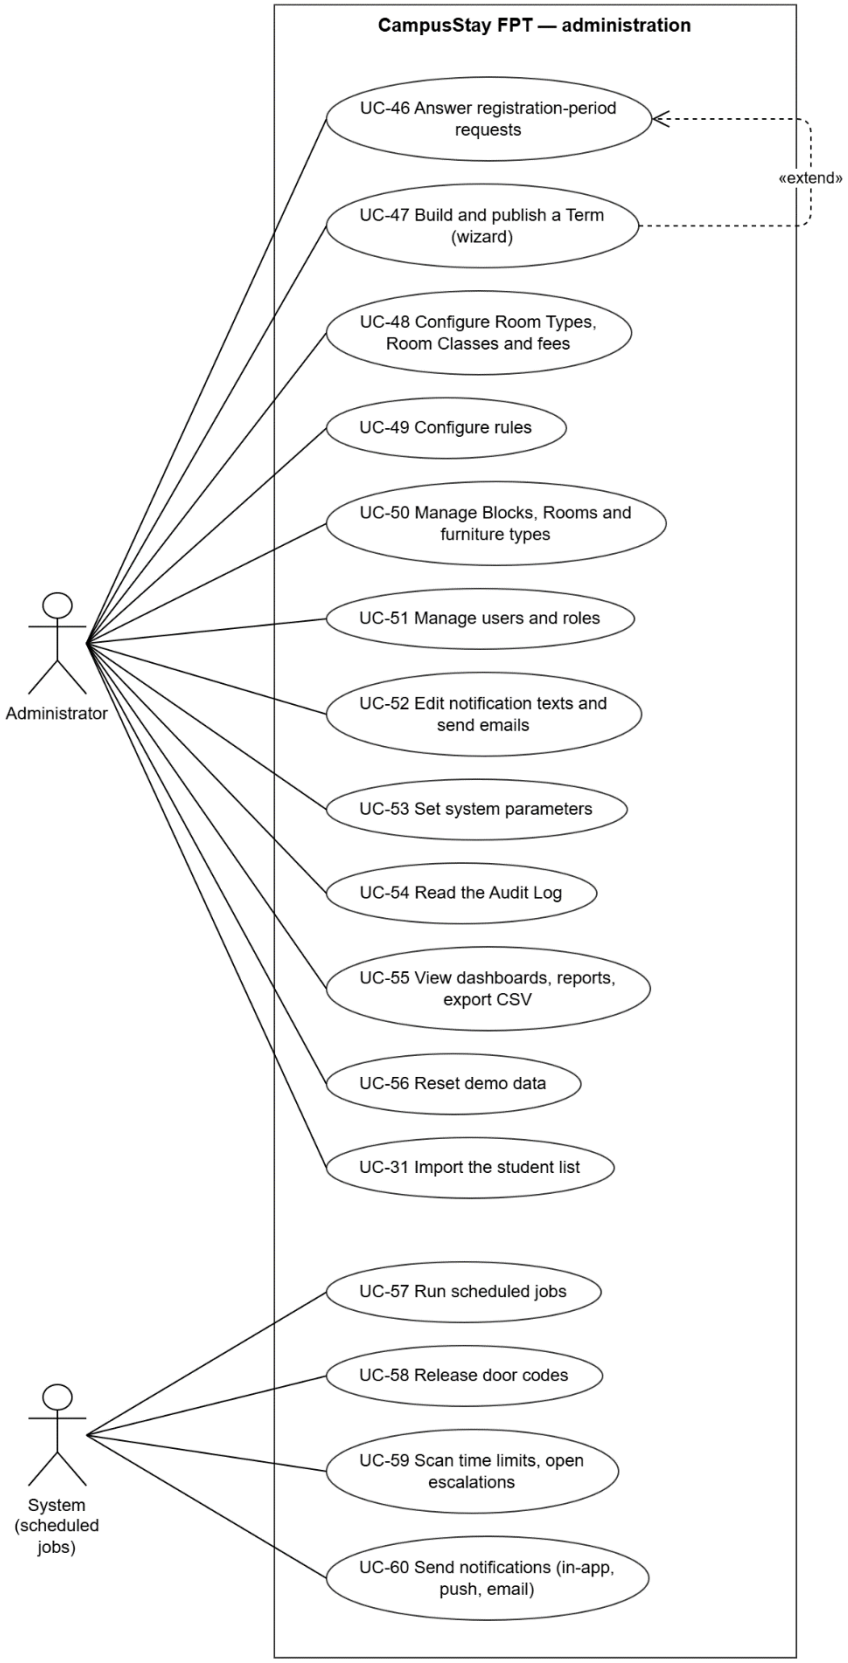

Figure 5: Use cases of the Administrator and the System

2.2.2 Descriptions

ID	Use Case	Actors	Use Case Description
UC-01	Sign in (password or Google)	All	Signs in with email and password, or with an FPT Google account; the first Google sign-in of an unknown student creates the account. Five wrong passwords lock the account for a while. (FR-AUTH-01, FR-AUTH-02)
UC-02	Reset or set password	All	Asks for a reset link by email, sets a password from an invitation link, or sets the first password after a Google sign-up. (FR-AUTH-03)
UC-03	Send the verification form	Student	A new Google account fills the sign-up form (student code, gender, major, contact); a Manager verifies it before the student can apply. (FR-AUTH-04)
UC-04	View home, board and notifications	Student	Home with the Term timeline, the dormitory board (announcements), the Room, the Invoice due and notifications. (FR-NTF-01, FR-NTF-03)
UC-05	Apply for a Term	Student	Checks eligibility, chooses Room Type and Room Class, a roommate mode, *Gia hạn* and contact, accepts the rules and submits; a Deposit Invoice is issued. (FR-APP-01, FR-APP-02)
UC-06	Invite or answer a roommate	Student	For a 2-bed Room, invites another student by code or answers an invitation within the roommate window. (FR-APP-03)
UC-07	Pay an Invoice by VietQR and claim the transfer	Student	Opens the payment page (QR image, account, amount, transfer content), transfers in a banking app and presses "I have transferred" with the reference. (FR-BIL-01, FR-BIL-02)
UC-08	View My Room, furniture and check-in pass	Student	Room, Bed, roommates, furniture, check-in pass (QR), Stay and next-Term state. (FR-ASG-04, FR-INV-03)
UC-09	Show the door code	Student	Reveals the Room's door code once it is released; every view is audited. (FR-INV-04)
UC-10	Ask for a late check-in	Student	Asks to arrive after the check-in window with a reason, the day and evidence. (FR-ASG-05)
UC-11	Answer a Round-2 offer	Student	A waitlisted student accepts one held Bed or declines. (FR-APP-07)
UC-12	Report a Maintenance Request	Student	Reports a problem with category, location, urgency, photos and the furniture item. (FR-MNT-01)
UC-13	Extend the stay or end it	Student	In the requests window, extends *Gia hạn* or ends the stay after this Term. (FR-REQ-04)
UC-14	Request a next-Term room change or swap	Student	Asks for another Room for the next Term, a direct swap or a swap from the board. (FR-REQ-01, FR-REQ-02)
UC-15	Answer a Room Class change consent	Student	Agrees or declines when a roommate asks to change the Room's class from the next Term. (FR-REQ-03)
UC-16	Cancel an Application	Student	Cancels before the assignment; an unpaid Deposit is voided, a paid one is refunded by rule. (FR-APP-04)

ID	Use Case	Actors	Use Case Description
UC-17	Check a student in	Staff	Finds the student by code, name or check-in pass; checks the Balance is paid and records the hand-over items. (FR-ASG-04)
UC-18	Check a student out	Staff	Records meter readings, key, condition and damage per furniture item; the Utility Deposit is settled and the refund goes to a Manager. (FR-ASG-06)
UC-19	Record a late check-in at the desk	Staff	Records a student's late arrival request with evidence. (FR-ASG-05)
UC-20	Enter or import meter readings	Staff	Enters or imports (CSV) the month's electricity and water readings and closes the period. (FR-BIL-04)
UC-21	Handle Maintenance Requests	Staff	Takes, plans, updates and resolves requests of the Block. (FR-MNT-02)
UC-22	Run an inspection	Staff	Answers the checklist and the Room's checks; failed items create Maintenance Requests. (FR-MNT-04)
UC-23	Set, import and confirm door codes	Staff	Proposes a code (random, typed or imported), sets it on the lock and confirms it. (FR-INV-04)
UC-24	Manage furniture and print QR labels	Staff	Moves items between Rooms and the Block store, changes status, prints QR labels. (FR-INV-03)
UC-25	Decide next-Term requests	Staff, Manager	One list of room changes, swaps, Room Class changes, extensions and ends of stay; bulk decisions by M4. (FR-REQ-05)
UC-26	Move a resident (operational move)	Staff, Manager	Moves a resident to another Bed for an operational reason, without charge. (FR-ASG-10)
UC-27	Work the turnover week	Staff	Leavers to check out, movers, arriving students, Rooms needing a reading and a new door code. (FR-ASG-10)
UC-28	Search students, Rooms and records	Staff, Manager, Admin	Header search by student code or name, Room code, Invoice or request code inside the user's Blocks; Room and student hubs. (FR-RPT-04, FR-INV-05)
UC-29	Request a registration period	Manager	Proposes dates, milestones, Blocks, Rooms left out (imported from Excel or CSV), places and prices to the Admin. (FR-CFG-04)
UC-30	Verify student accounts	Manager	Verifies or rejects new Google accounts against the student list. (FR-AUTH-04)
UC-31	Import the student list	Manager, Admin	Uploads a CSV or XLSX list, previews each line and confirms. (FR-AUTH-05)
UC-32	Review Applications	Manager	Approves or rejects Applications, one by one or in bulk; a rejection needs a reason. (FR-APP-05)
UC-33	Run the assignment and approve it	Manager	Runs a dry or real assignment, resolves conflicts and approves each Block. (FR-ASG-01, FR-ASG-02, FR-ASG-03)
UC-34	Confirm or reject payment claims	Manager	Confirms claims (one or in bulk with count and total) or rejects with a reason. (FR-BIL-03)
UC-35	Decide late check-ins	Manager	Approves with a new deadline or rejects with a reason. (FR-ASG-05)

ID	Use Case	Actors	Use Case Description
UC-36	Manage terminations	Manager	Starts a termination with a reason and move-out date, follows overdue ones, cancels. (FR-ASG-09)
UC-37	Reconcile the enrolled list	Manager	Uploads the enrolled (or leavers) list of a Term and resolves groups 1–2 with a note. (FR-AUTH-08)
UC-38	Issue next-Term fees	Manager	Issues the next-Term fees once requests are decided and the list is reconciled. (FR-ASG-08)
UC-39	Set Room Classes by Term	Manager	Sets a Room's class from a Term on, before the Term starts and before its Beds are given. (FR-INV-02)
UC-40	Handle overdue requests	Manager	Acts on escalations: reassign, note the action. (FR-REQ-07)
UC-41	Set routing rules, time limits and Block settings	Manager	Rules that assign requests to Staff, urgent and normal time limits, desk and quiet hours. (FR-REQ-06, FR-CFG-06)
UC-42	Manage Staff accounts and workload	Manager	Creates Staff accounts for Blocks, edits handles and duty, sees the workload. (FR-AUTH-07)
UC-43	Plan inspection schedules	Manager	Schedules recurring inspections per Block with a checklist. (FR-MNT-04)
UC-44	Follow collections and decide refunds	Manager	Overdue Invoices, reminders, Utility warnings, refunds to decide. (FR-BIL-05, FR-BIL-06)
UC-45	Post announcements	Staff, Manager, Admin	Announcements on the dormitory board for all students or the residents of a Block. (FR-NTF-03)
UC-46	Answer registration-period requests	Admin	Comments, asks for changes, rejects, or builds the Term from a request. (FR-CFG-04)
UC-47	Build and publish a Term	Admin	Seven-step wizard; publication fixes prices, Deposit and rules for the Term. (FR-CFG-05)
UC-48	Configure Room Types, Room Classes and fees	Admin	Base prices, surcharges, Deposit, Utility prices and Utility Deposit. (FR-CFG-01, FR-CFG-02)
UC-49	Configure rules	Admin	Eligibility, priority groups, matching, deadlines, refunds, stay and renewal, inspection checklists. (FR-CFG-03, FR-MNT-03)
UC-50	Manage Blocks, Rooms and furniture types	Admin	Blocks, Floors, bulk Room generation, out of service, furniture types and Room Class requirements. (FR-INV-01, FR-INV-03)
UC-51	Manage users and roles	Admin	Back-office users, roles, Blocks, the permission matrix. (FR-AUTH-06)
UC-52	Edit notification texts and send emails	Admin	Notification templates in both languages; emails to student groups. (FR-NTF-04, FR-NTF-05)
UC-53	Set system parameters	Admin	Typed parameters (limits, windows, timers). (FR-CFG-07)
UC-54	Read the Audit Log	Admin	Every configuration change, irreversible action, export and door-code view. (FR-AUTH-09)

ID	Use Case	Actors	Use Case Description
UC-55	View dashboards, reports and export CSV	Staff, Manager, Admin	Dashboards per role, Term dashboard, occupancy, finance, Block reports, CSV export of every list. (FR-RPT-01..03)
UC-56	Reset demo data	Admin	On the demo server only: replace business data by a demo stage. (FR-CFG-08)
UC-57	Run scheduled jobs	System	Deposit expiry, forfeit, requests-window milestones, overdue and reminders, swap expiry, inspections. (section 3.1.4)
UC-58	Release door codes	System	Releases the Room's code to paid students from the check-in start. (FR-ASG-04)
UC-59	Scan time limits and open escalations	System	Every 15 minutes, opens escalations for overdue or unassigned requests. (FR-REQ-07)
UC-60	Send notifications	System	In-app, push and email after each business event. (FR-NTF-01, FR-NTF-02)

3. Functional Requirements

3.1 System Functional Overview

3.1.1 Screens Flow

The web app has one portal per role; the Android app follows the student portal (Home, My Room, Payments, Activity). Rounded shapes are screens opened from a link or notification rather than the menu.

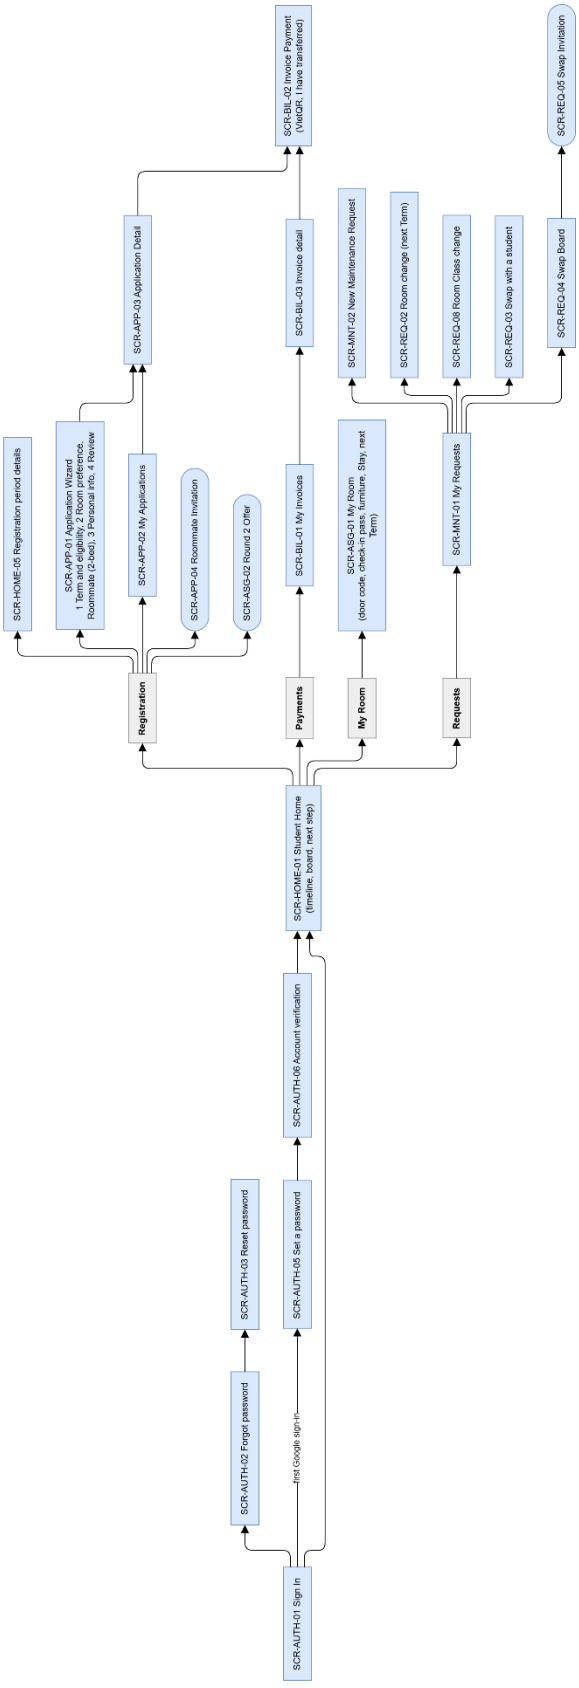

Figure 6: Screen flow: public pages and the Student portal

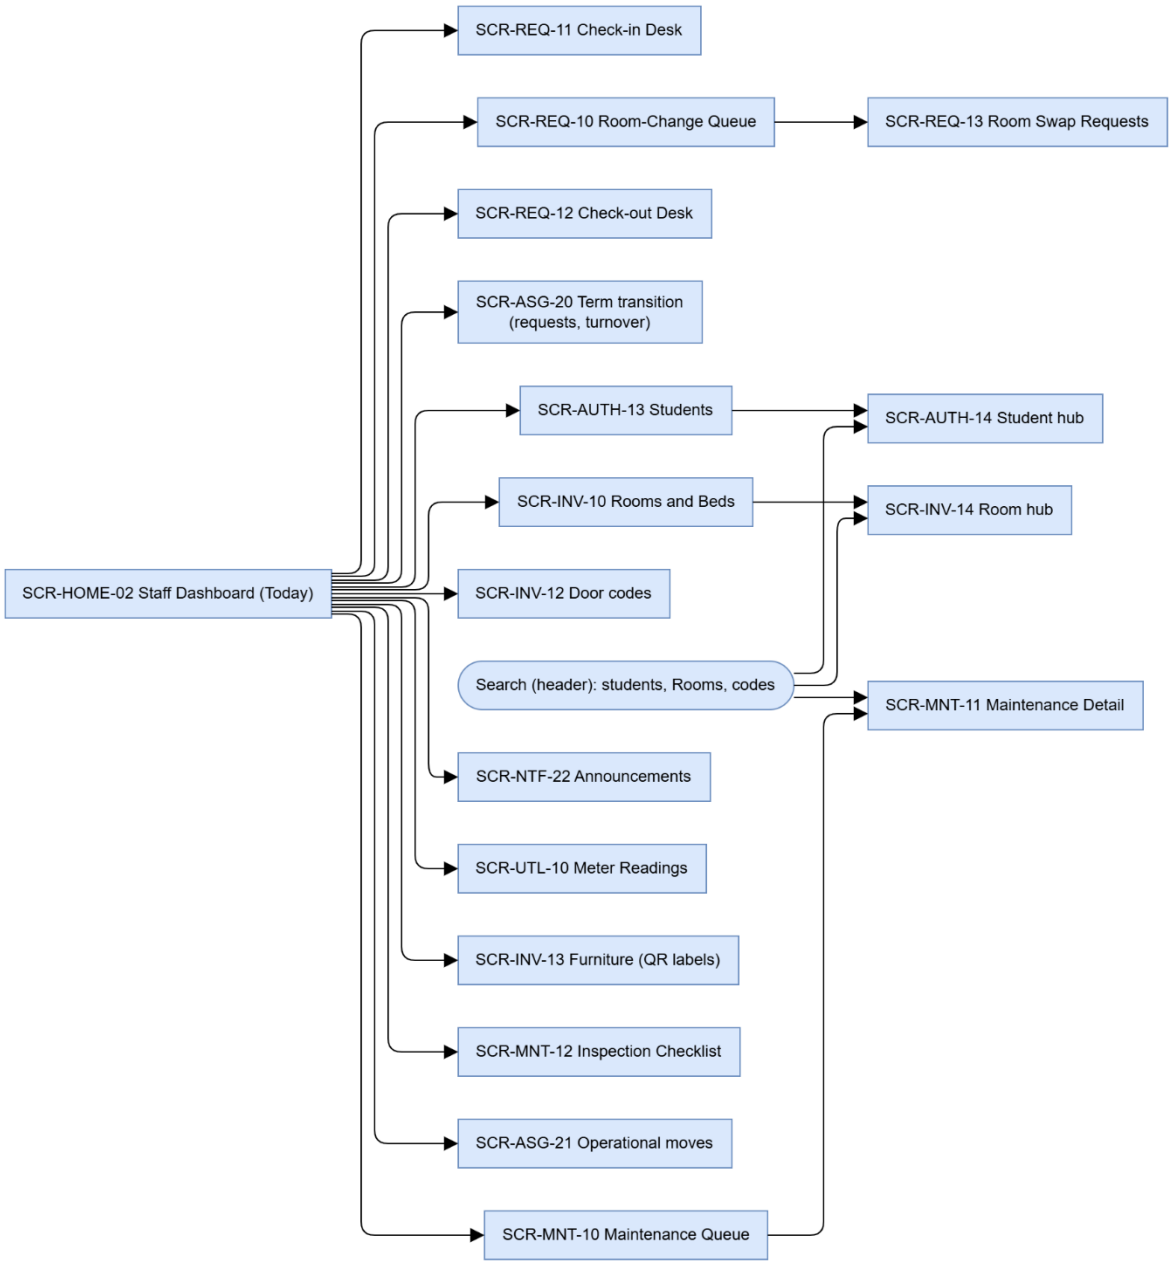

Figure 7: Screen flow: Staff

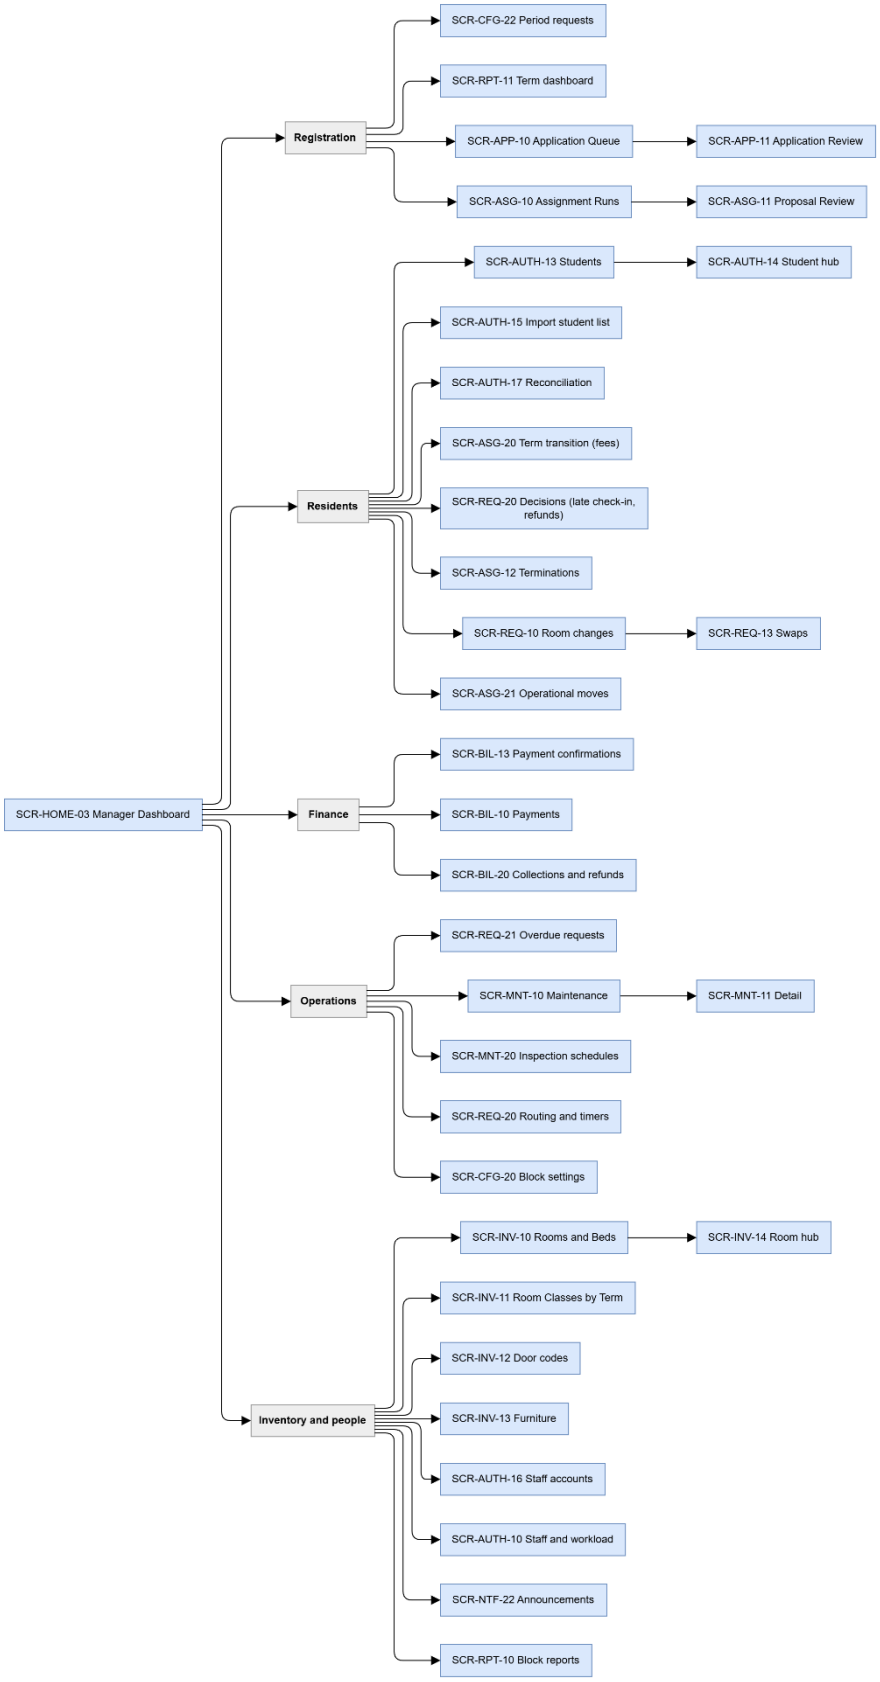

Figure 8: Screen flow: Manager

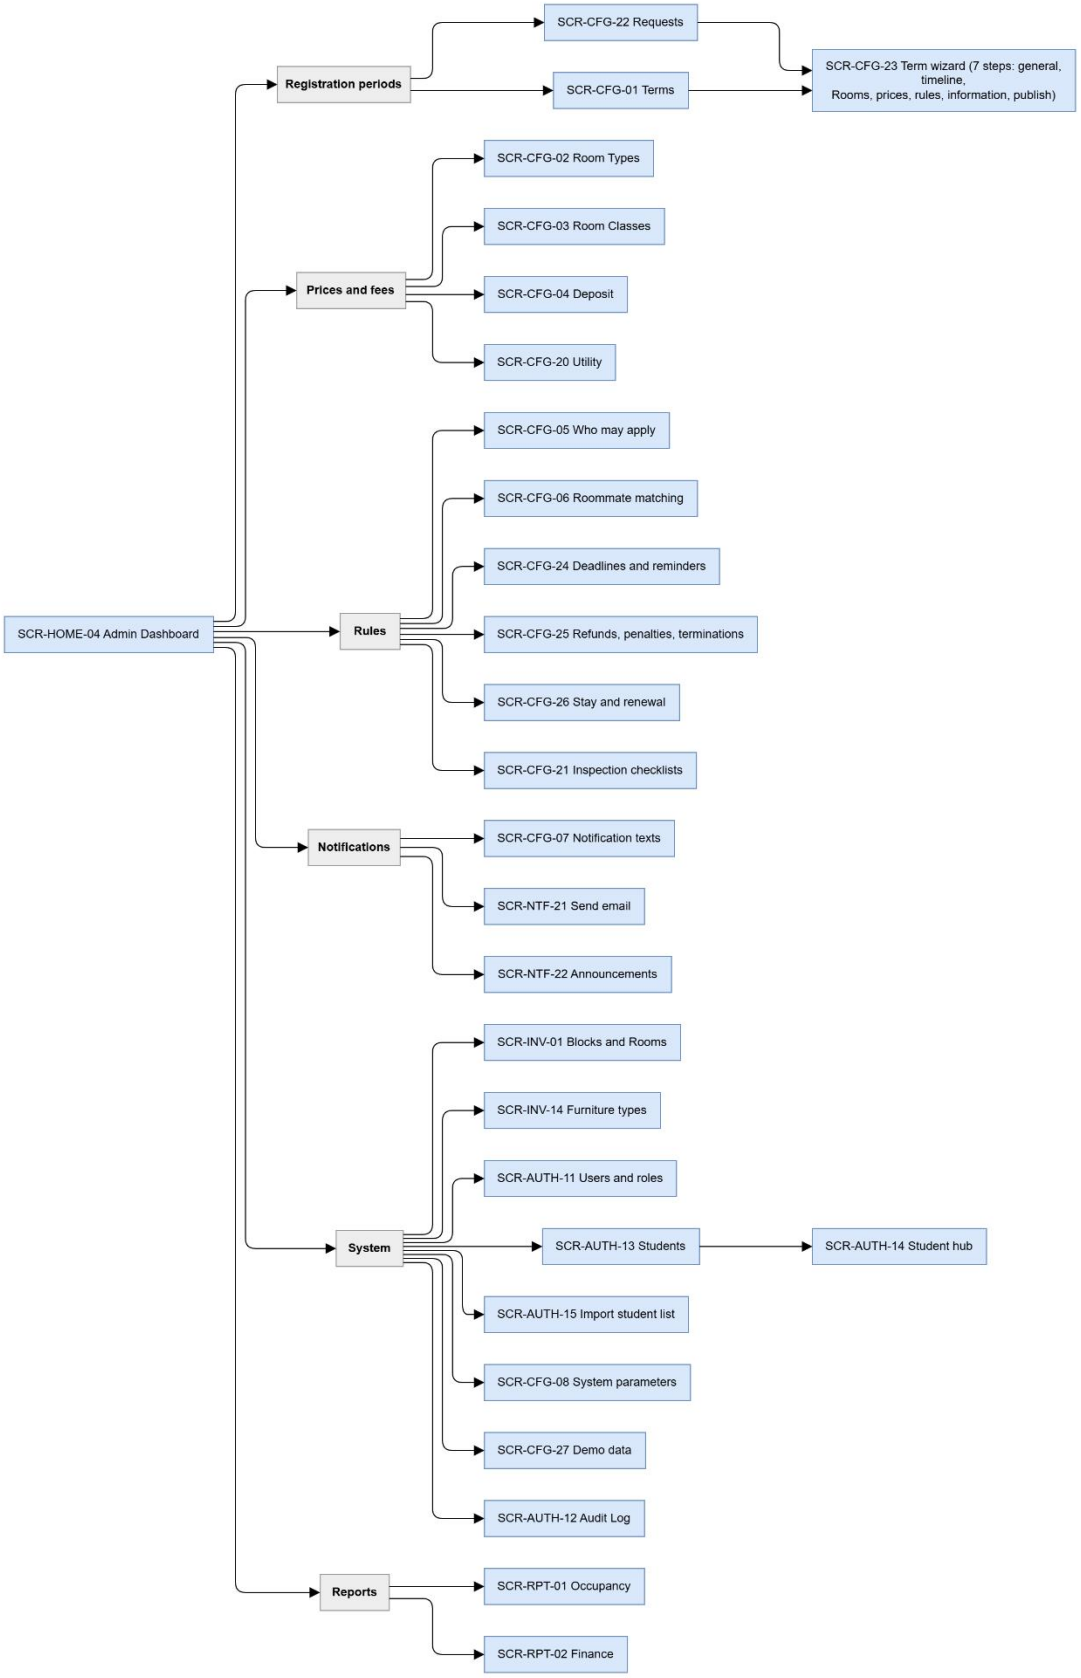

Figure 9: Screen flow: Administrator

3.1.2 Screen Descriptions

The tables list every route of the web app (generated from the router, `docs/web/01_Screen_Map.md`) with the API calls the screen makes. A screen code shared by two roles is the same page with the role's scope.

Public pages (no sign-in) (5)

#	Screen	Route	Main API calls
1	SCR-AUTH-01 Sign In	/signin	POST /auth/sign-in POST /auth/google
2	SCR-AUTH-02 Forgot password	/forgot-password	POST /auth/password/forgot
3	SCR-AUTH-03 Reset password (from the email link)	/reset-password	POST /auth/password/reset
4	SCR-AUTH-04 Set password (invitation link)	/set-password	POST /auth/password/reset
5	SCR-AUTH-05 Set a password (first Google sign-in)	/account/password	POST /auth/password/set GET /auth/me

Student screens (23)

#	Screen	Route	Main API calls
1	SCR-HOME-01 Student Home	/student	GET /students/me/home
2	SCR-APP-01 Application Wizard – 1 Term and eligibility	/student/apply/term	GET /applications/eligibility
3	SCR-APP-01 Application Wizard – 2 Room preference	/student/apply/room	GET /applications/eligibility
4	SCR-APP-01 Application Wizard – Roommate (2-bed)	/student/apply/roommate	POST /applications/roommate-check
5	SCR-APP-01 Application Wizard – 3 Personal info	/student/apply/personal	GET /students/me/profile
6	SCR-APP-01 Application Wizard – 4 Review and submit	/student/apply/review	POST /applications
7	SCR-APP-02 My Applications	/student/applications	GET /students/me/applications
8	SCR-APP-03 Application Detail	/student/applications/:id	GET /applications/:id POST /applications/:id/cancel
9	SCR-APP-04 Roommate Invitation	/student/roommate-invitation	GET /students/me/roommate-invitation POST /roommate-invitations/:id/respond
10	SCR-ASG-02 Round 2 Offer	/student/round-2-offer	GET /students/me/round2-offer POST /round2-offers/:id/respond
11	SCR-BIL-01 My Invoices	/student/invoices	GET /students/me/invoices
12	SCR-BIL-03 Utility Invoice	/student/invoices/:id	GET /invoices/:id

#	Screen	Route	Main API calls
13	SCR-BIL-02 Invoice Payment	/student/invoices/:id/pay	GET /invoices/:id/payment POST /invoices/:id/claim POST /invoices/:id/payment/refresh
14	SCR-ASG-01 My Room	/student/room	GET /students/me/allocation POST /students/me/stay/extension POST /students/me/stay/end GET /students/me/late-check-in (+4 more)
15	SCR-MNT-01 My Requests	/student/requests	GET /students/me/requests POST /room-class-changes/:id/consent GET /maintenance-requests/:id POST /maintenance-requests/:id/confirm
16	SCR-MNT-02 New Maintenance Request	/student/requests/maintenance/new	GET /maintenance-requests/options POST /maintenance-requests
17	SCR-REQ-02 New Room-Change Request (next Term)	/student/requests/room-change/new	GET /room-changes/options POST /room-changes
18	SCR-REQ-08 Room Class change (next Term)	/student/requests/room-class/new	GET /room-class-changes/options POST /room-class-changes
19	SCR-REQ-03 Room Swap – Specific Student	/student/requests/swap/new	POST /swaps
20	SCR-REQ-04 Swap Board	/student/requests/swap/board	GET /swap-board PUT /swap-board/my-post POST /swap-board/posts/:id/request
21	SCR-REQ-05 Swap Invitation	/student/requests/swap/invitations/:id	GET /swap-invitations/:id POST /swap-invitations/:id/respond
22	SCR-AUTH-06 Account verification (sign-up form)	/student/verification	GET /students/me/verification PUT /students/me/verification
23	SCR-HOME-05 Registration period details	/student/registration-periods/:termId	GET /registration-periods/:termId

Staff screens (19)

#	Screen	Route	Main API calls
1	SCR-HOME-02 Staff Dashboard	/staff	GET /dashboards/staff
2	SCR-INV-10 Room and Bed Inventory	/staff/inventory	GET /inventory/structure GET /inventory/rooms GET /inventory/rooms/:code POST /inventory/rooms/:code/out-

#	Screen	Route	Main API calls
			of-service (+1 more)
3	SCR-INV-14 Room hub	/staff/rooms/:code	GET /inventory/rooms/:code/hub
4	SCR-INV-12 Door codes	/staff/door-codes	GET /door-codes POST /door-codes/:room POST /door-codes/:room/confirm POST /door-codes/:room/cancel (+2 more)
5	SCR-INV-13 Furniture	/staff/furniture	GET /furniture GET /furniture/:id PUT /furniture/:id POST /furniture (+4 more)
6	SCR-UTL-10 Meter Readings	/staff/meter-readings	GET /meter-periods GET /meter-periods/:id/readings GET /meter-periods/:id/readings/:room POST /meter-periods/:id/import (+1 more)
7	SCR-MNT-10 Maintenance Queue	/staff/maintenance	GET /maintenance-requests GET /maintenance-requests/options
8	SCR-MNT-11 Maintenance Detail	/staff/maintenance/:id	GET /maintenance-requests/:id PATCH /maintenance-requests/:id POST /maintenance-requests/:id/updates
9	SCR-MNT-12 Inspection Checklist	/staff/inspections	GET /inspection-runs/current GET /inspection-runs/:id/rooms PUT /inspection-runs/:id/rooms/:room POST /inspection-runs/:id/submit (+1 more)
10	SCR-REQ-10 Room-Change Queue	/staff/room-changes	GET /room-changes GET /room-changes/:id/matching-beds POST /room-changes/:id/decision
11	SCR-REQ-13 Room Swap Requests	/staff/room-changes/swaps	GET /swaps POST /swaps/:id/decision
12	SCR-ASG-20 Term transition – requests window and turnover	/staff/next-term	GET /renewals
13	SCR-ASG-20 Term transition	/staff/next-term/:tab	GET /renewals
14	SCR-ASG-21 Operational moves	/staff/moves	GET /operational-moves/options POST /operational-moves GET /operational-moves
15	SCR-REQ-11 Check-in Desk	/staff/check-in	GET /check-in/today GET /check-in/lookup

#	Screen	Route	Main API calls
			POST /check-in POST /late-check-ins
16	SCR-REQ-12 Check-out Desk	/staff/check-out	GET /check-out GET /check-out/:allocationId POST /check-out/:allocationId
17	SCR-AUTH-13 Students	/staff/students	GET /student-accounts
18	SCR-AUTH-14 Student hub	/staff/students/:id	GET /student-accounts/:id PUT /student-accounts/:id POST /student-accounts/:id/verify POST /student-accounts/:id/reject (+2 more)
19	SCR-NTF-22 Announcements	/staff/announcements	GET /announcements GET /announcements/options POST /announcements PUT /announcements/:id

Manager screens (38)

#	Screen	Route	Main API calls
1	SCR-HOME-03 Manager Dashboard	/manager	GET /dashboards/manager
2	SCR-REQ-20 Decisions (late check-in, swaps, refunds)	/manager/approvals	GET /approvals/summary GET /late-check-ins POST /late-check-ins/:id/decision GET /swaps (+2 more)
3	SCR-REQ-20 Decisions	/manager/approvals/late-check-in	GET /approvals/summary GET /late-check-ins POST /late-check-ins/:id/decision GET /swaps (+2 more)
4	SCR-APP-10 Application Queue	/manager/applications	GET /applications POST /applications/bulk-review
5	SCR-APP-11 Application Review	/manager/applications/:id	GET /applications/:id POST /applications/:id/review
6	SCR-ASG-10 Assignment Runs	/manager/assignment	GET /assignment-runs POST /assignment-runs
7	SCR-ASG-11 Assignment Proposal Review	/manager/assignment/:runId	GET /assignment-runs/:runId/proposal GET /assignment-runs/:runId/conflicts/:applicationId POST /assignment-runs/:runId/commit
8	SCR-BIL-10 Payments	/manager/payments	GET /payments POST /payments/:invoiceId/confirm
9	SCR-BIL-13 Payment confirmations	/manager/payment-claims	GET /payment-claims POST /payment-claims/confirm POST /payment-claims/reject

#	Screen	Route	Main API calls
10	SCR-ASG-12 Terminations	/manager/terminations	GET /terminations POST /terminations POST /terminations/:id/cancel
11	SCR-REQ-10 Room-Change Queue	/manager/room-changes	GET /room-changes GET /room-changes/:id/matching-beds POST /room-changes/:id/decision
12	SCR-REQ-13 Room Swap Requests	/manager/room-changes/swaps	GET /swaps POST /swaps/:id/decision
13	SCR-ASG-20 Term transition – requests window, next-Term fees and turnover	/manager/next-term	GET /renewals
14	SCR-ASG-20 Term transition	/manager/next-term/:tab	GET /renewals
15	SCR-ASG-21 Operational moves	/manager/moves	GET /operational-moves/options POST /operational-moves GET /operational-moves
16	SCR-AUTH-17 Reconciliation (enrolled list)	/manager/reconciliation	GET /reconciliations GET /reconciliations/template POST /reconciliations GET /reconciliations/:id (+1 more)
17	SCR-INV-10 Room and Bed Inventory	/manager/inventory	GET /inventory/structure GET /inventory/rooms GET /inventory/rooms/:code POST /inventory/rooms/:code/out-of-service (+1 more)
18	SCR-INV-14 Room hub	/manager/rooms/:code	GET /inventory/rooms/:code/hub
19	SCR-INV-11 Room Classes by Term	/manager/room-classes	GET /inventory/room-classes PUT /inventory/room-classes
20	SCR-INV-12 Door codes	/manager/door-codes	GET /door-codes POST /door-codes/:room POST /door-codes/:room/confirm POST /door-codes/:room/cancel (+2 more)
21	SCR-INV-13 Furniture	/manager/furniture	GET /furniture GET /furniture/:id PUT /furniture/:id POST /furniture (+4 more)
22	SCR-MNT-10 Maintenance Queue	/manager/maintenance	GET /maintenance-requests GET /maintenance-requests/options
23	SCR-MNT-11 Maintenance Detail	/manager/maintenance/:id	GET /maintenance-requests/:id PATCH /maintenance-requests/:id POST /maintenance-requests/:id/updates

#	Screen	Route	Main API calls
24	SCR-MNT-20 Inspection Schedule	/manager/inspections	GET /inspection-schedules POST /inspection-schedules PUT /inspection-schedules/:id
25	SCR-BIL-20 Block Finance	/manager/finance	GET /finance/summary GET /refunds POST /refunds/:id/decision GET /finance/overdue (+2 more)
26	SCR-AUTH-10 Block Staff	/manager/staff	GET /block-staff PUT /block-staff/:id
27	SCR-REQ-20 Request Routing Rules	/manager/routing-rules	GET /routing-rules POST /routing-rules PUT /routing-rules/:id PUT /routing-rules/timers
28	SCR-REQ-21 Escalations	/manager/escalations	GET /escalations POST /escalations/:id/actions
29	SCR-RPT-10 Block Reports	/manager/reports	GET /reports/block GET /exports/block-occupancy
30	SCR-CFG-20 Block Settings	/manager/block-settings	GET /block-settings PUT /block-settings
31	SCR-AUTH-13 Students	/manager/students	GET /student-accounts
32	SCR-AUTH-14 Student hub	/manager/students/:id	GET /student-accounts/:id PUT /student-accounts/:id POST /student-accounts/:id/verify POST /student-accounts/:id/reject (+2 more)
33	SCR-AUTH-15 Import student list	/manager/student-import	GET /student-imports/template POST /student-imports GET /student-imports/:id POST /student-imports/:id/confirm (+1 more)
34	SCR-AUTH-16 Staff accounts	/manager/staff-accounts	GET /staff-accounts POST /staff-accounts PUT /staff-accounts/:id POST /staff-accounts/:id/invitation
35	SCR-CFG-22 Registration-period requests	/manager/term-requests	GET /term-requests GET /term-requests/:id POST /term-requests PUT /term-requests/:id (+3 more)
36	SCR-RPT-11 Term dashboard	/manager/terms	GET /dashboards/term
37	SCR-RPT-11 Term dashboard	/manager/terms/:id	GET /dashboards/term
38	SCR-NTF-22 Announcements	/manager/announcements	GET /announcements GET /announcements/options

#	Screen	Route	Main API calls
			POST /announcements PUT /announcements/:id

Admin screens (29)

#	Screen	Route	Main API calls
1	SCR-HOME-04 Admin Dashboard	/admin	GET /dashboards/admin
2	SCR-CFG-01 Terms	/admin/terms	GET /admin/terms
3	SCR-CFG-23 Term wizard	/admin/terms/new	POST /admin/terms/drafts
4	SCR-CFG-23 Term wizard	/admin/terms/:id	GET /admin/terms/:id/wizard PUT /admin/terms/:id/wizard/:step POST /admin/terms/:id/publish

3.1.3 Screen Authorization

X = the role opens the screen; the bracket gives the data it sees. Own data = the student's own records (another student's record answers 404). Own Blocks = the Blocks assigned to the Staff account. Every API call checks the same rule on the server (`Permission`, `BlockScope`).

Screen	Student	Staff	Manager	Admin
SCR-AUTH-01 Sign In	X (public)	X (public)	X (public)	X (public)

Publish a Term, change prices or rules				X
Export a list as CSV		X (own Blocks)	X	X
Reset demo data				X (demo server only)

3.1.4 Non-Screen Functions

#	Feature	System Function	Description
1	Applications	Deposit and offer expiry (every 5 min)	An Application Awaiting Deposit whose window ended without a claim becomes Expired and its Invoice Void; roommate invitations and Round-2 offers not answered in time expire.
2	Assignment	Forfeit (every 5 min)	A Balance past its deadline with no claim waiting is forfeited: Allocation cancelled, Application Forfeited, Deposit kept by rule.
3	Assignment	Door code release (every 15 min)	Releases the Room's door code to students whose Balance is paid, whose check-in start has come and whose Room code is active; they become residents. Terminations past their move-out date become Overdue.
4	Term transition	Requests window jobs (every 15 min)	M2 opens the window (next-Term Allocations), M3 closes filing and releases Beds not extended, M4 − 48 h alerts Managers, M7 cancels unpaid next-Term fees.
5	Billing	Overdue and Utility debt (hourly)	Unpaid charges past due become Overdue; Utility warnings (first, final) and the termination when the rule is met.
6	Billing	Payment reminders (hourly)	Reminders before Balance and next-Term fee deadlines (days set by the Admin); hourly summary of waiting claims to Managers.
7	Requests	Time-limit scan (every 15 min)	Opens escalations for requests past their deadline or unassigned too long; closes them when back on track.
8	Requests	Swap expiry (every 5 min)	Swap invitations not answered in time expire.
9	Maintenance	Inspection runs (daily 06:00)	Starts the scheduled inspection runs of each Block.
10	Notifications	Email dispatch (every 30 s)	Sends queued emails; demo accounts' emails go to the demo mailbox.
11	Notifications	Push after commit	Sends push messages to the user's Android devices after the transaction commits; disables expired tokens.

#	Feature	System Function	Description
12	Accounts	Session cleanup (daily 03:15)	Removes expired sessions.
13	All	REST API `/api`	JSON API used by the web app and the Android app (contract `docs/api-contract.md`); bearer token sessions.

3.1.5 Entity Relationship Diagram

The main entities and their relationships (the full logical ERD of 98 tables is in Report 4, section 2).

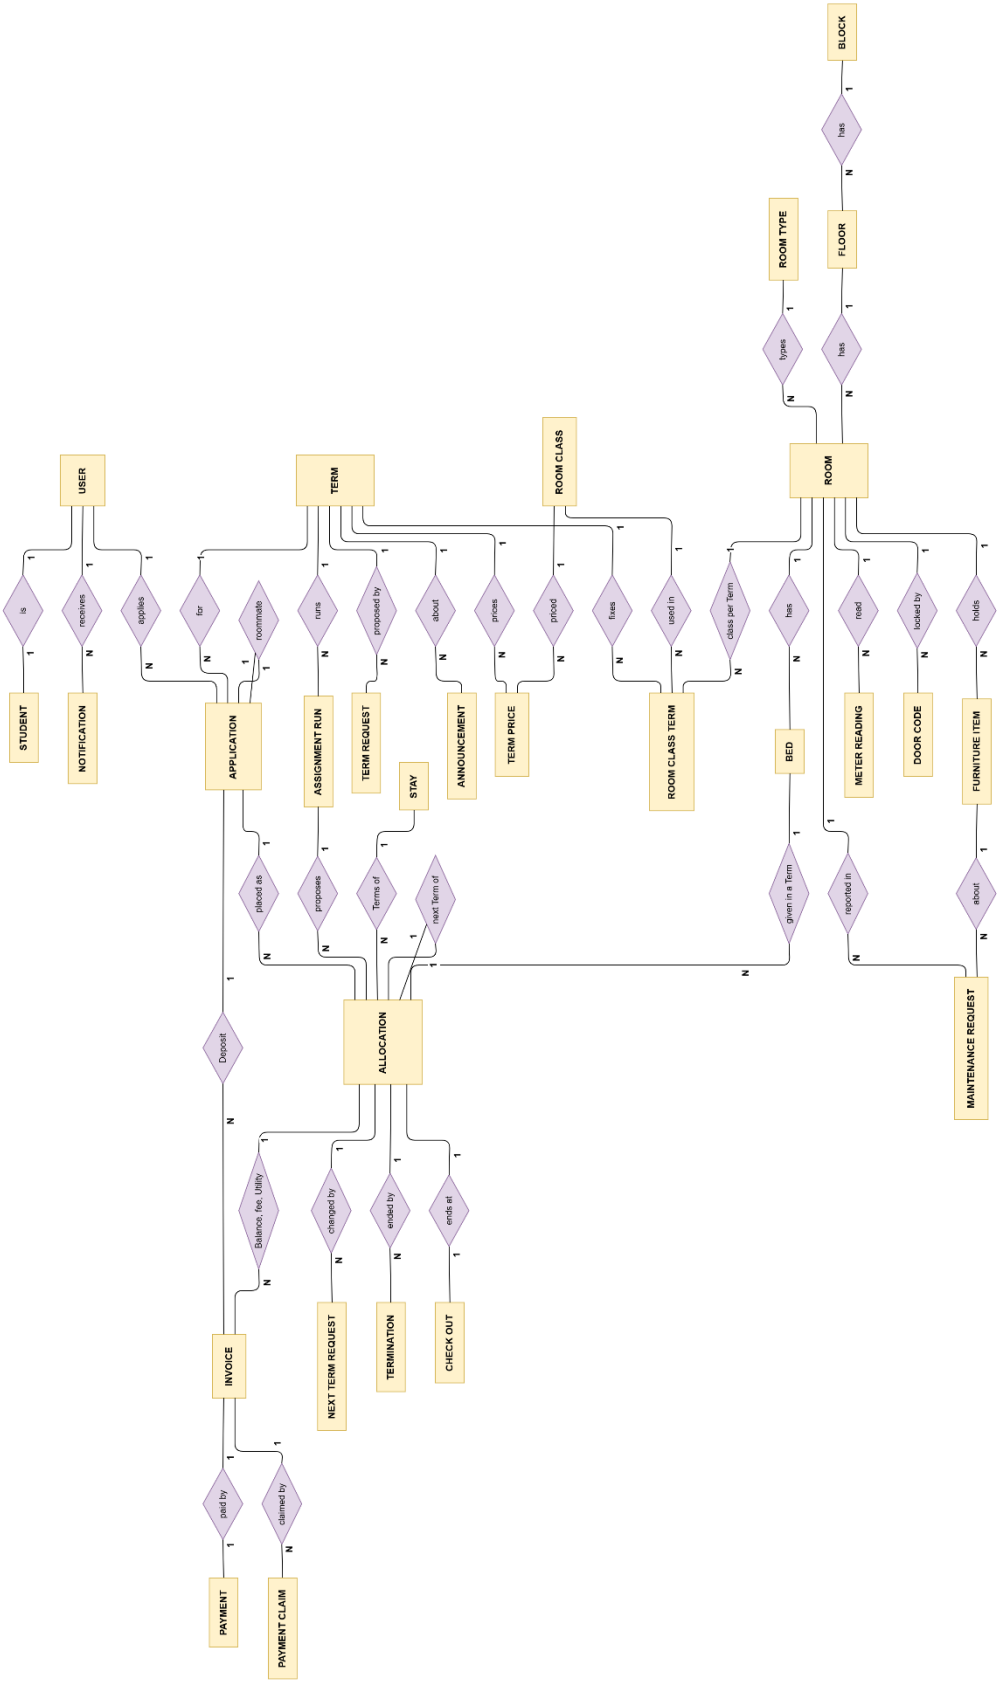

Figure 10: Conceptual ERD of the main entities in Chen's notation (every relationship is a foreign key of the schema)

#	Entity	Description
1	User (auth_user)	Every account: student, Staff, Manager, Admin; email, password hash or Google subject, role, status, language.
2	Student (auth_student)	Directory record of a student: code, gender, major, cohort, region, enrollment, priority groups, verification.
3	Block (inv_building)	A dormitory building with its gender.
4	Room (inv_room)	A Room of a Floor with its Room Type and the Room Class per Term.
5	Bed (inv_bed)	A Bed of a Room.
6	Furniture item (inv_furniture_item)	An item with an asset code in a Room or a Block store.
7	Door code (inv_door_code)	A Room's code, encrypted; proposed, active, retired.
8	Term (cfg_term)	A Term with its stay dates, registration and renewal milestones, prices and rules fixed at publication.
9	Room Type, Room Class, Term price	Bed count and base price; surcharge and amenities; the Term's price per combination.
10	Registration-period request (cfg_term_request)	A Manager's proposal of a Term, answered by the Admin.
11	Application (app_application)	A student's Application for a Term.
12	Assignment run (asg_run)	A run of the assignment engine with its proposal.
13	Allocation (asg_allocation)	A student's Bed in a Term (current or next Term).
14	Stay (asg_stay)	Terms committed and used by a student.
15	Check-out, termination	The end of an Allocation at the desk; a stay terminated for a reason.
16	Invoice, payment claim, payment	Money owed, the student's claim of a transfer, the confirmed payment.
17	Meter reading	A Room's monthly electricity and water readings.
18	Room change, swap, stay request, Room Class change	Next-Term requests of residents.
19	Maintenance Request	A reported problem with its assignee and time limit.
20	Notification, announcement	In-app messages and dormitory-board posts.

Sections 3.2 to 3.12 describe each function group. Every function has an ID (FR-<feature>-nn) used by the state diagrams (Report 4) and the test cases (Report 5); *Tests* names the automated test cases that check it (`docs/backend/04_Test_Catalog.md`). Screen codes are those of section 3.1.2.

3.2 Accounts and access (AUTH)

3.2.1 FR-AUTH-01 Sign in with email and password

Item	Description
Trigger	The user opens any page without a session, or chooses Sign in (SCR-AUTH-01 `/signin`).
Actors	Student, Staff, Manager, Administrator
Description	The user types the email and password and may tick "Remember me". The API returns a session token and the user (role, Blocks, language); the web app opens the role's home page.

Item	Description
Details	Wrong password and unknown email get the same message (no account discovery). The fifth wrong password in a row locks the account for the configured time, even if the next password is right. A locked, disabled or rejected account cannot sign in; a rejected student sees the Manager's reason. Sign-out revokes the token at once. A request without a token gets 401; a role without the permission gets 403.
Tests	TC-AUTH-001, 002, 003, 004, 005, 006, 008

3.2.2 FR-AUTH-02 Sign in with an FPT Google account

Item	Description
Trigger	"Sign in with Google" on SCR-AUTH-01 (web popup or redirect flow) or on the Android sign-in screen.
Actors	Student, Staff, Manager, Administrator
Description	Google returns an ID token (or a code the API exchanges); the API verifies it and the hosted domain `fpt.edu.vn`. An existing account signs in. An unknown FPT student address creates a student account without a password; an address that ends with the code of an imported, unused student record signs in to that record and verifies it.
Details	Until a new account sets a password (SCR-AUTH-05) only the setup endpoints answer. Exactly one of code and credential is accepted. A used or expired code is the user's retryable error (401); a Google outage or a wrong client secret is a server error (503), and without Google configuration the button answers that sign-in with Google is off. The redirect flow is accepted only for the web app's own sign-in page.
Tests	TC-AUTH-009, 010, 029–033, 038, 040, 051, 052

3.2.3 FR-AUTH-03 Password reset, invitation and change

Item	Description
Trigger	"Forgot password" (SCR-AUTH-02), the link of a reset or invitation email (SCR-AUTH-03, SCR-AUTH-04), the first Google sign-in (SCR-AUTH-05), or the profile's "Change password".
Actors	All users
Description	A reset email holds a one-use link; the new password replaces the old one and signs out every earlier session. An invited Staff account sets its password from the invitation link. A change needs the current password and keeps the current session.
Details	"Forgot password" never reveals whether the email exists. Passwords must meet the strength rule (length, letters and digits); a weak one is a field error and the link stays usable. A used or expired link is refused.
Tests	TC-AUTH-007, 012, 022–027

3.2.4 FR-AUTH-04 Student account verification

Item	Description
Trigger	A new Google account without a matching student record opens any page (redirected to SCR-AUTH-06); a Manager opens Students › Waiting for verification (SCR-AUTH-13).
Actors	Student, Manager
Description	The student fills the sign-up form: student code, full name, gender, date of birth, major, cohort, phone. The account becomes Pending verification: the student can read the board and the Term details but cannot apply. A Manager compares the form with the student list and verifies it (the important fields are locked) or rejects it with a reason (the account is locked and signed out). A later import that matches the code verifies it automatically.

Item	Description
Details	Every field and the code pattern (2 letters + 6 digits) are checked; a code already used by another account is refused. Managers are notified of each waiting account; the student is notified of the decision.
Tests	TC-AUTH-039, 041, 045, TC-APP-022

3.2.5 FR-AUTH-05 Import the student list

Item	Description
Trigger	Manager › Residents › Import student list (SCR-AUTH-15).
Actors	Manager, Administrator
Description	Download the template, upload a CSV (UTF-8; comma, semicolon or tab) or XLSX file, read the preview line by line (New, Update, Unchanged, Error with the reason), confirm. Columns: student code, full name, email, gender, date of birth, major, cohort, semester, hometown, region, enrollment status, priority groups.
Details	Lines are matched on the student code; a code or email repeated in the file, or an email used by another account, is an error. Confirming saves the valid lines (error lines are skipped and counted), creates and updates accounts and verifies the waiting accounts that match; optionally, students the file does not list become Not enrolled. A file is imported once. Every import is written to the Audit Log.
Tests	TC-AUTH-046, 047, 048

3.2.6 FR-AUTH-06 Users, roles and permissions

Item	Description
Trigger	Admin › System › Users and Roles (SCR-AUTH-11).
Actors	Administrator
Description	Lists back-office accounts with filters by role and Block; invites a user (email, name, role, Blocks), changes role and Blocks, disables and restores accounts; shows the permission matrix that the API enforces.
Details	Disabling signs the user out at once and is audited. The Admin cannot disable or demote their own account. Invitation validation names each field.
Tests	TC-AUTH-011, 013–017

3.2.7 FR-AUTH-07 Staff accounts and workload

Item	Description
Trigger	Manager › Staff accounts (SCR-AUTH-16) and Operations › Block Staff (SCR-AUTH-10).
Actors	Manager
Description	A Manager creates Staff accounts for one or more Blocks (Invited, set-password email), renames them, changes their title, Blocks, the request types they handle and their duty, disables and restores them, and sees each member's open and finished work.
Details	One waiting request per email; disabling signs the member out. Managers act on every Block.
Tests	TC-AUTH-019, 020, 021, 049, 050

3.2.8 FR-AUTH-08 Reconcile the enrolled list

Item	Description
Trigger	Manager › Residents › Reconciliation (SCR-AUTH-17), before the next-Term fees (M5) and again at the start of the new Term.

Item	Description
Actors	Manager
Description	The Manager uploads the enrolled list of a Term (recommended) or a list of leavers. The system compares it with the Term's residents, continuing residents and applicants and shows four groups (BR-23).
Details	Items of groups 1 and 2 must be resolved one by one with a note (audited). "Not enrolled" cancels the next-Term Allocation, rejects the Application or, during a Term, starts a termination. Next-Term fees cannot be issued while an item is open.
Tests	TC-AUTH-053, 054, 055

3.2.9 FR-AUTH-09 Audit Log and student directory

Item	Description
Trigger	Admin › System › Audit Log (SCR-AUTH-12); Manager or Staff › Students and the student hub (SCR-AUTH-13, SCR-AUTH-14).
Actors	Administrator (Audit Log); Manager, Staff (students)
Description	The Audit Log lists every configuration change, irreversible action, export, import, door-code view and demo reset with who, when, what and the old and new values, filtered by date, actor, action and object. The student hub shows a student's profile, account, Bed, Applications, Invoices, requests and history.
Details	Nobody can edit or delete Audit Log entries; a date range longer than allowed is refused. Managers see every student, correct directory fields (checked and audited) and lock or unlock a student account (a locked account is signed out at once); Staff see only the residents of their Blocks and cannot edit.
Tests	TC-AUTH-018, 042, 043, 044

3.3 Registration periods and configuration (CFG)

3.3.1 FR-CFG-01 Room Types, Room Classes and default prices

Item	Description
Trigger	Admin › Prices and fees › Room Types, Room Classes, Deposit (SCR-CFG-02, SCR-CFG-03, SCR-CFG-04).
Actors	Administrator
Description	Room Types (name, number of Beds, base price per Term, roommate invitation for 2 Beds) and Room Classes (Basic, Standard, Premium: surcharge, amenities, required furniture) are the defaults for new Terms; the Deposit percentage and refund rules are set here.
Details	Names are unique; changing a Room Type's Beds adds or retires Beds in its Rooms (refused when occupied); the surcharge is bounded; each screen shows where a value is used. A change creates a change announcement (BR-33).
Tests	TC-CFG-005, 006, 007, 008

3.3.2 FR-CFG-02 Utility prices and Utility Deposit

Item	Description
Trigger	Admin › Prices and fees › Utility (SCR-CFG-20).
Actors	Administrator
Description	Electricity and water unit prices with the month they apply from, the rounding rule, the Utility Deposit (estimate per month × months) and the Utility due days.
Details	Values outside the option lists are refused; every change is audited and announced.

Item	Description
Tests	TC-CFG-013

3.3.3 FR-CFG-03 Rules: eligibility, priority, matching, deadlines, refunds, stay

Item	Description
Trigger	Admin › Rules (SCR-CFG-05, SCR-CFG-06, SCR-CFG-24, SCR-CFG-25, SCR-CFG-26).
Actors	Administrator
Description	*Who may apply?* criteria as sentences with on/off and "n students fail this now"; *Who is placed first?* ordered priority groups; *How are roommates matched?* criteria with levels and weights; deadlines and reminders; refund, penalty and termination rules; stay and renewal (*Gia hạn* maximum, automatic extension, reserved share, escalation before M4).
Details	Matching weights must total 100 %; saving creates a new snapshot that later Terms copy; a dry run shows the effect on current Applications without allocating. Out-of-range values are refused; each group lists where its settings act.
Tests	TC-CFG-009, 010, 024, 025

3.3.4 FR-CFG-04 Registration-period requests

Item	Description
Trigger	Manager › Registration › Period requests › New (SCR-CFG-22); the Admin opens the request from the notification.
Actors	Manager, Administrator
Description	A Manager proposes a Term: dates and milestones, Blocks, Rooms left out (typed or imported from an Excel or CSV list of Room codes), places per Room Type × Room Class × gender, prices and notes. Other Managers comment; the Admin comments, asks for changes with a note, rejects with a reason, or builds the Term from it (FR-CFG-05).
Details	Statuses: Submitted; In progress when the Admin takes it or builds the Term; Done when the Term is published. From any open status the Admin may ask for changes (Needs changes; the Manager sends it again) or reject it. One open request per target Term. Missing fields and unknown Blocks are named per field. Every Admin and Manager concerned is notified at each step.
Tests	TC-CFG-016, 017, 018, TC-INV-025

3.3.5 FR-CFG-05 Build and publish a Term

Item	Description
Trigger	Admin › Registration periods › Terms › New, or "Build the Term from this request" (SCR-CFG-01, SCR-CFG-23).
Actors	Administrator
Description	Seven-step wizard, each step saved as a draft: General, Timeline, Rooms and places, Prices, Rules, Information, Review and publish. Publishing fixes the Term's prices, Deposit, Utility Deposit and rules, creates the Term announcement and shows the Term to students.
Details	The Timeline step checks the milestone order (M1 ≤ M2 < M3 < M4 ≤ M5 ≤ M6 < M7, registration close ≤ results, check-in start ≥ the previous Term's check-out). A Draft with unsaved steps cannot be published. After publishing a passed date is fixed and an open deadline can only be extended; every change needs a reason and creates a change announcement. A value the Admin changes from the Manager's request needs a reason.
Tests	TC-CFG-001–004, 019–023

3.3.6 FR-CFG-06 Block settings

Item	Description
Trigger	Manager › Operations › Block settings (SCR-CFG-20 Block Settings).
Actors	Manager
Description	Desk hours, visiting and quiet hours, house rules and the urgent and normal time limits of a Block, within the Admin's limits.
Details	Values outside the limits or out of order are named per field; a change is audited and announced to the Block's residents.
Tests	TC-CFG-014, 015, TC-NTF-043

3.3.7 FR-CFG-07 System parameters and notification texts

Item	Description
Trigger	Admin › System › System Parameters (SCR-CFG-08); Admin › Notifications › Templates (SCR-CFG-07).
Actors	Administrator
Description	Typed parameters (limits, windows, timers) with their meaning; notification templates in Vietnamese and English with their variables.
Details	An invalid value is named by its key; a Manager or Staff cannot open Admin configuration (403).
Tests	TC-CFG-011, 012

3.3.8 FR-CFG-08 Demo data reset

Item	Description
Trigger	Admin › System › Demo data (SCR-CFG-27), only when the server sets `DEMO_TOOLS=true`.
Actors	Administrator
Description	The Admin chooses a stage (0 empty, A registration, B residence, C Term transition), types RESET and confirms; business data are replaced by scenarios dated relative to today; accounts, Blocks and Rooms stay. Scenario accounts and sample import files are listed for the demo.
Details	An unknown stage, a missing RESET or a database without the base data is refused; with the switch off every call is refused. Each reset is audited.
Tests	TC-CFG-026–029

3.4 Inventory, Room Classes, furniture and door codes (INV)

3.4.1 FR-INV-01 Blocks, Floors, Rooms and Beds

Item	Description
Trigger	Admin › Buildings and rooms (SCR-INV-01); Staff and Manager › Rooms (SCR-INV-10).
Actors	Administrator; Staff, Manager (read, out of service)
Description	Blocks with gender, Floors, bulk generation of Rooms by Room Type and Room Class, Beds; a Room map per Floor with each Bed's state (empty, assigned unpaid, resident, leaving, moving in next Term, out of service). Rooms go out of service and back with a reason.
Details	An occupied Room cannot go out of service; a Block with residents cannot change gender; generating again adds nothing; bad ranges are refused. Staff see only their Blocks; students cannot read the inventory.
Tests	TC-INV-001–007, 012

3.4.2 FR-INV-02 Room Class per Room per Term

Item	Description
Trigger	Manager › Inventory › Room Classes by Term (SCR-INV-11).
Actors	Manager
Description	Lists the Rooms of the next Term to start with each Room's class and furniture conformance; a Manager sets the class of Rooms from a Term on.
Details	A running Term keeps its classes; a Room whose Beds are already given for the Term keeps its class (BR-11). Only Managers set classes.
Tests	TC-INV-008–011

3.4.3 FR-INV-03 Furniture types, items and QR labels

Item	Description
Trigger	Admin › Furniture types (SCR-INV-14 Furniture types); Staff and Manager › Furniture (SCR-INV-13).
Actors	Administrator, Manager, Staff
Description	Furniture types (code, Vietnamese and English names, category, defines Room Class or standard) and the furniture each Room Class requires; items with asset code, QR label, status (In use, Broken, In repair, In store, Disposed) and place (a Room or the Block store); moves with reason and history.
Details	Managers register items; Staff move items inside their Block (the status follows the place and the Room's conformance changes); moves between Blocks are the Managers'. Disposed is final. Every change is recorded.
Tests	TC-INV-013–018

3.4.4 FR-INV-04 Door codes

Item	Description
Trigger	Staff › Rooms › Door codes (SCR-INV-12); a resident leaving a Room creates a "change door code" task; the student's My Room (SCR-ASG-01).
Actors	Staff, Student, System
Description	Staff draw a random code, type one or import a CSV (Room, code), set it on the lock and confirm it; the code becomes the Room's code and is released to the paid residents (FR-ASG-04). The student reveals the code behind a "show" button.
Details	Codes are 6 digits, never the previous one, stored encrypted; a CSV is checked line by line. Other Blocks and roles are refused. Every view is audited; push texts never contain the code. When a resident leaves, one task opens and the Block's Staff are told.
Tests	TC-INV-019–023

3.4.5 FR-INV-05 Room hub

Item	Description
Trigger	A Room code in any list or in the header search (SCR-INV-14 Room hub).
Actors	Staff, Manager
Description	One page per Room: current and next-Term residents, Room Class per Term and furniture conformance, door-code state, meter readings, Maintenance Requests and inspections.
Details	Staff see only Rooms of their Blocks.
Tests	TC-INV-024

3.5 Applications (APP)

3.5.1 FR-APP-01 Term and eligibility

Item	Description
Trigger	Student Home › the registration card › Apply (SCR-HOME-01, SCR-HOME-05, SCR-APP-01 step 1).
Actors	Student
Description	Shows the Term open for registration (dates, countdown, places, prices by Room Type × Room Class, house rules, FAQ) and checks every enabled eligibility criterion for the student.
Details	A failed criterion is shown with its reason and the student cannot continue; a pending account is told it must be verified; a continuing resident is sent to the next-Term requests.
Tests	TC-APP-001, 022, TC-CFG-023

3.5.2 FR-APP-02 Application wizard and Deposit Invoice

Item	Description
Trigger	SCR-APP-01 steps 2–4.
Actors	Student
Description	The student chooses a Room Type and a Room Class, a roommate mode (2-bed only), *Gia hạn* (1 to the maximum, capped by the semesters left), contact details and consent to the house rules, reviews and submits. The Application is Awaiting Deposit and a Deposit Invoice is issued (BR-06); the student is notified and sees it on Home and My Applications.
Details	One open Application per Term (a second is refused). Contact, consent and roommate rules are named per field.
Tests	TC-APP-002, 003, 023

3.5.3 FR-APP-03 Roommate invitation

Item	Description
Trigger	The roommate step of the wizard (SCR-APP-01) and the invitation page (SCR-APP-04).
Actors	Student
Description	For a 2-bed Room Type a student invites another student by code; the invitee accepts within the roommate window (choosing their own *Gia hạn*) and pays their own Deposit, or declines.
Details	Every unusable code gets the same answer and the number of checks is limited (no student discovery). The first to pay waits as Awaiting Roommate; both become Submitted when both Deposits are confirmed. A declined or expired invitation leaves the inviter matched automatically.
Tests	TC-APP-004, 005, 006

3.5.4 FR-APP-04 Cancel and expire an Application

Item	Description
Trigger	"Cancel" on the Application detail (SCR-APP-03); the Deposit expiry job.
Actors	Student, System
Description	The student cancels before the assignment; an unpaid Deposit is voided, a paid one is refunded by the refund rule. An Application whose Deposit window passes without a claim expires and its Invoice is voided.
Details	After cancelling or expiry the student may apply again while registration is open.
Tests	TC-APP-007, 008

3.5.5 FR-APP-05 Review Applications

Item	Description
Trigger	Manager › Registration › Applications (SCR-APP-10, SCR-APP-11).
Actors	Manager
Description	A queue of Submitted Applications with filters; opening one starts the review; the Manager approves or rejects, one by one or in bulk.
Details	A rejection needs a note and happens once; every Manager sees every Block's Applications; Staff and students cannot review.
Tests	TC-APP-010, 011

3.5.6 FR-APP-06 My Applications

Item	Description
Trigger	Student › Registration › My Applications (SCR-APP-02, SCR-APP-03).
Actors	Student
Description	The student's Applications with status, Term, Room Type and Class, *Gia hạn*, roommate, Invoices and history.
Details	Another student's Application answers 404; Staff cannot use student screens.
Tests	TC-APP-009

3.5.7 FR-APP-07 Round 2

Item	Description
Trigger	Manager › Registration › Round 2 (M8); the student's offer page (SCR-ASG-02).
Actors	Manager, Student
Description	Beds freed by unpaid Balances, unpaid next-Term fees, ended stays and terminations are offered to Waitlisted students; each student receives held options and accepts one (Allocated with a Balance Invoice) or declines.
Details	Offers expire after the configured time; an expired or declined offer returns the Bed to the pool.
Tests	TC-APP-020, 021

3.6 Assignment, residence and Term transition (ASG)

3.6.1 FR-ASG-01 Assignment run

Item	Description
Trigger	Manager › Registration › Assignment › Run (SCR-ASG-10).
Actors	Manager
Description	The engine places Approved Applications on free Beds of the Term: hard constraints first (gender of the Block, Room Type and Class applied for, invited pairs together), then priority groups and the matching criteria and weights of the Term's snapshot. A dry run is a preview that allocates nothing.
Details	Same input, same proposal (deterministic). A student no longer eligible is flagged and never placed; an invited partner missing from the run blocks the pair (PARTNER_NOT_READY); a student without a Bed gets NO_BED; a weak placement is marked LOW_FIT. A real run is refused before M3 or while next-Term requests are open (BR-13).
Tests	TC-ASG-001–006

3.6.2 FR-ASG-02 Resolve conflicts

Item	Description
Trigger	The proposal review (SCR-ASG-11).
Actors	Manager
Description	Conflicts (NO_BED, PARTNER_NOT_READY, not eligible) are listed with their reason; for each one the Manager keeps the proposal, places the student without the roommate, offers another Room Class or another Room Type and Class where Beds are free, or sends the student to the waitlist.
Details	Conflicts are never resolved silently; the proposal cannot be committed while a conflict is open.
Tests	TC-ASG-010

3.6.3 FR-ASG-03 Approve the assignment and issue Balances

Item	Description
Trigger	"Commit" per Block or for all Blocks on SCR-ASG-11.
Actors	Manager
Description	Committing creates the Allocations (Assigned – unpaid), marks the Applications Allocated or Waitlisted, issues the Balance Invoices (Term price − Deposit + Utility Deposit) and notifies the students; the Stay starts with *Gia hạn* Terms.
Details	Students and Staff cannot run or commit. Bed locks and the unique index keep one Allocation per Bed per Term (NFR-03).
Tests	TC-ASG-010, 011

3.6.4 FR-ASG-04 Check-in, door code release and My Room

Item	Description
Trigger	The release job every 15 minutes; Staff › Desk › Check-in (SCR-REQ-11); the student's My Room (SCR-ASG-01).
Actors	System, Staff, Student
Description	When the Balance is paid, the check-in start has come and the Room's code is confirmed, the code is released and the student becomes a resident (BR-14). At the desk Staff find the student by code, name or the check-in pass (QR) and record the hand-over (key, card, items). My Room shows the Room, Bed, roommates, furniture, door code, Stay and next-Term state.
Details	Until the Balance is paid the desk refuses check-in. Another Block's Staff do not find the student; students and the Admin have no desk.
Tests	TC-ASG-020, 021, 032, TC-INV-023

3.6.5 FR-ASG-05 Late check-in

Item	Description
Trigger	Student › Requests › Late check-in (SCR-MNT-01); Staff at the desk; Manager › Decisions (SCR-REQ-20).
Actors	Student, Staff, Manager
Description	The student (online) or Staff (desk) record the request with a reason, the requested day and an evidence file; a Manager approves with a new deadline or rejects with a reason.
Details	Allowed up to the check-in end plus `late_check_in.max_days`. An approved, unexpired late check-in extends the Balance deadline and the arrival deadline.

Item	Description
Tests	TC-ASG-030, 031, 037

3.6.6 FR-ASG-06 Check-out and settlement

Item	Description
Trigger	Staff › Desk › Check-out (SCR-REQ-12).
Actors	Staff, Manager (refund)
Description	Staff record the final meter reading, the key or card returned, the Room's condition and the damage of each furniture item. The Utility Deposit is settled (BR-24): the refund goes to a Manager, a shortfall becomes an Invoice. The Allocation ends and the Room's door code must change.
Details	The damage charge is the sum of the items' damage; the meter is cut and the leaver's Utility share is marked settled. Leavers not checked out by the date appear on the overdue check-out list.
Tests	TC-ASG-022, 023, 045, TC-BIL-029

3.6.7 FR-ASG-07 Requests window (M2, M3)

Item	Description
Trigger	The requests-window job at M2 and M3 of the next Term.
Actors	System
Description	At M2 every resident not leaving gets a next-Term Allocation on the same Bed: Continuing when Terms are left on the Stay, Awaiting extension in its last Term; students are told on My Room and by notification. At M3 filing closes and Beds still Awaiting extension are released (the student is told in-app and by email).
Details	Each milestone runs once. Maintenance Requests and late check-ins stay open after M3.
Tests	TC-ASG-038, 039

3.6.8 FR-ASG-08 Next-Term fees (M6, M7)

Item	Description
Trigger	Manager › Finance › Next-Term fees (Term transition, SCR-ASG-20); the M7 job.
Actors	Manager, System
Description	The preview gives the count and total per Block, Room Type and Room Class and names what blocks the issue (filing open, requests undecided, reconciliation open). Issuing creates one Invoice per continuing resident (100 % of the next Term's price of the Bed). At M7 a fee unpaid with no claim waiting is voided and the Bed released; the student must check out at the end of the Term.
Details	Blocked until BR-22 holds. Reminders 3 and 1 days before M7. A fee cannot be claimed while a Utility Invoice is overdue.
Tests	TC-ASG-040, 041

3.6.9 FR-ASG-09 Terminations

Item	Description
Trigger	Manager › Residents › Terminations (SCR-ASG-12); the Utility debt rule; reconciliation.
Actors	Manager, System
Description	A termination has a reason (Utility debt, not enrolled, Manager decision) and a move-out date. Statuses Notice sent → Checked out / Cancelled / Overdue.

Item	Description
Details	The student is told with the date; only a Manager cancels, with a reason. Past the move-out date it is Overdue: Managers and the Block's Staff are told and the Room's code must change. At move-out the Allocations end and refunds follow the rule.
Tests	TC-ASG-035, 036, TC-BIL-038

3.6.10 FR-ASG-10 Operational moves and turnover

Item	Description
Trigger	Staff › Operational moves (SCR-ASG-21); Staff › Term transition › turnover (SCR-ASG-20).
Actors	Staff, Manager
Description	Staff (own Blocks) or a Manager move a resident to another Bed for a recorded reason, without charge: both meters are read, the old Room's code must change and the new Room's code is released. The turnover view lists leavers to check out, movers, arriving students and Rooms needing a reading and a new code; from the next Term's check-in start paid continuing residents receive their Room's code.
Details	After next-Term fees are issued Staff may no longer move a next-Term Bed; a Manager may move an unpaid one.
Tests	TC-ASG-042, 043, 044

3.6.11 FR-ASG-11 Balance forfeit

Item	Description
Trigger	The forfeit job every 5 minutes.
Actors	System
Description	A Balance past its deadline with no claim waiting and no approved late check-in is forfeited: the Allocation is cancelled, the Balance voided, the Application Forfeited, the Deposit kept by the refund rule *Balance not paid*, the Bed goes to Round 2 and the student is told.
Details	A Balance whose claims are rejected twice is cancelled the same way.
Tests	TC-ASG-033, 034

3.7 Payments and billing (BIL)

3.7.1 FR-BIL-01 Invoices and the VietQR payment page

Item	Description
Trigger	Student › Payments (SCR-BIL-01) › an Invoice (SCR-BIL-02, SCR-BIL-03 for Utility).
Actors	Student
Description	The student's Invoices (Deposit, Balance, next-Term fee, Utility, charges) with status and deadline; the payment page shows the VietQR image, bank, account, amount and the transfer content to type.
Details	The QR image can be refreshed; another student's Invoice answers 404.
Tests	TC-BIL-001, 006

3.7.2 FR-BIL-02 Claim a transfer

Item	Description
Trigger	"I have transferred" on the payment page.
Actors	Student

Item	Description
Description	The claim (with an optional bank reference) moves the Invoice to Awaiting confirmation and stops every deadline that depends on it (BR-07).
Details	One claim at a time; a Paid or Void Invoice and a Deposit past its deadline cannot be claimed. A Utility Invoice is a debt: a claim after its due date leaves the date as it was.
Tests	TC-BIL-032, 034, 035

3.7.3 FR-BIL-03 Confirm or reject payment claims

Item	Description
Trigger	Manager › Finance › Payment confirmations (SCR-BIL-13); the hourly summary of waiting claims.
Actors	Manager
Description	The queue lists claims with filters (type, Term, Block, claimed since). The Manager confirms one or many (dialog with count and total; optional bank reference and receipt) or rejects with a reason. A Manager may also confirm one Invoice whose transfer is on the bank statement although the student did not claim it; the claim is then recorded in the Manager's name. A confirmed Invoice is Paid and the next step runs (Application Submitted, door code release, Stay counts the Term).
Details	A rejection returns the Invoice to Unpaid with the time that was left (at least the minimum); a second rejection cancels it and what depends on it. Each Invoice is audited separately; receipt files are checked by content; a Void Invoice cannot be confirmed.
Tests	TC-BIL-010, 011, 012, 033

3.7.4 FR-BIL-04 Meter readings and Utility Invoices

Item	Description
Trigger	Staff › Utility › Meter readings (SCR-UTL-10).
Actors	Staff
Description	The month opens on first use; Staff enter or import (CSV) each Room's electricity and water readings; closing the month issues each resident's Utility Invoice with its breakdown (BR-25).
Details	A reading may not go back; an unusual jump waits for a confirmation; a CSV is checked completely before anything is saved; a closed month is read-only. Shares follow the days each resident lived in the Room; without an end reading nothing is shared.
Tests	TC-BIL-022–026, 030, 031

3.7.5 FR-BIL-05 Overdue Invoices and Utility debt

Item	Description
Trigger	The overdue job every hour; Manager › Finance › Overdue and reminders (SCR-BIL-20).
Actors	System, Manager
Description	Unpaid charges past their due date become Overdue (the student is told). Utility debt gives warning 1, then the final warning with the termination day, then the termination (BR-26).
Details	A Balance past its deadline is forfeited (FR-ASG-11), not Overdue. Paying everything closes the warnings. Each warning is sent once.
Tests	TC-BIL-020, 037, 038

3.7.6 FR-BIL-06 Refunds

Item	Description
Trigger	A cancelled Application, a check-out settlement or a termination creates a refund; Manager › Decisions (SCR-REQ-20).
Actors	Manager
Description	Refunds follow the rule of their trigger (percentage, approver); the Manager approves or rejects with a note; the student is told. A refund is its own record; the Invoice stays Paid.
Details	An Invoice is refunded at most once.
Tests	TC-BIL-021, TC-APP-007

3.7.7 FR-BIL-07 Payment reminders and collections

Item	Description
Trigger	The reminder job every hour; Manager › Finance › Payments (SCR-BIL-10).
Actors	System, Manager
Description	Reminders before Balance and next-Term fee deadlines (3 and 1 days by default); the Managers' summary of waiting claims; the payments list with filters, totals and CSV export.
Details	A reminder is sent once per deadline and never while a claim is waiting. Every Manager sees every Block; Staff do not see payments.
Tests	TC-BIL-010, 036

3.8 Next-Term requests, routing and time limits (REQ)

3.8.1 FR-REQ-01 Next-Term room change

Item	Description
Trigger	Student › Requests › Room change (SCR-REQ-02), between M2 and M3.
Actors	Student, Staff, Manager
Description	The student sees the next-Term Bed and the next Term's prices and asks for another Room Type, Room Class or Block with a reason. Staff of the Block (same Block) or a Manager (other Block) approve with a free matching Bed of the next Term, or reject with a listed reason.
Details	One open request per student; the student never picks the Bed. Approval moves the next-Term Allocation; nothing changes in the current Term (BR-18).
Tests	TC-REQ-001, 002, 003

3.8.2 FR-REQ-02 Swap of next-Term Beds

Item	Description
Trigger	Student › Requests › Swap (SCR-REQ-03), the swap board (SCR-REQ-04), the invitation (SCR-REQ-05); Staff › Swap requests (SCR-REQ-13).
Actors	Student, Staff, Manager
Description	A direct swap with a named student, or an anonymous post on the swap board with the next-Term Bed and its price; when the partner accepts, Staff (one Block) or Staff then a Manager (two Blocks) approve and the two next-Term Allocations exchange Beds.
Details	Invitations expire; after next-Term fees are issued no swap is carried out.
Tests	TC-REQ-010, 011, 012

3.8.3 FR-REQ-03 Room Class change of a Room

Item	Description
Trigger	Student › Requests › Room Class change (SCR-REQ-08).
Actors	Student, Staff, Manager
Description	A continuing resident or a Manager asks for another class for the Room from the next Term; every other continuing resident must agree (BR-19); Staff check the furniture and approve, and the Room's class for the next Term is set. After approval a Manager may set the class back, and the price difference of that Term is settled.
Details	A resident in the Stay's last Term is not asked; a refusal, or the requester not continuing next Term, cancels the request; a resident who joins the Room before the decision must consent too.
Tests	TC-REQ-020

3.8.4 FR-REQ-04 Extension and end of stay

Item	Description
Trigger	Student › My Room › Stay (SCR-ASG-01) or Requests.
Actors	Student, Staff, System
Description	An extension adds Terms to the Stay; in the last Term it turns the next-Term Allocation from Awaiting extension to Continuing. An end of stay cancels the next-Term Allocation and frees the Bed.
Details	Automatic when the student is enrolled and has nothing overdue; otherwise Staff decide (BR-21).
Tests	TC-REQ-019

3.8.5 FR-REQ-05 Decide next-Term requests

Item	Description
Trigger	Staff › Requests (SCR-REQ-10); Manager › Residents › Requests across Blocks.
Actors	Staff, Manager
Description	The requests window in one list (room changes, swaps, Room Class changes, extensions, ends of stay), oldest first, with the time left to M4; bulk decisions with a reason.
Details	Undecided requests escalate to Managers from 48 hours before M4; the Manager may offer a temporary Bed.
Tests	TC-REQ-018, 021

3.8.6 FR-REQ-06 Routing rules and time limits

Item	Description
Trigger	Manager › Operations › Request Routing Rules (SCR-REQ-20 Routing).
Actors	Manager
Description	Rules per Block that assign each request type and category to a Staff member, with a fallback when the assignee is off duty; urgent and normal time limits; the list of the Block's staff with their open and finished work.
Details	A new Maintenance Request goes to its category's rule first, else the rule for all; a next-Term request is due at M4. Rules and timers are validated; Managers only, in scope.
Tests	TC-REQ-013, 014, 015, 022

3.8.7 FR-REQ-07 Overdue requests (escalations)

Item	Description
Trigger	The time-limit scan every 15 minutes; Manager › Operations › Overdue requests (SCR-REQ-21).
Actors	System, Manager
Description	A request unassigned too long or past its deadline opens one escalation for Managers; the Manager reassigns it or notes the action.
Details	An escalation closes by itself once the request is back on track; one reassignment per escalation.
Tests	TC-REQ-016, 017, TC-MNT-008

3.9 Maintenance and inspections (MNT)

3.9.1 FR-MNT-01 Report a Maintenance Request

Item	Description
Trigger	Student › Requests › New Maintenance Request (SCR-MNT-02) or the Android app; Staff on behalf of a Room.
Actors	Student (resident), Staff
Description	Category, location, description, urgency, photos and optionally the furniture item; the request is routed (FR-REQ-06) and gets its deadline. The student follows it on My Requests (SCR-MNT-01).
Details	Only a resident reports for their Room; the form and photos are validated (type, size).
Tests	TC-MNT-001, 008

3.9.2 FR-MNT-02 Handle Maintenance Requests

Item	Description
Trigger	Staff › Maintenance › Queue (SCR-MNT-10) › a request (SCR-MNT-11).
Actors	Staff, Student (confirm or reopen)
Description	Staff of the Block take or assign, plan the visit, post updates, start, resolve or close (duplicate, not a fault); the student is notified at each step and confirms or reopens once. The furniture item keeps its repair history.
Details	The queue is scoped: another Block's Staff neither see nor count the request; Managers see all. State model in Report 4.
Tests	TC-MNT-002, 003

3.9.3 FR-MNT-03 Inspection checklists

Item	Description
Trigger	Admin › Rules › Inspection Checklists (SCR-CFG-21).
Actors	Administrator
Description	Checklists with items, a Draft published as version 1; editing publishes a new version and keeps the old one as Replaced; archiving pauses the schedules that use it.
Details	A paused schedule cannot resume until another checklist is published.
Tests	TC-MNT-004, 006

3.9.4 FR-MNT-04 Inspection schedules and runs

Item	Description
Trigger	Manager › Operations › Inspection Schedule (SCR-MNT-20); the daily job at 06:00; Staff › Inspection (SCR-MNT-12).
Actors	Manager, Staff, System
Description	A schedule per Block with a checklist and a recurrence starts its runs and notifies residents; Staff record each Room with its own checks (headcount, furniture); a failed item creates a Maintenance Request.
Details	Schedules are the Managers'; runs need Staff. A Room is done only when its own checks are answered (BR-31).
Tests	TC-MNT-005, 007

3.10 Notifications and announcements (NTF)

3.10.1 FR-NTF-01 In-app notifications

Item	Description
Trigger	Every business event of the notification table (spec §10); the bell in the top bar (web) and the Activity tab (Android).
Actors	All users, System
Description	Notifications newest first with the unread count; mark one or all read; each notification links to its object.
Details	Titles and bodies are stored in both languages and shown in the reader's language; someone else's notification answers 404; signed-in users only.
Tests	TC-NTF-001, 002, 003, 038

3.10.2 FR-NTF-02 Push and email

Item	Description
Trigger	A notification whose template asks for push or email.
Actors	System
Description	Push messages go to the user's registered Android devices through FCM after the transaction commits; emails are queued and sent by the dispatcher in the recipient's language.
Details	A device token is stored with its hash, which is used to find it; an unregistered token is disabled. With the demo mailbox set, emails to fictional accounts go to it (recipient in the subject), real accounts receive their own; without SMTP nothing is sent or thrown.
Tests	TC-NTF-010, 011, 012, 020, 021, 034, 035, 039, 040

3.10.3 FR-NTF-03 Announcements and the dormitory board

Item	Description
Trigger	Announcements (SCR-NTF-22) for Admin, Managers and Staff; automatic change announcements; Student Home.
Actors	Administrator, Manager, Staff, Student
Description	Announcement with title, body, category, audience (all students, residents, residents of Blocks, applicants of a Term), pinned, shown from / until and a link. Students read them on the board at the top of Home and in the bell.

Item	Description
Details	Staff write only to the residents of their Blocks. Changes of money, policy or Block settings create change announcements with old and new values. Stored once with a read state per user.
Tests	TC-NTF-041, 042, 043

3.10.4 FR-NTF-04 Notification templates

Item	Description
Trigger	Admin › Notifications › Templates (SCR-CFG-07).
Actors	Administrator
Description	Templates per event in Vietnamese and English with their variables and sample values; a test send of the unsaved text to the Admin.
Details	Unknown variables and texts longer than the push limit are refused.
Tests	TC-NTF-030, 031, 036, 037

3.10.5 FR-NTF-05 Send emails to student groups

Item	Description
Trigger	Admin › Notifications › Send Email (SCR-NTF-21).
Actors	Administrator
Description	Choose a group (Term, Block, status), write or pick a template, preview the count and the first email, send: one email per student plus the in-app notice and push.
Details	System emails are not offered as campaigns; validation per field; Admin only.
Tests	TC-NTF-032, 033

3.11 Dashboards, reports, exports and search (RPT)

3.11.1 FR-RPT-01 Dashboards per role

Item	Description
Trigger	The home page of each back-office role (SCR-HOME-02 Staff, SCR-HOME-03 Manager, SCR-HOME-04 Admin).
Actors	Staff, Manager, Administrator
Description	Staff: today's desk, queues, Rooms out of service, the Block's Beds, what needs attention. Manager: occupancy, claims waiting, overdue requests, the SLA rate, approvals. Admin: the Term, people, the registration funnel, Blocks, configuration checks and integrations.
Details	Before the first Term the figures are empty, not errors. Staff may not see Manager figures.
Tests	TC-RPT-001–004, 011

3.11.2 FR-RPT-02 Term dashboard and reports

Item	Description
Trigger	Manager › Registration › Term dashboard (SCR-RPT-11); Reports (SCR-RPT-01 Occupancy, SCR-RPT-02 Financial, SCR-RPT-10 Block Reports).
Actors	Manager, Administrator
Description	The Term dashboard shows the milestones in order with progress, Applications by status, places filled per Room Type × Room Class, Deposits and Balances paid, the requests window, next-Term fees and residents released. Occupancy by Block, Room Type and Room Class; money per Block; check-ins per week.

Item	Description
Details	Capacity leaves Rooms out of service out; a Term that has ended still reports who lived there.
Tests	TC-RPT-005, 006, 007, 010, 012, 014

3.11.3 FR-RPT-03 CSV export

Item	Description
Trigger	"Export CSV" on every list.
Actors	Staff, Manager, Administrator
Description	Downloads the list with the screen's columns and filters as CSV.
Details	Quoted values, empty cells, campus times; a value a spreadsheet would run as a formula is neutralised. Every export is written to the Audit Log and respects the user's scope.
Tests	TC-RPT-008, 009

3.11.4 FR-RPT-04 Search

Item	Description
Trigger	The search box of the back-office top bar.
Actors	Staff, Manager, Administrator
Description	Finds students by code or name, Rooms with or without the dash, Invoices and request codes, and opens the student hub, the Room hub or the record.
Details	Results stay inside the user's Blocks.
Tests	TC-RPT-013

3.12 Android app for students (MOB)

3.12.1 FR-MOB-01 Student app

Item	Description
Trigger	The student opens the CampusStay app (Android 8.0 or later).
Actors	Student
Description	Sign in with password or Google, Home (board, next step, Room card, Invoices due), My Room (Room, roommates, door code behind "show", check-in pass QR), Payments (VietQR and "I have transferred"), Activity (notifications with announcements, maintenance and next-Term requests, Report a problem with the furniture item); push notifications open the matching screen. Same API and rules as the web portal; Staff and Managers are sent to the web.
Details	The device token is registered after sign-in and removed at sign-out; the language follows the phone. The Android app has no automated tests yet (known gap G5); it is checked by the manual cases of Report 5.
Tests	Manual (Report 5), API cases of FR-AUTH, FR-BIL, FR-MNT, FR-NTF

4. Non-Functional Requirements

4.1 External Interfaces

User interfaces. A responsive web app (React) for the four roles: the student portal works on phones, tablets and desktops; the back office is designed for desktop (1280 px and wider). An Android app (Kotlin, Jetpack Compose, Android 8.0 / API 26 or later) for students. Both are in Vietnamese and English, chosen by the user (web) or the phone's language (Android); the API answers in the same language (`Accept-Language`). Screen layouts follow the Figma file *CampusStay-FPT*; the screen flows are in section 3.1.1 and the routes in section 3.1.2.

Software interfaces.

Interface	Purpose	Data exchanged	Protocol
Google Identity Services	Sign in with an FPT Google account	ID token (email, subject, hosted domain) verified by the API	HTTPS, OAuth 2.0 / OpenID Connect
Firebase Cloud Messaging	Push to the Android app	Device token, title, body, link (never a door code)	HTTPS, FCM HTTP v1 with a service account
Gmail SMTP	Email (password reset, invitations, warnings, campaigns)	Recipient, subject, HTML body	SMTP over TLS
VietQR image service (qr.sepay.vn)	QR image of a transfer	Bank, account number, amount, transfer content	HTTPS image URL
PostgreSQL 17 (Azure Database for PostgreSQL)	Persistence	All business data	JDBC over TLS
Student list files	Import and reconciliation	CSV (UTF-8, comma, semicolon or tab) or XLSX	File upload

Communication interfaces. All clients call the REST API over HTTPS with JSON bodies and a bearer token (`Authorization: Bearer …`); files are uploaded as multipart and downloaded through short-lived signed links. IDs are JSON strings; money is an integer number of VND; times are ISO-8601 in UTC; calendar days are `YYYY-MM-DD` in the campus time zone (Asia/Ho_Chi_Minh).

4.2 Quality Attributes

Each attribute has a metric, a threshold and a measurement method; NFR-01…NFR-06 are the ones agreed for Defense 1.1 (Design Brief section 7, Report 5 section 4.4).

4.2.1 Usability

- **NFR-05 Two languages:** every screen of the web app and the Android app and every API message is available in Vietnamese and English. Metric: share of user-facing texts with a Vietnamese translation. Threshold: 100 % of API messages and of the web texts. Method: the catalogue `i18n/messages_vi.txt` translated by `Messages` (unit test `MessagesTest`) and a scan of every web route in Vietnamese for English left on screen, run before each release.
- A student completes an Application in at most 5 screens (wizard steps) and a payment claim in 2 actions from the Invoice.
- Every list has search, filters, paging and CSV export; every request shows the time left to its deadline (green, amber in the last hours, red when overdue).
- The student portal works at 375 px width without horizontal scrolling.

4.2.2 Reliability

- **NFR-04 Availability during the demo period:** the production API answers `GET /api/actuator/health` = UP. Threshold ≥ 99 % of 5-minute checks from 01/11/2026 to the final defense. Method: an external uptime check every 5 minutes; deployments use a readiness check and can roll back to the previous image.
- **NFR-03 Integrity:** a Bed is never given twice in a Term and a student never holds two active Allocations in a Term. Threshold: 0 violations. Method: partial unique indexes in the

database plus row locks (`SELECT … FOR UPDATE`) when Beds change hands; a concurrency test that sends parallel commits for the same Bed (planned, Report 5 TC-NFR-03).
- Money: Invoice amounts cannot change once issued and a Paid or Void Invoice never goes back (database trigger); every payment, refund and decision is in the Audit Log.

4.2.3 Performance

- **NFR-01 Response time:** with the base data (8 Blocks, 3,680 Beds, 6,200 students) and 200 concurrent users, the p95 response time of the 10 most used read endpoints is ≤ 1 s and the error rate < 1 %. Method: load test script against a local server with the production configuration.
- The assignment of a whole Term (about 3,000 Applications) completes in ≤ 60 s. Method: timed integration run.

4.2.4 Security

- **NFR-02 Access control:** every endpoint requires a signed-in role except sign-in, password reset and health; Staff are limited to their Blocks; a student reaching another student's record gets 404. Threshold: 100 % of permission and scope tests pass. Method: the permission/scope integration tests (Report 5).
- Passwords are stored with BCrypt; five wrong attempts lock the account; session tokens are random and stored hashed; door codes are stored encrypted (AES-GCM) and every view is audited.
- Personal data are processed according to Vietnam's Personal Data Protection Law 91/2025/QH15 (in force from 01/01/2026): only data needed for the dormitory, access by role, no personal data in URLs or logs, fictional data in seeds and tests, demo emails redirected to the team mailbox.

4.2.5 Maintainability and deployability

- **NFR-06 Delivery:** a change merged to `main` reaches production automatically after the full test suite passes. Threshold: ≤ 15 minutes from push to a healthy production API; rollback to the previous image in ≤ 5 minutes. Method: GitHub Actions run times and the runbook rollback command.
- Layered architecture checked by `LayeringTest`; database changes only through new Flyway migrations; every business value is configuration (no hard-coded prices, windows or limits).

5. Requirement Appendix

5.1 Business Rules

ID	Rule Definition
BR-01	One Application covers exactly one Term; a student has at most one open Application per Term.
BR-02	Only a verified, enrolled student who passes every enabled eligibility check may apply; a pending Google account cannot apply.
BR-03	Students do not choose a Room or Bed; they choose a Room Type and a Room Class, and the assignment places them in a Block of their gender.
BR-04	Roommate invitations exist only for 2-bed Room Types; both students must accept within `roommateHours` and each pays their own Deposit; 4-, 6- and 8-bed Rooms are matched automatically.

ID	Rule Definition
BR-05	*Gia hạn* (Terms committed) is from 1 to `stay.max_terms`, capped by the semesters the student has left.
BR-06	The Deposit is `depositPercent` of the Term price of the chosen Room Type and Room Class, rounded; it must be claimed within the Deposit window (`depositHours`) or the Application expires.
BR-07	A claim ("I have transferred") stops every deadline of its Invoice; a rejected claim gives back the time that was left (at least `payment.rejected_claim_min_hours`); a second rejection cancels a Deposit or Balance. Only a confirmed claim counts as payment.
BR-08	The Balance is the Term price minus the Deposit plus the Utility Deposit; a Balance not paid by its deadline is forfeited: the Bed is released and the Deposit kept by the refund rule.
BR-09	Prices, the Deposit percentage, the Utility Deposit and the rules of a Term are fixed when it is published; a published deadline can only be extended; prices of a Term never change after Invoices exist.
BR-10	The Term price per Bed = base price of the Room Type × (1 + surcharge of the Room Class), rounded by the system parameter; the Room Class of a Room is set per Term.
BR-11	A Room's class can change for a Term only before the Term starts and only if none of its Beds is given for that Term; the class follows the furniture the Room Class requires.
BR-12	The assignment respects hard constraints (gender of the Block, Room Type and Room Class applied for, invited pairs together, capacity) and then the ordered matching criteria and weights of the Term's snapshot; conflicts are shown, never resolved silently; the same input gives the same proposal.
BR-13	A real assignment run of a Term cannot start before M3 or while next-Term requests are open, because continuing residents' Beds are not settled yet.
BR-14	The door code is released only when the Balance is paid, the check-in start has come and the Room's code is confirmed on the lock; the student is then a resident.
BR-15	The door code of a Room must change whenever a resident leaves it (check-out, move, termination); codes are 6 digits, stored encrypted, never sent in push texts; every view is audited.
BR-16	A late check-in must be asked before the check-in end plus `late_check_in.max_days`; an approved one moves the Balance deadline to the new date.
BR-17	Requests window: at M2 every resident not leaving gets a next-Term Allocation on the same Bed (Continuing, or Awaiting extension in the last Term of the Stay); requests are filed until M3 and decided by M4; a Bed Awaiting extension at M3 is released.
BR-18	Next-Term requests (room change, swap, Room Class change, extension, end of stay) act on the next-Term Allocation, never on the current Term, and carry no price difference within the current Term.
BR-19	A Room Class change needs the consent of every continuing resident of the Room (a resident in the last Term of the Stay is not asked) and the furniture of the new class.
BR-20	A swap across Blocks is decided by Staff and then a Manager; a swap not answered before it expires ends; after next-Term fees are issued no swap is carried out.
BR-21	An extension is automatic when the student is enrolled and has nothing overdue; otherwise Staff decide it.
BR-22	Next-Term fees are issued only when filing is closed, every request is decided and the enrolled list is reconciled (groups 1–2 resolved); a fee unpaid at M7 with no claim waiting is voided and the Bed released.

ID	Rule Definition
BR-23	Reconciliation groups: (1) someone of the Term not enrolled, (2) someone of the Term missing from the list, (3) a code no student has, (4) an enrollment status that changed; groups 1–2 are resolved one by one with a note, and "Not enrolled" ends what the student holds.
BR-24	Check-out settles the Utility Deposit: the student's Utility share since the last reading and the damage per furniture item are deducted; the rest is refunded by a Manager, a shortfall is invoiced.
BR-25	Utility of a Room is split between its residents by the days each lived there between meter readings (meter cuts when someone leaves or moves); totals are rounded up by the Admin's rounding rule.
BR-26	Utility debt: one overdue Utility Invoice gives warning 1; a second overdue month, or debt reaching the Utility Deposit, gives the final warning with a termination day; from that day the stay is terminated. Paying closes the warnings.
BR-27	A terminated resident must move out by the move-out date; past it the termination is Overdue and the Room's code must change.
BR-28	Refunds follow the Admin's refund rules (trigger, percentage, approver); an Invoice is refunded at most once.
BR-29	A Maintenance Request gets its deadline from the Block's urgent or normal time limit when it is routed; routing rules choose the assignee by request type and condition, with a fallback when the assignee is off duty.
BR-30	A request past its deadline, or unassigned longer than `sla.unassigned_max_hours`, opens one escalation for Managers; it closes when the request is back on track.
BR-31	A failed inspection item creates a Maintenance Request; a Room's inspection is done only when its own checks (people, furniture) are answered.
BR-32	Staff act only on their Blocks; Managers act on every Block; the Admin configures but does not run desk operations.
BR-33	Announcements to residents of a Block are written by its Staff or a Manager; money or policy changes create change announcements with the old and new values automatically.
BR-34	Every configuration change, irreversible action, export, door-code view and demo reset is written to the Audit Log, which nobody can edit.
BR-35	A new Google account of an `@fpt.edu.vn` address is created as a student without a password; it must set a password and send the verification form, and a Manager verifies or rejects it.

5.2 Common Requirements

- Every list: search, filters, sort, paging (`page`, `pageSize`), totals and CSV export with the screen's columns.
- Every form: validation on the server with a message per field (`details.fields`), shown under the field in red; required fields marked with `*`.
- Every irreversible action asks for confirmation with what will happen (count and total for bulk actions).
- Every request and Invoice shows its deadline and the time left; overdue items are marked.
- Every date and time is shown in the campus time zone; money in VND with thousands separators.
- Every notification event creates an in-app notification, and push and email when the template says so, in the recipient's language.
- Every back-office page shows the Blocks in scope; the Term selector chooses the Term the data belongs to.

5.3 Application Messages List

The messages the API returns, with their Vietnamese text (the catalogue `backend/src/main/resources/i18n/messages_vi.txt`, checked by `MessagesTest`). Type: *Field* = shown in red under the field; *Refused* = an action the user may not do now, shown in a dialog; *Dialog* = other errors and information, shown in a dialog or a toast. Values in braces are filled in by the server.

#	Code	Type	Content (English)	Content (Vietnamese)
1	MSG001	Dialog	Some fields are not valid. Check the highlighted fields.	Một số trường chưa hợp lệ. Hãy kiểm tra các trường được đánh dấu.
2	MSG002	Dialog	Some values are not valid.	Một số giá trị chưa hợp lệ.
3	MSG003	Dialog	A required value is missing or has the wrong format.	Thiếu một giá trị bắt buộc hoặc giá trị sai định dạng.
4	MSG004	Dialog	The request could not be read. Check the values you entered.	Không đọc được yêu cầu. Hãy kiểm tra các giá trị đã nhập.
5	MSG005	Refused	You do not have permission to do this.	Bạn không có quyền thực hiện thao tác này.
6	MSG006	Dialog	Your session has ended. Sign in again.	Phiên đăng nhập đã kết thúc. Hãy đăng nhập lại.
7	MSG007	Dialog	No Block is assigned to your account. Contact the administrator.	Tài khoản của bạn chưa được gán Block nào. Hãy liên hệ quản trị viên.
8	MSG008	Dialog	You do not have access to this Block.	Bạn không có quyền truy cập Block này.
9	MSG009	Dialog	You do not have access to Block {0}.	Bạn không có quyền truy cập Block {0}.
10	MSG010	Dialog	Block {0} does not exist.	Block {0} không tồn tại.
11	MSG011	Dialog	Page must be 1 or more and page size between 1 and {0}.	Trang phải từ 1 trở lên và số dòng mỗi trang từ 1 đến {0}.
12	MSG012	Dialog	Limit must be between 1 and {0}.	Giới hạn phải từ 1 đến {0}.
13	MSG013	Dialog	There is no export called {0}.	Không có tệp xuất nào tên {0}.
14	MSG014	Dialog	This file does not exist.	Tệp này không tồn tại.
15	MSG015	Dialog	This link has expired. Reload the page to get a new one.	Liên kết đã hết hạn. Hãy tải lại trang để lấy liên kết mới.
16	MSG016	Field	Attach a JPEG, PNG or PDF file.	Hãy đính kèm tệp JPEG, PNG hoặc PDF.
17	MSG017	Field	Attach JPEG or PNG photos.	Hãy đính kèm ảnh JPEG hoặc PNG.
18	MSG018	Dialog	Something went wrong on our side. Try again later.	Hệ thống gặp sự cố. Hãy thử lại sau.
19	MSG019	Dialog	The file is too large.	Tệp quá lớn.
20	MSG020	Dialog	Someone else changed this record a moment ago. Reload the page and try again.	Người khác vừa thay đổi dữ liệu này. Hãy tải lại trang và thử lại.
21	MSG021	Dialog	This record is being updated by someone else. Try again in a few seconds.	Dữ liệu đang được người khác cập nhật. Hãy thử lại sau vài giây.

#	Code	Type	Content (English)	Content (Vietnamese)
22	MSG022	Dialog	The change conflicts with existing data.	Thay đổi bị trùng với dữ liệu đã có.
23	MSG023	Dialog	This address does not exist.	Địa chỉ này không tồn tại.
24	MSG024	Dialog	This action is not supported here.	Thao tác này không được hỗ trợ tại đây.
25	MSG025	Dialog	A Room with this code already exists.	Đã có phòng mang mã này.
26	MSG026	Dialog	A Term with this name already exists.	Đã có kỳ mang tên này.
27	MSG027	Dialog	A priority group with this name already exists.	Đã có nhóm ưu tiên mang tên này.
28	MSG028	Dialog	An assignment run is already in progress for this Term.	Đang có một lượt xếp phòng chạy cho kỳ này.
29	MSG029	Dialog	Someone else saved the matching criteria a moment ago. Reload the page and try again.	Người khác vừa lưu tiêu chí ghép phòng. Hãy tải lại trang và thử lại.
30	MSG030	Dialog	The stay dates overlap another published Term.	Thời gian ở bị trùng với một kỳ đã công bố.
31	MSG031	Dialog	This Application already has a Deposit Invoice.	Đơn này đã có hóa đơn tiền cọc.
32	MSG032	Dialog	This Bed is already used in the proposal.	Giường này đã có trong đề xuất.
33	MSG033	Dialog	This Bed is held by another Round-2 offer.	Giường này đang được giữ cho một đề nghị vòng 2 khác.
34	MSG034	Dialog	This Bed was just allocated to another student. Choose another Bed.	Giường này vừa được xếp cho sinh viên khác. Hãy chọn giường khác.
35	MSG035	Dialog	This Floor already exists in the Building.	Tầng này đã có trong Block.
36	MSG036	Dialog	This item is already escalated.	Mục này đã được chuyển lên Quản lý.
37	MSG037	Dialog	This student already has a Bed for this Term.	Sinh viên này đã có giường trong kỳ này.
38	MSG038	Dialog	You already have a pending roommate invitation.	Bạn đã có một lời mời bạn cùng phòng đang chờ.
39	MSG039	Dialog	You already have an Application for this Term.	Bạn đã có đơn đăng ký cho kỳ này.
40	MSG040	Dialog	You already have an active swap post.	Bạn đã có một bài đăng đổi chéo đang mở.
41	MSG041	Dialog	You already have an open Room-Change Request.	Bạn đã có một yêu cầu đổi phòng đang mở.
42	MSG042	Dialog	You already have an open swap request.	Bạn đã có một yêu cầu đổi chéo đang mở.
43	MSG043	Dialog	Email or password is incorrect.	Email hoặc mật khẩu không đúng.
44	MSG044	Dialog	Use 8 to 64 characters with at least one letter and one number.	Dùng 8 đến 64 ký tự, có ít nhất một chữ cái và một chữ số.
45	MSG045	Dialog	No Term is published yet.	Chưa có kỳ nào được công bố.
46	MSG046	Dialog	This Term does not exist.	Kỳ này không tồn tại.

#	Code	Type	Content (English)	Content (Vietnamese)
47	MSG047	Field	Choose a Block from the list.	Hãy chọn một Block trong danh sách.
48	MSG048	Field	Choose one of the listed Blocks.	Hãy chọn một trong các Block được liệt kê.
49	MSG049	Field	Choose a reason from the list.	Hãy chọn một lý do trong danh sách.
50	MSG050	Field	Choose Approved or Rejected.	Hãy chọn Duyệt hoặc Từ chối.
51	MSG051	Field	Choose a valid status.	Hãy chọn một trạng thái hợp lệ.
52	MSG052	Field	Choose Male or Female.	Hãy chọn Nam hoặc Nữ.
53	MSG053	Field	Choose Active or Inactive.	Hãy chọn Đang dùng hoặc Ngưng dùng.
54	MSG054	Field	Choose 24h or 7d.	Hãy chọn 24 giờ hoặc 7 ngày.
55	MSG055	Field	Choose a date range: 7d, 30d, 90d or all.	Hãy chọn khoảng thời gian: 7 ngày, 30 ngày, 90 ngày hoặc tất cả.
56	MSG056	Field	Choose today, 7d or term.	Hãy chọn hôm nay, 7 ngày hoặc cả kỳ.
57	MSG057	Dialog	Use at most 10 letters or digits.	Dùng tối đa 10 chữ cái hoặc chữ số.
58	MSG058	Dialog	Use at most 50 characters.	Dùng tối đa 50 ký tự.
59	MSG059	Dialog	Use at most 100 characters.	Dùng tối đa 100 ký tự.
60	MSG060	Dialog	Use at most 150 characters.	Dùng tối đa 150 ký tự.
61	MSG061	Dialog	Use at most 100 items.	Dùng tối đa 100 mục.
62	MSG062	Dialog	Use the HH:mm format, e.g. 07:30.	Dùng định dạng HH:mm, ví dụ 07:30.
63	MSG063	Field	Keep the note under 500 characters.	Ghi chú tối đa 500 ký tự.
64	MSG064	Field	Keep the note under 1,000 characters.	Ghi chú tối đa 1.000 ký tự.
65	MSG065	Field	Keep the comment under 500 characters.	Nhận xét tối đa 500 ký tự.
66	MSG066	Field	Keep the reason under 500 characters.	Lý do tối đa 500 ký tự.
67	MSG067	Field	Keep the details under 1,000 characters.	Chi tiết tối đa 1.000 ký tự.
68	MSG068	Field	Keep the message under 1,000 characters.	Tin nhắn tối đa 1.000 ký tự.
69	MSG069	Field	Keep the update under 2,000 characters.	Nội dung cập nhật tối đa 2.000 ký tự.
70	MSG070	Field	Keep the house rules under 4,000 characters.	Nội quy tối đa 4.000 ký tự.
71	MSG071	Field	Enter a name of at most 150 characters.	Nhập tên tối đa 150 ký tự.
72	MSG072	Field	Enter a valid email.	Nhập email hợp lệ.
73	MSG073	Field	Enter the full name.	Hãy nhập họ tên.
74	MSG074	Field	Enter a phone number of 8 to 15 digits.	Nhập số điện thoại từ 8 đến 15 chữ số.
75	MSG075	Field	Enter your current password.	Hãy nhập mật khẩu hiện tại.
76	MSG076	Field	Enter a new password.	Hãy nhập mật khẩu mới.
77	MSG077	Dialog	Too many failed attempts. Try again after {0}.	Bạn đã nhập sai quá nhiều lần. Hãy thử lại sau {0}.

#	Code	Type	Content (English)	Content (Vietnamese)
78	MSG078	Dialog	This account is disabled. Contact the dormitory office.	Tài khoản này đã bị khóa. Hãy liên hệ văn phòng ký túc xá.
79	MSG079	Dialog	This account is linked to a different Google account. Contact the dormitory office.	Tài khoản này đã liên kết với một tài khoản Google khác. Hãy liên hệ văn phòng ký túc xá.

81	MSG081	Dialog	Sign in with your @{0} Google account.	Hãy đăng nhập bằng tài khoản Google @{0} của bạn.
82	MSG082	Dialog	Google sign-in could not start. Try again.	Không thể bắt đầu đăng nhập Google. Hãy thử lại.
83	MSG083	Dialog	Send either the Google authorization code or the ID token.	Hãy gửi mã ủy quyền Google hoặc ID token.
84	MSG084	Dialog	Google sign-in failed. Try again.	Đăng nhập Google thất bại. Hãy thử lại.
85	MSG085	Dialog	Google sign-in is not available right now.	Hiện chưa thể đăng nhập bằng Google.
86	MSG086	Dialog	Google sign-in is not working right now. Try again in a few minutes or use your email and password.	Đăng nhập Google đang gặp sự cố. Hãy thử lại sau vài phút hoặc dùng email và mật khẩu.
87	MSG087	Dialog	The current password is incorrect.	Mật khẩu hiện tại không đúng.
88	MSG088	Dialog	The password must not contain your email name.	Mật khẩu không được chứa tên email của bạn.
89	MSG089	Dialog	This link is invalid or has expired. Request a new one.	Liên kết không hợp lệ hoặc đã hết hạn. Hãy yêu cầu liên kết mới.
90	MSG090	Dialog	This user does not exist.	Người dùng này không tồn tại.
91	MSG091	Field	Choose vi or en.	Hãy chọn vi hoặc en.
92	MSG092	Field	Choose Staff, Manager or Admin.	Hãy chọn Nhân viên, Quản lý hoặc Quản trị viên.
93	MSG093	Field	Choose Staff or Manager.	Hãy chọn Nhân viên hoặc Quản lý.
94	MSG094	Field	Choose Active, Invited or Disabled.	Hãy chọn Đang hoạt động, Đã mời hoặc Đã khóa.
95	MSG095	Dialog	An account with this email already exists.	Đã có tài khoản dùng email này.
96	MSG096	Refused	The email cannot be changed. Invite a new user instead.	Không thể đổi email. Hãy mời người dùng mới.
97	MSG097	Field	Choose the Blocks this user works in.	Hãy chọn các Block người này phụ trách.
98	MSG098	Dialog	Create a Block first.	Hãy tạo Block trước.
99	MSG099	Refused	You cannot remove your own Admin access or disable your own account.	Bạn không thể tự gỡ quyền Quản trị viên hoặc khóa tài khoản của chính mình.

#	Code	Type	Content (English)	Content (Vietnamese)
100	MSG100	Dialog	At least one active Admin must remain.	Phải còn ít nhất một Quản trị viên đang hoạt động.
101	MSG101	Refused	An active account cannot go back to Invited.	Tài khoản đang hoạt động không thể quay lại trạng thái Đã mời.
102	MSG102	Dialog	This user has not accepted the invitation yet. The account becomes Active when they set a password.	Người dùng chưa nhận lời mời. Tài khoản sẽ hoạt động khi họ đặt mật khẩu.
103	MSG103	Dialog	This staff member does not exist.	Nhân viên này không tồn tại.
104	MSG104	Field	Choose what the person handles from the list.	Hãy chọn các việc người này phụ trách trong danh sách.
105	MSG105	Field	Choose the Block for the new account.	Hãy chọn Block cho tài khoản mới.
106	MSG106	Dialog	A request for this email is already waiting for Admin.	Đã có yêu cầu cho email này đang chờ Quản trị viên.
107	MSG107	Dialog	Use an @{0} email.	Hãy dùng email @{0}.
108	MSG108	Field	Enter the full name (at most 150 characters).	Nhập họ tên (tối đa 150 ký tự).
109	MSG109	Field	Enter the Term name.	Hãy nhập tên kỳ.
110	MSG110	Field	Enter the first day of the stay.	Hãy nhập ngày bắt đầu ở.
111	MSG111	Field	Enter the last day of the stay.	Hãy nhập ngày kết thúc ở.
112	MSG112	Dialog	The stay must end after it starts.	Ngày kết thúc ở phải sau ngày bắt đầu.
113	MSG113	Field	Enter when registration opens.	Hãy nhập thời điểm mở đăng ký.
114	MSG114	Field	Enter when registration closes.	Hãy nhập thời điểm đóng đăng ký.
115	MSG115	Dialog	Registration must close after it opens.	Thời điểm đóng đăng ký phải sau thời điểm mở.
116	MSG116	Field	Enter when assignment results come out.	Hãy nhập thời điểm công bố kết quả xếp phòng.
117	MSG117	Dialog	Results come out after registration closes.	Kết quả phải được công bố sau khi đóng đăng ký.
118	MSG118	Field	Enter the roommate confirmation window in hours.	Hãy nhập thời hạn xác nhận bạn cùng phòng (giờ).
119	MSG119	Field	Enter a number of hours above 0.	Nhập số giờ lớn hơn 0.
120	MSG120	Field	Enter when the Balance is due.	Hãy nhập hạn thanh toán tiền phòng còn lại.
121	MSG121	Field	Enter the first Check-in day.	Hãy nhập ngày đầu tiên nhận phòng.
122	MSG122	Field	Enter the last Check-in day.	Hãy nhập ngày cuối cùng nhận phòng.
123	MSG123	Dialog	Check-in must end on or after its first day.	Ngày cuối nhận phòng phải từ ngày đầu trở đi.
124	MSG124	Dialog	Check-in must end before the stay ends.	Thời gian nhận phòng phải kết thúc trước khi kỳ ở kết thúc.
125	MSG125	Field	Enter the Check-out deadline.	Hãy nhập hạn trả phòng.

#	Code	Type	Content (English)	Content (Vietnamese)
126	MSG126	Dialog	Check-out must be after the stay starts.	Hạn trả phòng phải sau ngày bắt đầu ở.
127	MSG127	Refused	The stay dates overlap {0}. Published Terms cannot overlap.	Thời gian ở bị trùng với {0}. Các kỳ đã công bố không được trùng nhau.
128	MSG128	Dialog	This Term has ended and can no longer be changed.	Kỳ này đã kết thúc và không thể thay đổi.
129	MSG129	Dialog	This Term is already published.	Kỳ này đã được công bố.
130	MSG130	Field	Enter the Room Type name.	Hãy nhập tên loại phòng.
131	MSG131	Field	Enter the Room Class name.	Hãy nhập tên hạng phòng.
132	MSG132	Dialog	A Room Type with this name already exists.	Đã có loại phòng mang tên này.
133	MSG133	Dialog	A Room Class with this name already exists.	Đã có hạng phòng mang tên này.
134	MSG134	Dialog	This Room Type does not exist.	Loại phòng này không tồn tại.

141	MSG141	Refused	Rooms of this type have active Allocations, so the number of Beds cannot change.	Phòng loại này đang có người ở nên không thể đổi số giường.
142	MSG142	Dialog	List at most {0} amenities.	Liệt kê tối đa {0} tiện nghi.
143	MSG143	Field	Keep each amenity under 100 characters.	Mỗi tiện nghi tối đa 100 ký tự.
144	MSG144	Field	Enter a deposit rate above 0 and up to 100.	Nhập tỷ lệ cọc lớn hơn 0 và tối đa 100.
145	MSG145	Field	Enter 1 to 720 hours.	Nhập từ 1 đến 720 giờ.
146	MSG146	Field	Enter 1 to 365 days.	Nhập từ 1 đến 365 ngày.
147	MSG147	Dialog	Rule {0}: enter a refund from 0 to 100%.	Quy tắc {0}: nhập tỷ lệ hoàn từ 0 đến 100%.
148	MSG148	Dialog	Rule {0}: choose who approves it.	Quy tắc {0}: hãy chọn người duyệt.
149	MSG149	Dialog	Rule {0}: describe when it applies in at most 200 characters.	Quy tắc {0}: mô tả khi nào áp dụng, tối đa 200 ký tự.
150	MSG150	Dialog	Rule {0}: it no longer exists. Reload the page and try again.	Quy tắc {0}: không còn tồn tại. Hãy tải lại trang và thử lại.
151	MSG151	Dialog	Group {0}: enter a name of at most 150 characters.	Nhóm {0}: nhập tên tối đa 150 ký tự.

#	Code	Type	Content (English)	Content (Vietnamese)
152	MSG152	Dialog	Group {0}: keep the source under 300 characters.	Nhóm {0}: nguồn dữ liệu tối đa 300 ký tự.
153	MSG153	Dialog	Group {0}: it no longer exists. Reload the page and try again.	Nhóm {0}: không còn tồn tại. Hãy tải lại trang và thử lại.
154	MSG154	Dialog	Turn each criterion on or off.	Hãy bật hoặc tắt từng tiêu chí.
155	MSG155	Field	Enter a boost from 1 (off) to 5.	Nhập hệ số ưu tiên từ 1 (tắt) đến 5.
156	MSG156	Field	Keep every criterion in the processing order exactly once.	Mỗi tiêu chí phải có đúng một lần trong thứ tự xét.
157	MSG157	Field	Keep every matching weight exactly once.	Mỗi trọng số ghép phòng phải có đúng một lần.
158	MSG158	Dialog	Each weight is between 0 and 100%.	Mỗi trọng số từ 0 đến 100%.
159	MSG159	Dialog	The weights that are on must total 100%.	Tổng các trọng số đang bật phải bằng 100%.
160	MSG160	Field	Enter a price per kWh from 1 to 100,000 VND.	Nhập giá mỗi kWh từ 1 đến 100.000 VND.
161	MSG161	Field	Enter a price per m³ from 1 to 1,000,000 VND.	Nhập giá mỗi m³ từ 1 đến 1.000.000 VND.
162	MSG162	Field	Choose a day from 1 to 28.	Hãy chọn ngày từ 1 đến 28.
163	MSG163	Field	Choose one of the listed payment terms.	Hãy chọn một trong các hạn thanh toán được liệt kê.
164	MSG164	Field	Choose one of the listed rounding rules.	Hãy chọn một trong các quy tắc làm tròn được liệt kê.
165	MSG165	Field	Choose one of the listed reminder rules.	Hãy chọn một trong các quy tắc nhắc nhở được liệt kê.
166	MSG166	Field	Enter the monthly estimate per student in VND.	Nhập mức ước tính mỗi tháng cho một sinh viên (VND).
167	MSG167	Dialog	Hold 2 to 12 months of the estimate.	Giữ từ 2 đến 12 tháng tiền ước tính.
168	MSG168	Dialog	This setting does not exist.	Thiết lập này không tồn tại.
169	MSG169	Dialog	This Block does not exist.	Block này không tồn tại.
170	MSG170	Dialog	A Block with this name already exists.	Đã có Block mang tên này.
171	MSG171	Refused	The Block name cannot be changed.	Không thể đổi tên Block.
172	MSG172	Dialog	Use 1 to 10 letters or digits, e.g. E.	Dùng từ 1 đến 10 chữ cái hoặc chữ số, ví dụ E.
173	MSG173	Refused	Students live in Block {0}, so its gender cannot change.	Block {0} đang có sinh viên ở nên không thể đổi giới tính.
174	MSG174	Refused	Students live in Block {0}, so its status cannot become Inactive.	Block {0} đang có sinh viên ở nên không thể ngưng dùng.
175	MSG175	Dialog	Create an active Room Type first.	Hãy tạo một loại phòng đang dùng trước.
176	MSG176	Dialog	Create an active Room Class first.	Hãy tạo một hạng phòng đang dùng trước.

#	Code	Type	Content (English)	Content (Vietnamese)
177	MSG177	Field	Choose a Floor from 1 to {0}.	Hãy chọn tầng từ 1 đến {0}.
178	MSG178	Dialog	The last Floor must not be below the first.	Tầng cuối không được thấp hơn tầng đầu.
179	MSG179	Dialog	Floor {0} does not exist in Block {1}.	Tầng {0} không có trong Block {1}.
180	MSG180	Dialog	Room {0} does not exist.	Phòng {0} không tồn tại.
181	MSG181	Dialog	Room {0} is already out of service.	Phòng {0} đã ngưng sử dụng.
182	MSG182	Dialog	Room {0} is already in service.	Phòng {0} đang được sử dụng.
183	MSG183	Dialog	Move the {0} resident of Room {1} before you set it out of service.	Hãy chuyển {0} người đang ở phòng {1} đi trước khi ngưng sử dụng phòng.
184	MSG184	Dialog	Move the {0} residents of Room {1} before you set it out of service.	Hãy chuyển {0} người đang ở phòng {1} đi trước khi ngưng sử dụng phòng.
185	MSG185	Dialog	No Term is open for registration now.	Hiện không có kỳ nào đang mở đăng ký.
186	MSG186	Dialog	Registration for {0} is not open.	Đăng ký cho {0} chưa mở.
187	MSG187	Dialog	This Application does not exist.	Đơn đăng ký này không tồn tại.
188	MSG188	Dialog	This Application can no longer be cancelled here. Contact the dormitory office.	Không thể hủy đơn này tại đây nữa. Hãy liên hệ văn phòng ký túc xá.
189	MSG189	Refused	Application {0} is {1} and cannot be reviewed now.	Đơn {0} đang ở trạng thái {1} nên chưa thể xét duyệt.
190	MSG190	Dialog	This Application belongs to a Block you do not manage.	Đơn này thuộc Block bạn không phụ trách.
191	MSG191	Field	Select at least one Application.	Hãy chọn ít nhất một đơn.
192	MSG192	Field	Add a note before rejecting. The student sees this note.	Hãy ghi chú trước khi từ chối. Sinh viên sẽ thấy ghi chú này.
193	MSG193	Dialog	Reject Applications one at a time, with a note for the student.	Hãy từ chối từng đơn một, kèm ghi chú cho sinh viên.
194	MSG194	Field	Choose a Room Type.	Hãy chọn loại phòng.
195	MSG195	Field	Choose a Room Class.	Hãy chọn hạng phòng.
196	MSG196	Dialog	This Room Type and Room Class are not offered.	Loại phòng và hạng phòng này không được mở.
197	MSG197	Dialog	Tick both consent boxes to apply.	Hãy đánh dấu cả hai ô đồng ý để đăng ký.
198	MSG198	Field	Choose Invite a roommate or Match me automatically.	Hãy chọn Mời bạn cùng phòng hoặc Tự động ghép.
199	MSG199	Refused	You can invite a roommate only for a 2-bed Room Type.	Chỉ được mời bạn cùng phòng với loại phòng 2 giường.
200	MSG200	Dialog	You have used all roommate code checks for this Term. Choose Match me automatically.	Bạn đã dùng hết lượt kiểm tra mã bạn cùng phòng của kỳ này. Hãy chọn Tự động ghép.
201	MSG201	Field	Choose a {0} from the list.	Hãy chọn {0} trong danh sách.

#	Code	Type	Content (English)	Content (Vietnamese)
202	MSG202	Field	Enter the emergency contact's name.	Hãy nhập tên người liên hệ khẩn cấp.
203	MSG203	Field	Enter a valid student code.	Nhập mã sinh viên hợp lệ.
204	MSG204	Field	Enter the student code.	Hãy nhập mã sinh viên.
205	MSG205	Field	Enter a student code.	Hãy nhập mã sinh viên.
206	MSG206	Dialog	Accept or decline the invitation.	Hãy chấp nhận hoặc từ chối lời mời.
207	MSG207	Dialog	This invitation does not exist or was already answered.	Lời mời này không tồn tại hoặc đã được trả lời.
208	MSG208	Dialog	This invitation is no longer open.	Lời mời này không còn hiệu lực.
209	MSG209	Dialog	Your student record was not found.	Không tìm thấy hồ sơ sinh viên của bạn.
210	MSG210	Dialog	Your student record was not found. Contact the dormitory office.	Không tìm thấy hồ sơ sinh viên của bạn. Hãy liên hệ văn phòng ký túc xá.
211	MSG211	Dialog	This offer does not exist.	Đề nghị này không tồn tại.
212	MSG212	Dialog	This offer is no longer open.	Đề nghị này không còn hiệu lực.
213	MSG213	Dialog	Accept an option or decline the offer.	Hãy chọn một phương án hoặc từ chối đề nghị.
214	MSG214	Field	Choose one of the offered Rooms.	Hãy chọn một trong các phòng được đề nghị.
215	MSG215	Dialog	This Bed is no longer free. Ask Staff for another option.	Giường này không còn trống. Hãy nhờ nhân viên chọn phương án khác.
216	MSG216	Dialog	This run does not exist.	Lượt xếp phòng này không tồn tại.
217	MSG217	Refused	A dry run is a preview: it cannot be changed or submitted.	Lượt chạy thử chỉ để xem trước: không thể sửa hoặc chốt.
218	MSG218	Refused	This run is {0} and cannot change.	Lượt xếp phòng này đang ở trạng thái {0} nên không thể thay đổi.
219	MSG219	Dialog	This Application is not in the run.	Đơn này không có trong lượt xếp phòng.
220	MSG220	Field	Choose how to resolve the conflict.	Hãy chọn cách xử lý xung đột.
221	MSG221	Field	Choose one of the listed options.	Hãy chọn một trong các phương án được liệt kê.
222	MSG222	Dialog	There is no Bed to keep. Choose another option.	Không có giường để giữ. Hãy chọn phương án khác.
223	MSG223	Dialog	No free Bed of that kind is left. Choose another option or the waitlist.	Không còn giường trống loại này. Hãy chọn phương án khác hoặc đưa vào danh sách chờ.
224	MSG224	Dialog	Block {0} has nothing in this run.	Block {0} không có gì trong lượt xếp phòng này.
225	MSG225	Dialog	Block {0} was already submitted.	Block {0} đã được chốt.
226	MSG226	Dialog	Block {0} is not waiting for approval.	Block {0} không ở trạng thái chờ duyệt.
227	MSG227	Refused	This Block is with the Manager; it cannot change now.	Block này đang chờ Quản lý duyệt nên chưa thể thay đổi.

#	Code	Type	Content (English)	Content (Vietnamese)
228	MSG228	Dialog	Resolve the {0} conflict in Block {1} before you submit it.	Hãy xử lý {0} xung đột ở Block {1} trước khi chốt.
229	MSG229	Dialog	Resolve the {0} conflicts in Block {1} before you submit it.	Hãy xử lý {0} xung đột ở Block {1} trước khi chốt.
230	MSG230	Dialog	Blocks of {0} are already committed. Finish that run before starting a new one.	Một số Block của {0} đã được chốt. Hãy hoàn tất lượt đó trước khi chạy lượt mới.
231	MSG231	Dialog	Tell Staff what to change.	Hãy ghi rõ cần thay đổi gì.
232	MSG232	Field	Type a student code or a name, or scan the pass.	Nhập mã sinh viên hoặc họ tên, hoặc quét thẻ nhận phòng.
233	MSG233	Dialog	{0} students match this name. Type the student code or scan the pass.	Có {0} sinh viên trùng tên này. Hãy nhập mã sinh viên hoặc quét thẻ nhận phòng.
234	MSG234	Dialog	No Bed is allocated to this student.	Sinh viên này chưa được xếp giường.
235	MSG235	Dialog	{0} is already checked in.	{0} đã nhận phòng.
236	MSG236	Dialog	{0} checked in on {1}.	{0} đã nhận phòng lúc {1}.
237	MSG237	Dialog	This Allocation does not exist.	Chỗ ở này không tồn tại.
238	MSG238	Dialog	This student is not checked in.	Sinh viên này chưa nhận phòng.
239	MSG239	Dialog	This student has already checked out.	Sinh viên này đã trả phòng.
240	MSG240	Dialog	Look up the student first.	Hãy tra cứu sinh viên trước.
241	MSG241	Field	Choose the hand-over items from the list.	Hãy chọn các đồ bàn giao trong danh sách.
242	MSG242	Field	Say whether the Room is in good condition.	Hãy cho biết phòng có ở tình trạng tốt không.
243	MSG243	Field	Say whether the key was returned.	Hãy cho biết đã nhận lại chìa khóa chưa.
244	MSG244	Dialog	Collect the Room key before you confirm.	Hãy thu lại chìa khóa phòng trước khi xác nhận.
245	MSG245	Field	Enter a reading of 0 or more.	Nhập chỉ số từ 0 trở lên.
246	MSG246	Field	Enter a valid reading.	Nhập chỉ số hợp lệ.
247	MSG247	Field	Enter a valid amount.	Nhập số tiền hợp lệ.
248	MSG248	Refused	The damage charge cannot be negative.	Tiền bồi thường hư hỏng không được âm.
249	MSG249	Field	Enter the electricity reading.	Hãy nhập chỉ số điện.
250	MSG250	Field	Enter the water reading.	Hãy nhập chỉ số nước.
251	MSG251	Dialog	The reading is lower than the last one ({0} kWh).	Chỉ số thấp hơn lần trước ({0} kWh).
252	MSG252	Dialog	The reading is lower than the last one ({0} m^3).	Chỉ số thấp hơn lần trước ({0} m^3).
253	MSG253	Dialog	The reading is lower than the last one ({0} kWh on {1}).	Chỉ số thấp hơn lần trước ({0} kWh ngày {1}).

#	Code	Type	Content (English)	Content (Vietnamese)
254	MSG254	Dialog	The reading is lower than the last one ({0} m³ on {1}).	Chỉ số thấp hơn lần trước ({0} m³ ngày {1}).
255	MSG255	Dialog	This late check-in does not exist.	Yêu cầu nhận phòng muộn này không tồn tại.
256	MSG256	Dialog	This late check-in was already decided.	Yêu cầu nhận phòng muộn này đã được quyết định.
257	MSG257	Dialog	This student already has a late check-in waiting.	Sinh viên này đã có một yêu cầu nhận phòng muộn đang chờ.
258	MSG258	Dialog	This student has no Bed waiting for check-in.	Sinh viên này không có giường nào đang chờ nhận.
259	MSG259	Field	Write why the student arrives late.	Hãy ghi lý do sinh viên đến muộn.
260	MSG260	Field	Choose the day the student will arrive.	Hãy chọn ngày sinh viên sẽ đến.
261	MSG261	Field	Choose today or a later day.	Hãy chọn hôm nay hoặc một ngày sau đó.
262	MSG262	Field	Choose the last day the student may check in.	Hãy chọn ngày cuối cùng sinh viên được nhận phòng.
263	MSG263	Field	Write why the late check-in is rejected.	Hãy ghi lý do từ chối nhận phòng muộn.
264	MSG264	Dialog	This Invoice does not exist.	Hóa đơn này không tồn tại.
265	MSG265	Dialog	This Invoice is already paid.	Hóa đơn này đã được thanh toán.
266	MSG266	Refused	This Invoice cannot be paid: it is {0}.	Không thể thanh toán hóa đơn này: hóa đơn đang ở trạng thái {0}.
267	MSG267	Dialog	A receipt is available once the Invoice is paid.	Biên lai có sau khi hóa đơn được thanh toán.
268	MSG268	Dialog	No receipt is attached to this Payment.	Khoản thanh toán này không có biên lai.
269	MSG269	Field	Keep the reference under 60 characters.	Mã giao dịch tối đa 60 ký tự.
270	MSG270	Field	Choose a valid Invoice status.	Hãy chọn trạng thái hóa đơn hợp lệ.
271	MSG271	Field	Choose a valid Invoice type.	Hãy chọn loại hóa đơn hợp lệ.
272	MSG272	Field	Select at least one Invoice.	Hãy chọn ít nhất một hóa đơn.
273	MSG273	Dialog	Send at most 200 reminders at a time.	Mỗi lần gửi tối đa 200 lời nhắc.
274	MSG274	Dialog	This refund does not exist.	Khoản hoàn tiền này không tồn tại.
275	MSG275	Dialog	This refund was already decided.	Khoản hoàn tiền này đã được quyết định.
276	MSG276	Field	Write why this exception is approved.	Hãy ghi lý do duyệt ngoại lệ này.
277	MSG277	Field	Write why the refund is rejected.	Hãy ghi lý do từ chối hoàn tiền.
278	MSG278	Field	Choose Pending, Approved, Rejected or Paid.	Hãy chọn Đang chờ, Đã duyệt, Từ chối hoặc Đã chi.
279	MSG279	Dialog	This period does not exist.	Kỳ chỉ số này không tồn tại.
280	MSG280	Dialog	This period is closed: its Invoices are issued.	Kỳ chỉ số đã đóng: hóa đơn đã được phát hành.

#	Code	Type	Content (English)	Content (Vietnamese)
281	MSG281	Field	Choose a CSV file.	Hãy chọn tệp CSV.
282	MSG282	Dialog	Room {0} is not in this Block.	Phòng {0} không thuộc Block này.
283	MSG283	Dialog	Room {0} has no reading in this period.	Phòng {0} chưa có chỉ số trong kỳ này.
284	MSG284	Field	Enter the reading before you confirm it.	Hãy nhập chỉ số trước khi xác nhận.
285	MSG285	Field	Choose Missing, Entered, Check value or Confirmed.	Hãy chọn Chưa có, Đã nhập, Cần kiểm tra hoặc Đã xác nhận.
286	MSG286	Dialog	{0} Room has no reading yet.	Còn {0} phòng chưa có chỉ số.
287	MSG287	Dialog	{0} Rooms have no reading yet.	Còn {0} phòng chưa có chỉ số.
288	MSG288	Dialog	Confirm the {0} reading marked Check value first.	Hãy xác nhận {0} chỉ số đang cần kiểm tra trước.
289	MSG289	Dialog	Confirm the {0} readings marked Check value first.	Hãy xác nhận {0} chỉ số đang cần kiểm tra trước.
290	MSG290	Dialog	This Room-Change Request does not exist.	Yêu cầu đổi phòng này không tồn tại.
291	MSG291	Dialog	This request was already decided.	Yêu cầu này đã được quyết định.
292	MSG292	Dialog	This request is no longer open.	Yêu cầu này không còn mở.
293	MSG293	Refused	This request is closed and cannot change.	Yêu cầu đã đóng và không thể thay đổi.
294	MSG294	Dialog	You already have an open Room-Change Request for this Term.	Bạn đã có một yêu cầu đổi phòng đang mở trong kỳ này.
295	MSG295	Dialog	You can ask for a room change once you have checked in.	Bạn có thể yêu cầu đổi phòng sau khi đã nhận phòng.
296	MSG296	Dialog	Pay your overdue Invoice before you ask for a room change.	Hãy thanh toán hóa đơn quá hạn trước khi yêu cầu đổi phòng.
297	MSG297	Field	Choose the kind of change.	Hãy chọn kiểu thay đổi.
298	MSG298	Field	Choose same, class or type.	Hãy chọn cùng loại, đổi hạng hoặc đổi loại.
299	MSG299	Field	Choose a Room Type other than your current one.	Hãy chọn loại phòng khác loại hiện tại.
300	MSG300	Field	Choose a Room Class other than your current one.	Hãy chọn hạng phòng khác hạng hiện tại.
301	MSG301	Field	Choose why the request is rejected.	Hãy chọn lý do từ chối yêu cầu.
302	MSG302	Field	Choose Pending, Approved, Rejected or Cancelled.	Hãy chọn Đang chờ, Đã duyệt, Từ chối hoặc Đã hủy.
303	MSG303	Dialog	This Bed is not free for this request any more. Choose another one.	Giường này không còn trống cho yêu cầu này. Hãy chọn giường khác.
304	MSG304	Dialog	This Bed was just taken. Choose another one.	Giường này vừa có người nhận. Hãy chọn giường khác.
305	MSG305	Dialog	A move to another Block is decided by a Manager.	Việc chuyển sang Block khác do Quản lý quyết định.

#	Code	Type	Content (English)	Content (Vietnamese)
306	MSG306	Dialog	{0} no longer holds the Bed this request was made from.	{0} không còn giữ giường mà yêu cầu này được gửi từ đó.
307	MSG307	Dialog	This student no longer holds the Bed.	Sinh viên này không còn giữ giường.
308	MSG308	Dialog	This swap does not exist.	Yêu cầu đổi chéo này không tồn tại.
309	MSG309	Dialog	This swap invitation is no longer open.	Lời mời đổi chéo này không còn hiệu lực.
310	MSG310	Dialog	This swap is not waiting for a decision.	Yêu cầu đổi chéo này không chờ quyết định.
311	MSG311	Dialog	This post is no longer on the board.	Bài đăng này không còn trên bảng đổi chéo.
312	MSG312	Dialog	You already have a swap waiting. Wait for it or let it expire.	Bạn đã có một yêu cầu đổi chéo đang chờ. Hãy chờ kết quả hoặc để nó hết hạn.
313	MSG313	Dialog	You can swap Beds once you have checked in.	Bạn có thể đổi chéo giường sau khi đã nhận phòng.
314	MSG314	Dialog	Pay your overdue Invoice before you ask for a swap.	Hãy thanh toán hóa đơn quá hạn trước khi yêu cầu đổi chéo.
315	MSG315	Dialog	Your Bed is not what this student is looking for.	Giường của bạn không đúng với điều sinh viên này cần.
316	MSG316	Dialog	One of you no longer holds the Bed.	Một trong hai bạn không còn giữ giường.
317	MSG317	Dialog	The swap does not pass the rule check any more.	Yêu cầu đổi chéo không còn đáp ứng điều kiện.
318	MSG318	Dialog	A swap between Blocks is decided by a Manager.	Việc đổi chéo giữa các Block do Quản lý quyết định.

346	MSG346	Field	Say whether the problem is fixed.	Hãy cho biết sự cố đã được sửa chưa.
347	MSG347	Dialog	Assign the request before you mark it resolved.	Hãy giao việc trước khi đánh dấu đã xử lý.
348	MSG348	Field	Choose a staff member of this Block.	Hãy chọn một nhân viên của Block này.
349	MSG349	Field	Choose a staff member or none.	Hãy chọn một nhân viên hoặc để trống.
350	MSG350	Field	Keep someone assigned while the work is in progress.	Phải có người được giao khi công việc đang xử lý.
351	MSG351	Dialog	To send it back to the queue, remove the assignee.	Để đưa yêu cầu về hàng chờ, hãy bỏ người được giao.
352	MSG352	Field	Choose High, Medium or Low.	Hãy chọn Cao, Trung bình hoặc Thấp.
353	MSG353	Dialog	Use dd/mm/yyyy hh:mm – hh:mm, with the end after the start.	Dùng dạng dd/mm/yyyy hh:mm – hh:mm, giờ kết thúc sau giờ bắt đầu.
354	MSG354	Dialog	This checklist does not exist.	Danh mục kiểm tra này không tồn tại.
355	MSG355	Dialog	This checklist is archived.	Danh mục kiểm tra này đã lưu trữ.

#	Code	Type	Content (English)	Content (Vietnamese)
356	MSG356	Dialog	This checklist is already archived.	Danh mục kiểm tra này đã được lưu trữ.
357	MSG357	Dialog	A checklist with this name already exists.	Đã có danh mục kiểm tra mang tên này.
358	MSG358	Field	Add at least one item.	Hãy thêm ít nhất một mục.
359	MSG359	Dialog	Use at most {0} items.	Dùng tối đa {0} mục.
360	MSG360	Dialog	Item {0}: choose a maintenance category.	Mục {0}: hãy chọn danh mục sửa chữa.
361	MSG361	Dialog	Item {0}: choose a severity.	Mục {0}: hãy chọn mức độ.
362	MSG362	Dialog	Item {0}: enter a label of at most 200 characters.	Mục {0}: nhập nhãn tối đa 200 ký tự.
363	MSG363	Dialog	This inspection schedule does not exist.	Lịch kiểm tra này không tồn tại.
364	MSG364	Dialog	The checklist of this schedule is not published.	Danh mục kiểm tra của lịch này chưa được công bố.
365	MSG365	Field	Choose a published checklist.	Hãy chọn một danh mục kiểm tra đã công bố.
366	MSG366	Field	Choose how often it repeats.	Hãy chọn tần suất lặp lại.
367	MSG367	Field	Choose a scope from the list.	Hãy chọn phạm vi trong danh sách.
368	MSG368	Field	Choose Active or Paused.	Hãy chọn Đang chạy hoặc Tạm dừng.
369	MSG369	Field	Enter 1 to {0} days.	Nhập từ 1 đến {0} ngày.
370	MSG370	Dialog	This inspection run does not exist.	Lượt kiểm tra này không tồn tại.
371	MSG371	Dialog	This inspection run is already submitted.	Lượt kiểm tra này đã được nộp.
372	MSG372	Dialog	Room {0} is not in this run.	Phòng {0} không có trong lượt kiểm tra này.
373	MSG373	Dialog	This Room is already inspected.	Phòng này đã được kiểm tra.
374	MSG374	Dialog	This Room is already marked not reachable.	Phòng này đã được đánh dấu không vào được.
375	MSG375	Dialog	Send Pass, Fail or Not checked for items of this checklist.	Hãy gửi Đạt, Không đạt hoặc Chưa kiểm tra cho các mục của danh mục này.
376	MSG376	Field	Keep each note under {0} characters.	Mỗi ghi chú tối đa {0} ký tự.
377	MSG377	Dialog	The desk must close after it opens.	Giờ đóng quầy phải sau giờ mở quầy.
378	MSG378	Dialog	Visitor hours must end after they start.	Giờ kết thúc thăm phải sau giờ bắt đầu.
379	MSG379	Dialog	Visitors may come from {0} at the earliest (Admin limit).	Khách được đến sớm nhất từ {0} (giới hạn của Quản trị viên).
380	MSG380	Dialog	Visitors must leave by {0} at the latest (Admin limit).	Khách phải rời đi muộn nhất lúc {0} (giới hạn của Quản trị viên).
381	MSG381	Dialog	Quiet hours must start by {0} (Admin limit).	Giờ yên tĩnh phải bắt đầu muộn nhất lúc {0} (giới hạn của Quản trị viên).
382	MSG382	Dialog	This notification does not exist.	Thông báo này không tồn tại.

#	Code	Type	Content (English)	Content (Vietnamese)
383	MSG383	Dialog	This notification template does not exist.	Mẫu thông báo này không tồn tại.
384	MSG384	Field	Enter a title of at most {0} characters.	Nhập tiêu đề tối đa {0} ký tự.
385	MSG385	Field	Enter a message of at most {0} characters.	Nhập nội dung tối đa {0} ký tự.
386	MSG386	Dialog	Too long for push: {0}/{1} characters.	Quá dài cho thông báo đẩy: {0}/{1} ký tự.
387	MSG387	Field	Choose a template from the list.	Hãy chọn một mẫu trong danh sách.
388	MSG388	Field	Choose a group from the list.	Hãy chọn một nhóm trong danh sách.
389	MSG389	Field	Choose one student or bulk.	Hãy chọn một sinh viên hoặc gửi hàng loạt.
390	MSG390	Field	Choose Email or Email and push.	Hãy chọn Email hoặc Email và thông báo đẩy.
391	MSG391	Field	Choose when to send.	Hãy chọn thời điểm gửi.
392	MSG392	Refused	Push goes out at once: send now, or choose Email only.	Thông báo đẩy được gửi ngay: hãy gửi bây giờ hoặc chỉ chọn Email.
393	MSG393	Dialog	It is already past {0}:00. Choose another time.	Đã quá {0}:00. Hãy chọn thời điểm khác.
394	MSG394	Field	Enter a subject of at most 200 characters.	Nhập tiêu đề email tối đa 200 ký tự.
395	MSG395	Dialog	No Student matches these filters.	Không có sinh viên nào khớp bộ lọc.
396	MSG396	Dialog	The device token is missing.	Thiếu mã thiết bị.
397	MSG397	Dialog	The device token is too long.	Mã thiết bị quá dài.
398	MSG398	Dialog	Set a CampusStay password before you continue.	Hãy đặt mật khẩu CampusStay trước khi tiếp tục.
399	MSG399	Dialog	Send your student details before you continue.	Hãy gửi thông tin sinh viên của bạn trước khi tiếp tục.
400	MSG400	Dialog	This account already has a password. Use Change password instead.	Tài khoản này đã có mật khẩu. Hãy dùng Đổi mật khẩu.
401	MSG401	Dialog	Your student account was not verified: {0}. Contact the dormitory office.	Tài khoản sinh viên của bạn không được xác minh: {0}. Hãy liên hệ văn phòng ký túc xá.
402	MSG402	Dialog	Your account is already verified. Ask a Manager to correct your details.	Tài khoản của bạn đã được xác minh. Hãy nhờ Quản lý sửa thông tin của bạn.
403	MSG403	Field	Enter your student code: two letters and six digits, e.g. SE190421.	Hãy nhập mã sinh viên: hai chữ cái và sáu chữ số, ví dụ SE190421.
404	MSG404	Field	Enter a student code: two letters and six digits, e.g. SE190421.	Hãy nhập mã sinh viên: hai chữ cái và sáu chữ số, ví dụ SE190421.
405	MSG405	Field	Enter your full name (at most 150 characters).	Hãy nhập họ và tên (tối đa 150 ký tự).
406	MSG406	Field	Enter your date of birth.	Hãy nhập ngày sinh.

#	Code	Type	Content (English)	Content (Vietnamese)
407	MSG407	Field	Enter a valid date of birth.	Hãy nhập ngày sinh hợp lệ.
408	MSG408	Field	Choose your major from the list.	Hãy chọn ngành học trong danh sách.
409	MSG409	Field	Choose a major from the list.	Hãy chọn ngành học trong danh sách.
410	MSG410	Field	Enter your cohort, e.g. K19.	Hãy nhập khóa, ví dụ K19.
411	MSG411	Field	Enter the cohort, e.g. K19.	Hãy nhập khóa, ví dụ K19.
412	MSG412	Dialog	This student code belongs to another account. Contact the dormitory office.	Mã sinh viên này thuộc về một tài khoản khác. Hãy liên hệ văn phòng ký túc xá.
413	MSG413	Dialog	This student code belongs to another account.	Mã sinh viên này thuộc về một tài khoản khác.
414	MSG414	Refused	The student code cannot change once the account is verified.	Không thể đổi mã sinh viên sau khi tài khoản đã được xác minh.
415	MSG415	Field	Enter a semester from 0 to 12.	Hãy nhập học kỳ từ 0 đến 12.
416	MSG416	Field	Choose a region from the list.	Hãy chọn vùng trong danh sách.
417	MSG417	Field	Choose priority groups from the list.	Hãy chọn nhóm ưu tiên trong danh sách.
418	MSG418	Field	Choose yes or no.	Hãy chọn có hoặc không.
419	MSG419	Field	Choose a verification status from the list.	Hãy chọn trạng thái xác minh trong danh sách.
420	MSG420	Field	Choose an enrollment status from the list.	Hãy chọn tình trạng học tập trong danh sách.
421	MSG421	Field	Choose a cohort from the list.	Hãy chọn khóa trong danh sách.
422	MSG422	Field	Choose a status from the list.	Hãy chọn trạng thái trong danh sách.
423	MSG423	Dialog	This student does not exist.	Sinh viên này không tồn tại.
424	MSG424	Dialog	This student has not sent their details yet.	Sinh viên này chưa gửi thông tin.
425	MSG425	Field	Enter the reason (at most 500 characters).	Hãy nhập lý do (tối đa 500 ký tự).
426	MSG426	Dialog	Use at most 500 characters.	Dùng tối đa 500 ký tự.
427	MSG427	Dialog	This account is already locked.	Tài khoản này đã bị khóa.
428	MSG428	Dialog	This account is not locked.	Tài khoản này không bị khóa.
429	MSG429	Dialog	This account is not waiting for verification.	Tài khoản này không chờ xác minh.
430	MSG430	Field	Choose a CSV or XLSX file.	Hãy chọn một tệp CSV hoặc XLSX.
431	MSG431	Dialog	This import does not exist.	Lần nhập này không tồn tại.
432	MSG432	Field	Choose New, Update, Unchanged or Error.	Hãy chọn Mới, Cập nhật, Không đổi hoặc Lỗi.
433	MSG433	Dialog	This file was already imported.	Tệp này đã được nhập.
434	MSG434	Dialog	Save the file as XLSX or CSV UTF-8 and upload it again.	Hãy lưu tệp dạng XLSX hoặc CSV UTF-8 rồi tải lên lại.

#	Code	Type	Content (English)	Content (Vietnamese)
435	MSG435	Dialog	The file is empty.	Tệp trống.
436	MSG436	Dialog	The file has no column {0}. Download the template to see the columns.	Tệp không có cột {0}. Hãy tải tệp mẫu để xem các cột.
437	MSG437	Dialog	The file has more than 10,000 students. Split it into smaller files.	Tệp có hơn 10.000 sinh viên. Hãy chia thành các tệp nhỏ hơn.
438	MSG438	Dialog	The file has no students below its header line.	Tệp không có sinh viên nào bên dưới dòng tiêu đề.
439	MSG439	Dialog	The file could not be read. Save it as XLSX or CSV UTF-8 and try again.	Không đọc được tệp. Hãy lưu dạng XLSX hoặc CSV UTF-8 rồi thử lại.
440	MSG440	Dialog	The workbook has no sheet.	Bảng tính không có trang nào.
441	MSG441	Dialog	This account is disabled. Restore it first.	Tài khoản này đang bị vô hiệu hóa. Hãy khôi phục trước.
442	MSG442	Dialog	This person has already set a password.	Người này đã đặt mật khẩu.
443	MSG443	Field	Choose the Blocks this person works in.	Hãy chọn các Block người này làm việc.
444	MSG444	Field	Choose an active Room Class.	Hãy chọn một hạng phòng đang hoạt động.
445	MSG445	Field	Choose at least one Room.	Hãy chọn ít nhất một phòng.
446	MSG446	Field	Choose at most {0} Rooms at a time.	Mỗi lần chỉ chọn tối đa {0} phòng.
447	MSG447	Dialog	The stay of {0} has started, so its Room Classes are fixed.	Kỳ {0} đã bắt đầu, nên hạng phòng của kỳ này không thể thay đổi.
448	MSG448	Refused	Beds of Room {0} are already given for {1} or later, so its Room Class can change only from a later Term.	Giường của phòng {0} đã được xếp cho kỳ {1} hoặc kỳ sau, nên chỉ có thể đổi hạng phòng từ một kỳ sau nữa.
449	MSG449	Dialog	Door codes are not set up on this server yet.	Máy chủ này chưa được thiết lập mã cửa.
450	MSG450	Field	Choose a code different from the current one.	Hãy chọn mã khác với mã hiện tại.
451	MSG451	Dialog	Room {0} has no new door code to confirm.	Phòng {0} không có mã cửa mới nào cần xác nhận.
452	MSG452	Dialog	Line {0}: Room {1} is not one of your Rooms.	Dòng {0}: phòng {1} không thuộc các phòng bạn quản lý.
453	MSG453	Dialog	Line {0}: the code must be 6 digits.	Dòng {0}: mã phải gồm 6 chữ số.
454	MSG454	Dialog	Line {0}: Room {1} is in the file twice.	Dòng {0}: phòng {1} xuất hiện hai lần trong tệp.
455	MSG455	Dialog	Line {0}: this is the current code of Room {1}.	Dòng {0}: đây là mã hiện tại của phòng {1}.
456	MSG456	Dialog	The file has no Room and code lines.	Tệp không có dòng phòng và mã nào.
457	MSG457	Dialog	Import at most {0} Rooms at a time.	Mỗi lần chỉ nhập tối đa {0} phòng.
458	MSG458	Dialog	You do not hold a Bed this Term.	Bạn chưa có giường trong kỳ này.
459	MSG459	Dialog	Your door code is not ready yet.	Mã cửa của bạn chưa sẵn sàng.
460	MSG460	Dialog	This furniture type does not exist.	Loại nội thất này không tồn tại.

#	Code	Type	Content (English)	Content (Vietnamese)
461	MSG461	Dialog	A Room Class requires {0}. Remove it from the Room Class requirements first.	Một hạng phòng đang yêu cầu {0}. Hãy bỏ nó khỏi yêu cầu của hạng phòng trước.
462	MSG462	Refused	Only active furniture types that define a Room Class can be required.	Chỉ loại nội thất đang dùng và quyết định hạng phòng mới có thể được yêu cầu.
463	MSG463	Dialog	List each furniture type once.	Mỗi loại nội thất chỉ ghi một lần.
464	MSG464	Field	Enter a quantity from 1 to {0}.	Hãy nhập số lượng từ 1 đến {0}.
465	MSG465	Dialog	Use 1 to 10 letters or digits, starting with a letter.	Dùng 1 đến 10 chữ cái hoặc chữ số, bắt đầu bằng chữ cái.
466	MSG466	Dialog	A furniture type with this code already exists.	Đã có loại nội thất với mã này.
467	MSG467	Refused	The code cannot be changed.	Không thể đổi mã.
468	MSG468	Field	Enter a name of at most 80 characters.	Hãy nhập tên tối đa 80 ký tự.
469	MSG469	Dialog	A furniture type with this name already exists.	Đã có loại nội thất với tên này.
470	MSG470	Dialog	This furniture item does not exist.	Món nội thất này không tồn tại.
471	MSG471	Field	Choose an active furniture type.	Hãy chọn một loại nội thất đang dùng.
472	MSG472	Refused	Item {0} is disposed and cannot change.	Món {0} đã thanh lý nên không thể thay đổi.
473	MSG473	Dialog	Move the item to a store to mark it In store.	Hãy chuyển món này vào kho trước khi đánh dấu Trong kho.
474	MSG474	Dialog	Move the item to a Room to mark it In use.	Hãy chuyển món này vào một phòng trước khi đánh dấu Đang dùng.
475	MSG475	Field	Choose at least one item.	Hãy chọn ít nhất một món.
476	MSG476	Dialog	Move at most {0} items at a time.	Mỗi lần chỉ chuyển tối đa {0} món.
477	MSG477	Field	Choose a Room or a Block store.	Hãy chọn một phòng hoặc kho của một Block.
478	MSG478	Field	Write why the items move.	Hãy ghi lý do chuyển.
479	MSG479	Field	Keep the reason under 300 characters.	Lý do không quá 300 ký tự.
480	MSG480	Refused	Only a Manager moves furniture to another Block.	Chỉ Quản lý mới được chuyển nội thất sang Block khác.
481	MSG481	Dialog	Item {0} is already in Room {1}.	Món {0} đã ở phòng {1}.
482	MSG482	Dialog	Item {0} is already in Block {1} store.	Món {0} đã ở kho Block {1}.
483	MSG483	Dialog	Item {0} already has a planned move. Finish or cancel it first.	Món {0} đã có một lần chuyển theo kế hoạch. Hãy hoàn tất hoặc hủy nó trước.
484	MSG484	Dialog	This move does not exist.	Lần chuyển này không tồn tại.
485	MSG485	Dialog	This move is already done.	Lần chuyển này đã hoàn tất.
486	MSG486	Dialog	This move is already cancelled.	Lần chuyển này đã bị hủy.
487	MSG487	Dialog	Room {0} is not in Block {1}.	Phòng {0} không thuộc Block {1}.

#	Code	Type	Content (English)	Content (Vietnamese)
488	MSG488	Dialog	This registration-period request does not exist.	Đề nghị mở đợt đăng ký này không tồn tại.
489	MSG489	Field	Enter the Term name in at most 100 characters.	Hãy nhập tên kỳ, tối đa 100 ký tự.
490	MSG490	Refused	Only the Manager who sent this request can change it.	Chỉ Quản lý đã gửi đề nghị này mới sửa được.
491	MSG491	Dialog	The Admin is building this Term; comment on the request instead.	Quản trị viên đang dựng kỳ này; hãy bình luận trên đề nghị.

506	MSG506	Field	Keep the notes under 2,000 characters.	Ghi chú tối đa 2.000 ký tự.
507	MSG507	Dialog	{0} already has an open request ({1}). Comment on it instead.	{0} đã có một đề nghị đang mở ({1}). Hãy bình luận trên đề nghị đó.
508	MSG508	Dialog	A Term named {0} is already published.	Kỳ tên {0} đã được công bố.
509	MSG509	Field	Enter the Deposit payment window in hours.	Hãy nhập thời hạn thanh toán tiền cọc theo giờ.

#	Code	Type	Content (English)	Content (Vietnamese)
510	MSG510	Dialog	Check-in starts on or after {0}, the day the residents of {1} must have checked out.	Nhận phòng bắt đầu từ {0}, ngày sinh viên của {1} phải trả phòng xong.
511	MSG511	Dialog	No Term runs before this one, so leave the renewal milestones empty.	Không có kỳ nào trước kỳ này, nên hãy để trống các mốc ở tiếp.
512	MSG512	Dialog	Fill in every renewal milestone, or leave them all empty.	Hãy điền đủ mọi mốc ở tiếp, hoặc để trống tất cả.
513	MSG513	Dialog	The requests window opens on or after the Term is published.	Đợt nhận yêu cầu mở vào hoặc sau khi công bố kỳ.
514	MSG514	Dialog	The requests window must close after it opens.	Đợt nhận yêu cầu phải đóng sau khi mở.
515	MSG515	Dialog	Decisions are due after the requests window closes.	Hạn quyết định phải sau khi đóng đợt nhận yêu cầu.
516	MSG516	Dialog	The reconciliation is due on or after the decision deadline.	Hạn đối soát phải vào hoặc sau hạn quyết định.
517	MSG517	Dialog	Next-Term fees are issued on or after the reconciliation.	Phí kỳ sau được phát hành vào hoặc sau hạn đối soát.
518	MSG518	Dialog	The next-Term fee deadline comes after the fees are issued.	Hạn nộp phí kỳ sau phải sau ngày phát hành phí.
519	MSG519	Dialog	The next-Term fees are due before {0} ends ({1}).	Phí kỳ sau phải đến hạn trước khi {0} kết thúc ({1}).
520	MSG520	Dialog	Assignment results come out on or after the decision deadline.	Kết quả xếp phòng được công bố vào hoặc sau hạn quyết định.
521	MSG521	Dialog	This wizard step does not exist.	Bước này không tồn tại.
522	MSG522	Refused	The stay has started, so its dates cannot change.	Kỳ ở đã bắt đầu nên không thể đổi ngày.
523	MSG523	Field	Choose active Blocks only.	Chỉ chọn các Block đang hoạt động.
524	MSG524	Field	Enter a share from 0 to 100%.	Nhập tỷ lệ từ 0 đến 100%.
525	MSG525	Dialog	Invoices of this Term exist, so its prices, Deposit and Utility Deposit can no longer change.	Kỳ này đã có hóa đơn nên không thể đổi giá, tiền cọc và tiền cọc điện nước nữa.
526	MSG526	Field	Enter a price for every Room Type and Room Class.	Hãy nhập giá cho mọi loại phòng và hạng phòng.
527	MSG527	Field	Enter the Utility Deposit as a whole amount of 0 VND or more.	Nhập tiền cọc điện nước là số nguyên từ 0 ₫ trở lên.
528	MSG528	Dialog	A published Term keeps the rules it opened with.	Kỳ đã công bố giữ nguyên các quy định lúc mở.
529	MSG529	Field	Keep the house rules under 10,000 characters.	Nội quy tối đa 10.000 ký tự.
530	MSG530	Field	Write each question (up to 300 characters) with its answer (up to 2,000).	Hãy viết mỗi câu hỏi (tối đa 300 ký tự) kèm câu trả lời (tối đa 2.000 ký tự).
531	MSG531	Field	Keep at most 30 questions.	Tối đa 30 câu hỏi.

#	Code	Type	Content (English)	Content (Vietnamese)
532	MSG532	Field	Give each document a title and a link that starts with https://.	Hãy đặt tên cho từng tài liệu và một liên kết bắt đầu bằng https://.
533	MSG533	Field	Keep at most 20 documents.	Tối đa 20 tài liệu.
534	MSG534	Dialog	This Term is not ready to publish. The Review step lists what to fix.	Kỳ này chưa sẵn sàng để công bố. Bước Xem lại liệt kê những việc cần sửa.
535	MSG535	Field	Give a reason for changing the Manager's value.	Hãy nêu lý do thay đổi giá trị Quản lý đề nghị.
536	MSG536	Refused	This date has passed, so it cannot change.	Ngày này đã qua nên không thể đổi.
537	MSG537	Dialog	This deadline is open: it can be extended but never shortened.	Hạn này đang mở: chỉ có thể gia hạn, không được rút ngắn.
538	MSG538	Field	Say in up to 500 characters why you change a published Term; students read it in the announcement.	Hãy nêu lý do (tối đa 500 ký tự) khi thay đổi kỳ đã công bố; sinh viên sẽ đọc lý do trong thông báo.
539	MSG539	Dialog	The requests window would open before students see the Term: move it after today.	Đợt nhận yêu cầu sẽ mở trước khi sinh viên thấy kỳ: hãy dời sang sau hôm nay.
540	MSG540	Dialog	Save every step of the wizard before publishing.	Hãy lưu mọi bước trước khi công bố.
541	MSG541	Dialog	This settings group does not exist.	Nhóm thiết lập này không tồn tại.
542	MSG542	Field	Enter a whole number from {0} to {1}.	Nhập số nguyên từ {0} đến {1}.
543	MSG543	Dialog	Use at least one matching criterion.	Hãy dùng ít nhất một tiêu chí ghép phòng.
544	MSG544	Dialog	This announcement does not exist.	Thông báo này không tồn tại.
545	MSG545	Field	Choose who reads it.	Hãy chọn người đọc.
546	MSG546	Field	Write a title of at most 200 characters.	Hãy viết tiêu đề, tối đa 200 ký tự.
547	MSG547	Field	Write the announcement in at most 4,000 characters.	Hãy viết nội dung thông báo, tối đa 4.000 ký tự.
548	MSG548	Dialog	End it after it starts and after now.	Thời điểm kết thúc phải sau khi bắt đầu và sau hiện tại.
549	MSG549	Field	Choose at least one Block.	Hãy chọn ít nhất một Block.
550	MSG550	Field	Choose a published Term.	Hãy chọn một kỳ đã công bố.
551	MSG551	Refused	Staff write to the residents of their Blocks only.	Nhân viên chỉ gửi thông báo cho sinh viên đang ở các Block của mình.
552	MSG552	Dialog	You already said you transferred this Invoice. A Manager is checking it.	Bạn đã báo chuyển khoản cho hóa đơn này. Quản lý đang kiểm tra.
553	MSG553	Dialog	The deadline of this Invoice has passed.	Hóa đơn này đã quá hạn thanh toán.
554	MSG554	Dialog	No payment claim is waiting for this Invoice.	Hóa đơn này không có báo chuyển khoản nào đang chờ.
555	MSG555	Field	Write why the transfer cannot be confirmed.	Hãy ghi lý do không xác nhận được khoản chuyển.

#	Code	Type	Content (English)	Content (Vietnamese)
556	MSG556	Field	Select at most {0} Invoices at a time.	Mỗi lần chọn tối đa {0} hóa đơn.
557	MSG557	Field	Choose today, 24h or 7d.	Hãy chọn hôm nay, 24 giờ hoặc 7 ngày.
558	MSG558	Dialog	No bank account is configured for transfers yet.	Chưa cấu hình tài khoản ngân hàng nhận chuyển khoản.
559	MSG559	Field	Choose Bank transfer, VietQR or Manual transfer.	Hãy chọn Chuyển khoản ngân hàng, VietQR hoặc Chuyển khoản thủ công.
560	MSG560	Dialog	This refund is decided by {0}.	Khoản hoàn tiền này do {0} quyết định.
561	MSG561	Dialog	A Manager is checking your transfer. Cancel once it is confirmed or rejected.	Quản lý đang kiểm tra khoản chuyển của bạn. Hãy hủy sau khi khoản chuyển được xác nhận hoặc từ chối.
562	MSG562	Field	Choose from 1 to {0} Terms.	Hãy chọn từ 1 đến {0} kỳ.
563	MSG563	Dialog	You do not hold a Bed waiting for check-in.	Bạn không có chỗ ở nào đang chờ nhận phòng.
564	MSG564	Dialog	You have already checked in.	Bạn đã nhận phòng rồi.
565	MSG565	Dialog	The check-in period has ended. Ask the dormitory desk about a late check-in.	Thời gian nhận phòng đã kết thúc. Hãy hỏi quầy ký túc xá về việc nhận phòng muộn.
566	MSG566	Field	Write why you arrive late.	Hãy ghi lý do bạn đến muộn.
567	MSG567	Field	Choose the day you will arrive.	Hãy chọn ngày bạn sẽ đến.
568	MSG568	Field	Choose a day up to {0}.	Hãy chọn một ngày đến hết {0}.
569	MSG569	Field	Attach a document that explains the delay (JPEG, PNG or PDF).	Hãy đính kèm giấy tờ giải thích lý do đến muộn (JPEG, PNG hoặc PDF).
570	MSG570	Dialog	Your late check-in is already waiting for a decision.	Yêu cầu nhận phòng muộn của bạn đang chờ quyết định.
571	MSG571	Dialog	This student does not live in the Room.	Sinh viên này không ở trong phòng.
572	MSG572	Field	Choose Notice sent, Overdue, Checked out or Cancelled.	Hãy chọn Đã gửi thông báo, Quá hạn, Đã trả phòng hoặc Đã hủy.
573	MSG573	Field	Choose Manager decision or Not enrolled.	Hãy chọn Quyết định của Quản lý hoặc Không còn theo học.
574	MSG574	Field	Write why the stay is terminated.	Hãy ghi lý do chấm dứt hợp đồng ở.
575	MSG575	Dialog	This student does not live in the dormitory.	Sinh viên này không ở ký túc xá.
576	MSG576	Field	Write why the termination is cancelled.	Hãy ghi lý do hủy việc chấm dứt hợp đồng ở.
577	MSG577	Dialog	This termination does not exist.	Việc chấm dứt hợp đồng ở này không tồn tại.
578	MSG578	Dialog	This termination is already closed.	Việc chấm dứt hợp đồng ở này đã kết thúc.
579	MSG579	Dialog	This stay is already terminated.	Hợp đồng ở này đã bị chấm dứt.
580	MSG580	Dialog	Agree or decline the change.	Hãy đồng ý hoặc từ chối việc đổi hạng phòng.

#	Code	Type	Content (English)	Content (Vietnamese)
581	MSG581	Field	Choose 1 to 9 Terms.	Hãy chọn từ 1 đến 9 kỳ.
582	MSG582	Field	Choose Direct or Board match.	Hãy chọn Trực tiếp hoặc Ghép từ bảng tin.
583	MSG583	Field	Choose Extension or End of stay.	Hãy chọn Gia hạn hoặc Kết thúc ở.
584	MSG584	Field	Choose Not enrolled or Enrolled.	Hãy chọn Không còn theo học hoặc Đang theo học.
585	MSG585	Field	Choose a Bed in another Room.	Hãy chọn giường ở phòng khác.
586	MSG586	Field	Choose a Room Class other than the Room's.	Hãy chọn hạng phòng khác với hạng hiện tại của phòng.
587	MSG587	Field	Choose a Room of your Blocks.	Hãy chọn một phòng thuộc Block của bạn.
588	MSG588	Field	Choose a Room the Term uses.	Hãy chọn một phòng được dùng trong kỳ.
589	MSG589	Field	Choose at least one request.	Hãy chọn ít nhất một yêu cầu.
590	MSG590	Field	Choose follow or keep.	Hãy chọn đi theo hoặc giữ nguyên.
591	MSG591	Field	Choose room-change, swap, room-class-change or extension.	Hãy chọn đổi phòng, đổi chéo, đổi hạng phòng hoặc gia hạn.
592	MSG592	Field	Choose the Term the list is for.	Hãy chọn kỳ của danh sách.
593	MSG593	Field	Choose the enrolled list or a leavers list.	Hãy chọn danh sách đang học hoặc danh sách thôi học.
594	MSG594	Field	Choose the next Term.	Hãy chọn kỳ tiếp theo.
595	MSG595	Field	Choose why the student moves.	Hãy chọn lý do chuyển phòng.
596	MSG596	Dialog	Decide at most 200 requests at once.	Mỗi lần chỉ quyết định tối đa 200 yêu cầu.
597	MSG597	Field	Keep the reason under 1,000 characters.	Lý do không quá 1.000 ký tự.
598	MSG598	Dialog	Next-Term requests open when your Bed is kept for the next Term (the requests window).	Yêu cầu cho kỳ sau mở khi giường của bạn được giữ cho kỳ sau (thời gian gửi yêu cầu).
599	MSG599	Dialog	No Term has a requests window yet.	Chưa có kỳ nào có thời gian gửi yêu cầu.
600	MSG600	Dialog	No matching Bed is free for this request.	Không còn giường phù hợp còn trống cho yêu cầu này.
601	MSG601	Dialog	No requests window is open.	Không có thời gian gửi yêu cầu nào đang mở.
602	MSG602	Dialog	No student has this code.	Không có sinh viên nào có mã này.
603	MSG603	Refused	Only an approved change can be set back.	Chỉ việc đổi hạng đã duyệt mới có thể đặt lại.
604	MSG604	Dialog	Pay your overdue Utility Invoice first, then the next-Term fee.	Hãy thanh toán hóa đơn điện nước quá hạn trước, sau đó mới đến tiền phòng kỳ sau.
605	MSG605	Dialog	The free Beds of this kind are kept for new students.	Các giường trống loại này được giữ cho sinh viên mới.

#	Code	Type	Content (English)	Content (Vietnamese)
606	MSG606	Dialog	The next-Term fees are issued, so next-Term Beds are fixed. A Manager can still move a student.	Tiền phòng kỳ sau đã được phát hành nên giường kỳ sau đã cố định. Quản lý vẫn có thể chuyển sinh viên.
607	MSG607	Refused	The next-Term fees are issued: only a Manager moves a student for the next Term now.	Tiền phòng kỳ sau đã được phát hành: giờ chỉ Quản lý mới chuyển sinh viên cho kỳ sau.
608	MSG608	Dialog	The resident who asked for it does not continue next Term.	Cư dân đề nghị không ở tiếp kỳ sau.
609	MSG609	Dialog	This Bed is not free any more. Choose another one.	Giường này không còn trống. Hãy chọn giường khác.
610	MSG610	Dialog	This Room Class change does not exist.	Yêu cầu đổi hạng phòng này không tồn tại.
611	MSG611	Dialog	This Room does not exist.	Phòng này không tồn tại.
612	MSG612	Dialog	This Term has no requests window: it has no renewal milestones.	Kỳ này không có thời gian gửi yêu cầu: kỳ không có các mốc gia hạn.
613	MSG613	Dialog	This change is no longer waiting for your answer.	Việc đổi hạng này không còn chờ câu trả lời của bạn.
614	MSG614	Dialog	This is the last Term of your stay: ask for an extension first.	Đây là kỳ cuối trong hợp đồng ở của bạn: hãy gửi yêu cầu gia hạn trước.
615	MSG615	Dialog	This item is already resolved.	Mục này đã được xử lý.
616	MSG616	Dialog	This reconciliation does not exist.	Lần đối soát này không tồn tại.
617	MSG617	Dialog	This request does not exist.	Yêu cầu này không tồn tại.
618	MSG618	Dialog	This request is not part of a requests window.	Yêu cầu này không thuộc thời gian gửi yêu cầu nào.
619	MSG619	Refused	This student cannot swap with you.	Sinh viên này không thể đổi chéo với bạn.
620	MSG620	Dialog	This student has no Bed for the next Term.	Sinh viên này không có giường cho kỳ sau.
621	MSG621	Dialog	This student holds no Bed.	Sinh viên này không giữ giường nào.
622	MSG622	Field	Type the student code.	Hãy nhập mã sinh viên.
623	MSG623	Field	Write a note (up to 500 characters): it is audited.	Hãy ghi chú (tối đa 500 ký tự): ghi chú được lưu vào nhật ký.
624	MSG624	Field	Write why the Room changes class.	Hãy ghi lý do phòng đổi hạng.
625	MSG625	Field	Write why the change is rejected. The residents see it.	Hãy ghi lý do từ chối. Các cư dân sẽ thấy lý do này.
626	MSG626	Field	Write why the class is set back (up to 1,000 characters).	Hãy ghi lý do đặt lại hạng cũ (tối đa 1.000 ký tự).
627	MSG627	Field	Write why the extension is rejected. The student sees it.	Hãy ghi lý do từ chối gia hạn. Sinh viên sẽ thấy lý do này.
628	MSG628	Field	Write why the requests are rejected. The students see it.	Hãy ghi lý do từ chối các yêu cầu. Sinh viên sẽ thấy lý do này.
629	MSG629	Field	Write why the student moves.	Hãy ghi lý do chuyển phòng.
