Review 2 Commitment

1. Project Information

Project code	FA26SE260
Project name	CampusStay FPT – Dormitory Registration and Room-Scheduling Management System for FPT University's Tân Uyên Campus, Binh Duong
Team	CampusStay FPT — Lê Thành Minh Trung (Leader, SE183752), Nguyễn Xuân Lộc (SE183782), Trần Võ Quang Duy (SE182146), Võ Minh Luân (SE182794)
Supervisor	Thân Thị Ngọc Vân
Review 2 date	31/10/2026
Reviewer 1	TriPT9
Reviewer 2	TamPM
Version	1.0
Date	08/11/2026

2. Final Registration Form

Final version	2.1 (08/11/2026)
Approved at Review 2 (Yes/No)	
Attached file name	SEP490_FA26SE260_R2_Registration.pdf (registration form 2.1 + BM03)

3. Mandatory Features

ID	Feature	Actor	Acceptance criteria	Workflow	Owner
F-01	Sign-in (password, Google)	All	Valid credentials give a session; the 5th wrong password locks the account; a new @fpt.edu.vn Google account gets no password until it sets one; no token → 401, wrong role → 403	WF-01	Võ Minh Luân
F-02	Student accounts: verification and list import	Student, Manager	A pending account cannot apply; verify/reject notifies the student; an import previews each line and saves only valid lines	WF-01	Võ Minh Luân
F-03	Registration-period request and Term publication	Manager, Admin	A 2nd open request for a Term is refused; milestones out of order are named per field; publishing fixes the prices	WF-02	Trần Võ Quang Duy
F-04	Apply for a Term	Student	Submit creates an Awaiting Deposit Application and a Deposit = Deposit % × Term price; a 2nd Application or stay length above the maximum is refused	WF-01	Lê Thành Minh Trung
F-05	VietQR payment claim and confirmation	Student, Manager	A claim stops the deadline; a rejection needs a reason and returns the time left (≥ 12 h); a Paid or Void Invoice cannot be claimed	WF-01	Lê Thành Minh Trung
F-06	Review and assignment	Manager	A rejection needs a note; the same input gives the same proposal; commit creates Allocations and Balances; Staff cannot run	WF-01	Lê Thành Minh Trung
F-07	Balance, forfeit and door code release	Student, Staff, System	A Balance unpaid at its deadline is forfeited; the code is released only when paid, after check-in start and with a confirmed code	WF-01	Lê Thành Minh Trung
F-08	Self-service check-in and check-out	Student, Staff, System	A check-in report is refused before the Balance is paid, without a Staff baseline or without the commitment; a report matching the baseline records the check-in at the submit time; a mismatch records nothing and opens a re-inspection; check-out deducts the Utility share and damage per item from the Utility Deposit	WF-01	Lê Thành Minh Trung

ID	Feature	Actor	Acceptance criteria	Workflow	Owner
F-09	Late check-in	Student, Staff, Manager	A request after check-in end + max days is refused; approval moves the Balance deadline; rejection needs a reason	WF-01	Lê Thành Minh Trung
F-10	Next-Term requests	Student, Staff	An approved change moves the next-Term Bed; a Room Class change needs all continuing roommates; extension without debt is automatic	WF-03	Nguyễn Xuân Lộc
F-11	Requests window, reconciliation and next-Term fees	Manager, System	M2 creates next-Term Allocations once; M3 releases un-extended Beds; fees wait for decisions and reconciliation; M7 releases unpaid Beds	WF-03	Nguyễn Xuân Lộc
F-12	Turnover and operational moves	Staff, Manager	A move reads both meters, charges nothing and asks a new code for the old Room; after fees Staff cannot move next-Term Beds	WF-03	Nguyễn Xuân Lộc
F-13	Maintenance with routing, time limits and escalation	Student, Staff, Manager	A request gets the routed assignee and the Block deadline (urgent < normal); other Blocks' Staff do not see it; unassigned ones escalate	WF-04	Nguyễn Xuân Lộc
F-14	Meter readings and Utility Invoices	Staff	A reading below the previous is refused; a CSV with a bad line saves nothing; closing issues Invoices split by days, rounded up	WF-05	Trần Võ Quang Duy
F-15	Utility debt and termination	System, Manager	One overdue Utility Invoice gives warning 1 once; two overdue months after the final warning terminate the stay; past move-out it is Overdue	WF-05	Lê Thành Minh Trung
F-16	Inventory, Room Class by Term, shared and personal furniture	Manager, Staff	A Room whose Beds are given keeps its class; only Managers set classes; each furniture item is Shared (Room) or Personal (Bed); a Personal item is confirmed by its own student at check-in	WF-02	Trần Võ Quang Duy
F-17	Notifications, announcements and push	All	Staff announce only to their Blocks; pinned announcements top the board; push after commit, dead tokens disabled	WF-02	Võ Minh Luân
F-18	Dashboards, reports, exports and search	Staff, Manager, Admin	Exports are CSV with the screen's columns and audited; search stays in the user's Blocks; Term dashboard shows milestones	WF-05	Trần Võ Quang Duy
F-19	Requests in one module by type	Student, Staff, Manager	Every request type is created through one module with its type; the student sees all own requests in one list with one status set; a type not open now (e.g. swap outside M2–M3) is refused with the reason; Staff see only their Blocks' requests	WF-04	Nguyễn Xuân Lộc
F-20	Family Day management (VIS): events, registrations, visitor passes, visitor check-in/out	Manager, Student, Staff, Family Visitor (external), System	Publishing with invalid slots is refused; only residents register, in the period, within N visitors and slot capacity (also in parallel); one pass per approved visitor; a revoked, used or out-of-slot pass and a duplicate check-in are refused; ID checked before check-in; visitors not checked out are flagged	WF-06	Võ Minh Luân
F-21	AI chatbot (local model, scoped data)	Student, Administrator; public mode without sign-in	Without signing in, the chatbot answers from public content only; a student asking for another student's Room or Invoice is refused; data in an answer comes only from read-only tools scoped to the session user; no call leaves the server to an external AI service	WF-01	Võ Minh Luân

4. Non-Functional Requirements

ID	Quality attribute	Metric	Threshold	Measurement method	Owner
NFR-01	Performance	p95 of 10 main read endpoints, 200 users, base data; chatbot first token, 5 parallel chats	≤ 1 s, errors < 1 %; chatbot ≤ 5 s	Load script on a server with production settings; timed chatbot script	Nguyễn Xuân Lộc
NFR-02	Security	Permission and scope tests passing, incl. chatbot tool scope	100 %	Integration tests in CI	Lê Thành Minh Trung
NFR-03	Integrity	Duplicate Allocations of a Bed in a Term; duplicate check-ins of an Allocation or of a visitor; Family Day slot over capacity	0	Unique indexes, row locks + concurrency tests	Lê Thành Minh Trung
NFR-04	Availability	Health checks answering UP	≥ 99 % from 01/11/2026	Uptime monitor, every 5 min	Võ Minh Luân

ID	Quality attribute	Metric	Threshold	Measurement method	Owner
NFR-05	Usability	Texts with a Vietnamese translation	100 %	MessagesTest + scan of web routes	Trần Võ Quang Duy
NFR-06	Deployability	Push to healthy production; rollback	≤ 15 min; ≤ 5 min	Actions run times; timed rollback	Lê Thành Minh Trung

5. Out of Scope

Item	Reason
Room or Bed self-selection by students	The engine keeps gender and Block rules and fairness (D2)
Electronic contract signing	Needs a legal e-signature provider; consent to the house rules is recorded instead
SMS notifications	Cost; in-app, push and email cover the cases
Live SIS integration, bank API, forecasting, iOS app	No access or contract; list import, reconciliation, Manager confirmation, reports and the Flutter app (Android) instead
External AI APIs; ID numbers in visitor passes	Privacy (Law 91/2025/QH15): the chatbot runs on a local model; a pass holds a random token only
Visitors in rooms or overnight; parent accounts	Family Day covers common areas; Family Visitor has no account

6. Workflow Commitments

6.1 Workflow WF-01

Workflow name	Registration to residence
Owner (one member)	Lê Thành Minh Trung
Supporting members	Võ Minh Luân
Actors	Student, Manager, Staff, System
Trigger	A student signs in during an open registration period
Business outcome	The student is a resident, checked in by the self-service report, with a door code
Main entity state path	Application: Awaiting Deposit → Submitted → Approved → Allocated; Allocation: Assigned – unpaid → Paid → Resident; Check-in report: Submitted → Matched (or Mismatch → re-inspection)
Activity diagram (Report 4 section)	Report 4 §3.2, WF-01 + Check-in flow

Features in this workflow

Feature ID	Feature	Acceptance criteria	Test case IDs
F-01	Sign-in (password, Google)	Valid credentials give a session; the 5th wrong password locks the account; a new @fpt.edu.vn Google account gets no password until it sets one; no token → 401, wrong role → 403	TC-F01-01..04
F-02	Student accounts: verification and list import	A pending account cannot apply; verify/reject notifies the student; an import previews each line and saves only valid lines	TC-F02-01..05
F-04	Apply for a Term	Submit creates an Awaiting Deposit Application and a Deposit = Deposit % × Term price; a 2nd Application or stay length above the maximum is refused	TC-F04-01..05
F-05	VietQR payment claim and confirmation	A claim stops the deadline; a rejection needs a reason and returns the time left (≥ 12 h); a Paid or Void Invoice cannot be claimed	TC-F05-01..03
F-06	Review and assignment	A rejection needs a note; the same input gives the same proposal; commit creates Allocations and Balances; Staff cannot run	TC-F06-01..05
F-07	Balance, forfeit and door code release	A Balance unpaid at its deadline is forfeited; the code is released only when paid, after check-in start and with a confirmed code	TC-F07-01..05
F-08	Self-service check-in and check-out	A check-in report is refused before the Balance is paid, without a Staff baseline or without the commitment; a report matching the baseline records the check-in at the submit time; a mismatch records nothing and opens a re-inspection; check-out deducts the Utility share and damage per item from the Utility Deposit	TC-F08-01..06
F-09	Late check-in	A request after check-in end + max days is refused; approval moves the Balance deadline; rejection needs a reason	TC-F09-01..03
F-21	AI chatbot (local model, scoped data)	Without signing in, the chatbot answers from public content only; a student asking for another student's Room or Invoice is refused; data in an answer comes only from read-only tools scoped to the session user; no call leaves the server to an external AI service	TC-F21-01..04

Demo scenarios

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
DS-01a	Main	Stage A (registration open); se220001 eligible, no Application; Room baseline recorded by staffa01	1. se220001 applies (4-bed, Standard, stay length 2) and claims the Deposit transfer. 2. manager01 confirms the claim and approves the Application. 3. Stage B: se220004 (assigned, unpaid) claims the Balance; manager01 confirms. 4. staffa01	Application Submitted then Approved; se220004 is a resident (orange Bed) and sees the code; each step notified; the report matches the	Lê Thành Minh Trung

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
			confirms the Room code; the release job runs. 5. se220004 fills the check-in report (personal and shared items, meter readings, photos), ticks the commitment and submits.	baseline and the check-in is recorded at the submit time	
DS-01b	Exception	Stage A; se220003 has one rejected Deposit claim	1. manager01 rejects se220003's second claim with a reason.	The Deposit Invoice is Void and the Application Expired; the student is told the reason; the Bed count is unchanged	Lê Thành Minh Trung

Committed test cases

Test type	Count	Automated in CI	Responsible member(s)
Feature tests (≥ 3 per feature)	40	40	Võ Minh Luân (F-01, F-02, F-21); Lê Thành Minh Trung (F-04, F-05, F-06, F-07, F-08, F-09)
End-to-end workflow test (≥ 1)	1	0	Lê Thành Minh Trung
State transition tests (≥ 1 per transition)	37	33	Lê Thành Minh Trung (Application, Allocation, Payment claim, Check-in report)
Total for this workflow	78	73	

Pass criteria at Defense 1.1

Criterion	Committed
Runs end-to-end on staging with seeded data	*Yes*
Main scenario passes	*Yes*
Exception scenarios passing	
Test pass rate for this workflow	
Open Critical / High defects	*0*

Reviewer note

Note	

6.2 Workflow WF-02

Workflow name	Opening a registration period
Owner (one member)	Trần Võ Quang Duy
Supporting members	Võ Minh Luân
Actors	Manager, Administrator, Student, System
Trigger	A Manager requests a registration period
Business outcome	A published Term open to students
Main entity state path	Registration-period request: Submitted → In progress → Done; Term: Draft → Published
Activity diagram (Report 4 section)	Report 4 §3.2, WF-02

Features in this workflow

Feature ID	Feature	Acceptance criteria	Test case IDs
F-03	Registration-period request and Term publication	A 2nd open request for a Term is refused; milestones out of order are named per field; publishing fixes the prices	TC-F03-01..05
F-16	Inventory, Room Class by Term, shared and personal furniture	A Room whose Beds are given keeps its class; only Managers set classes; each furniture item is Shared (Room) or Personal (Bed); a Personal item is confirmed by its own student at check-in	TC-F16-01..04
F-17	Notifications, announcements and push	Staff announce only to their Blocks; pinned announcements top the board; push after commit, dead tokens disabled	TC-F17-01..04

Demo scenarios

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
DS-02a	Main	Stage 0; manager01, admin01	1. manager01 requests a period for the next Term and imports the excluded Rooms from the sample file. 2. admin01 builds the Term from the request, changes one price with a reason, completes the 7 steps and publishes.	Request Done and linked to the Term; manager01 sees the changed value; students see the registration card and the announcement	Trần Võ Quang Duy
DS-02b	Exception	Stage 0; a request for the same Term is open	1. manager02 files a second request for the same Term. 2. admin01 enters M3 before M2 in the Timeline step.	The second request is refused; the Timeline step names the wrong milestone; nothing is published	Trần Võ Quang Duy

Committed test cases

Test type	Count	Automated in CI	Responsible member(s)
Feature tests (≥ 3 per feature)	13	13	Trần Võ Quang Duy (F-03, F-16); Võ Minh Luân (F-17)
End-to-end workflow test (≥ 1)	1	0	Trần Võ Quang Duy
State transition tests (≥ 1 per transition)	4	4	Trần Võ Quang Duy (Registration-period request, Term)
Total for this workflow	18	17

Note	

6.3 Workflow WF-03

Workflow name	Term transition of continuing residents
Owner (one member)	Nguyễn Xuân Lộc
Supporting members	—
Actors	Student, Staff, Manager, System
Trigger	M2 of the next Term

Business outcome	Continuing residents hold a paid Bed of the next Term; un-extended Beds are released
Main entity state path	Next-Term Allocation: Continuing → Resident or Cancelled; Room-change / swap request: Submitted → Approved
Activity diagram (Report 4 section)	Report 4 §3.2, WF-03

Features in this workflow

Feature ID	Feature	Acceptance criteria	Test case IDs
F-10	Next-Term requests	An approved change moves the next-Term Bed; a Room Class change needs all continuing roommates; extension without debt is automatic	TC-F10-01..06
F-11	Requests window, reconciliation and next-Term fees	M2 creates next-Term Allocations once; M3 releases un-extended Beds; fees wait for decisions and reconciliation; M7 releases unpaid Beds	TC-F11-01..06
F-12	Turnover and operational moves	A move reads both meters, charges nothing and asks a new code for the old Room; after fees Staff cannot move next-Term Beds	TC-F12-01..03

Demo scenarios

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
DS-03a	Main	Stage A (requests window open); se210006 in A-505	1. se210006 asks for a room change. 2. staffa01 approves it with A-603 (stage B). 3. manager01 uploads the enrolled list and resolves groups 1–2. 4. manager01 issues the next-Term fees; se210001 pays and claims.	The next-Term Allocation moves to A-603; fees issued once with count and total; se210001 is Continuing and paid	Nguyễn Xuân Lộc
DS-03b	Exception	Stage C; se200005 did not pay the next-Term fee by M7	1. The M7 job runs. 2. staffa01 opens the turnover list.	The fee is Void, the next-Term Bed released, se200005 is on the leavers list with a check-out date	Nguyễn Xuân Lộc

Committed test cases

Test type	Count	Automated in CI	Responsible member(s)
Feature tests (≥ 3 per feature)	15	15	Nguyễn Xuân Lộc (F-10, F-11, F-12)
End-to-end workflow test (≥ 1)	1	0	Nguyễn Xuân Lộc
State transition tests (≥ 1 per transition)	9	9	Nguyễn Xuân Lộc (Next-Term Allocation)
Total for this workflow	25	24

6.4 Workflow WF-04

Workflow name	Requests and maintenance with routing and time limits

Owner (one member)	Nguyễn Xuân Lộc
Supporting members	Trần Võ Quang Duy, Võ Minh Luân
Actors	Student, Staff, Manager, System
Trigger	A resident submits a request (maintenance or another type)
Business outcome	The request is decided or the problem fixed and confirmed within the time limit, or escalated
Main entity state path	Request: Submitted → Assigned → In Progress → Resolved → Closed (maintenance); Submitted → Approved / Rejected (other types)
Activity diagram (Report 4 section)	Report 4 §3.2, WF-04 + Request handling

Features in this workflow

Feature ID	Feature	Acceptance criteria	Test case IDs
F-19	Requests in one module by type	Every request type is created through one module with its type; the student sees all own requests in one list with one status set; a type not open now (e.g. swap outside M2–M3) is refused with the reason; Staff see only their Blocks' requests	TC-F19-01..03
F-13	Maintenance with routing, time limits and escalation	A request gets the routed assignee and the Block deadline (urgent < normal); other Blocks' Staff do not see it; unassigned ones escalate	TC-F13-01..05
F-17	Notifications, announcements and push	Staff announce only to their Blocks; pinned announcements top the board; push after commit, dead tokens disabled	TC-F17-01..04 (counted in WF-02)
F-16	Inventory, Room Class by Term, shared and personal furniture	A Room whose Beds are given keeps its class; only Managers set classes; each furniture item is Shared (Room) or Personal (Bed); a Personal item is confirmed by its own student at check-in	TC-F16-01..04 (counted in WF-02)

Demo scenarios

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
DS-04a	Main	Stage A; se200009 in A-801, routing rules of Block A	1. se200009 reports an urgent air-conditioner fault with a photo and the item. 2. staffa02 (routed) starts and resolves it. 3. se200009 confirms.	Assigned at once with the urgent deadline; Closed; the item keeps a repair entry; notifications at each step	Nguyễn Xuân Lộc
DS-04b	Exception	Stage A; se200010 in A-802 has a request unassigned past its limit	1. The escalation job runs. 2. manager01 reassigns it.	One escalation in Overdue requests; after reassignment it closes once the request is back on track	Nguyễn Xuân Lộc

Committed test cases

Test type	Count	Automated in CI	Responsible member(s)
Feature tests (≥ 3 per feature)	8	8	Nguyễn Xuân Lộc (F-19, F-13)
End-to-end workflow test (≥ 1)	1	0	Nguyễn Xuân Lộc
State transition tests (≥ 1 per transition)	11	6	Nguyễn Xuân Lộc (Maintenance Request)

Note	

6.5 Workflow WF-05

Workflow name	Monthly Utility, debt and termination
Owner (one member)	Lê Thành Minh Trung
Supporting members	Trần Võ Quang Duy
Actors	Staff, Student, Manager, System
Trigger	The month ends
Business outcome	Utility Invoices issued and collected; debtors warned or terminated
Main entity state path	Invoice: Unpaid → Overdue → Paid; Termination: Notice sent → Checked out / Overdue
Activity diagram (Report 4 section)	Report 4 §3.2, WF-05

Features in this workflow

Feature ID	Feature	Acceptance criteria	Test case IDs
F-14	Meter readings and Utility Invoices	A reading below the previous is refused; a CSV with a bad line saves nothing; closing issues Invoices split by days, rounded up	TC-F14-01..04
F-15	Utility debt and termination	One overdue Utility Invoice gives warning 1 once; two overdue months after the final warning terminate the stay; past move-out it is Overdue	TC-F15-01..04
F-05	VietQR payment claim and confirmation	A claim stops the deadline; a rejection needs a reason and returns the time left (≥ 12 h); a Paid or Void Invoice cannot be claimed	TC-F05-01..03 (counted in WF-01)
F-18	Dashboards, reports, exports and search	Exports are CSV with the screen's columns and audited; search stays in the user's Blocks; Term dashboard shows milestones	TC-F18-01..04

Demo scenarios

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
DS-05a	Main	Stage A; staffa01; meter sample file of Block A	1. staffa01 imports the readings and closes the month. 2. se200001 has an overdue Utility Invoice; the overdue job runs. 3. se200001 claims the transfer; manager01 confirms.	One Utility Invoice per resident split by days; warning 1 sent once; after payment the warning closes	Lê Thành Minh Trung
DS-05b	Exception	Stage A; se200004 terminated for Utility debt (A-703)	1. The move-out date passes without check-out; the job runs.	Termination Overdue; Managers and Block Staff told; A-703 needs a new door code	Lê Thành Minh Trung

Committed test cases

Test type	Count	Automated in CI	Responsible member(s)
Feature tests (≥ 3 per feature)	12	12	Trần Võ Quang Duy (F-14, F-18); Lê Thành Minh Trung (F-15)
End-to-end workflow test (≥ 1)	1	0	Lê Thành Minh Trung
State transition tests (≥ 1 per transition)	15	13	Lê Thành Minh Trung (Invoice)
Total for this workflow	28	25

6.6 Workflow WF-06

Workflow name	Family Day: visitor registration and check-in/out
Owner (one member)	Võ Minh Luân
Supporting members	—
Actors	Manager, Student, Staff, Family Visitor (external), System
Trigger	A Manager creates and publishes a Family Day
Business outcome	Approved visitors enter and leave the common areas with their own passes; every entry and exit is logged; no-shows and visitors not checked out are resolved before the event is closed
Main entity state path	Family Day: Draft → Published → Registration closed → In progress → Completed (or Cancelled); Registration: Pending → Approved / Rejected / Cancelled / Expired; Visit: Not arrived → Checked in → Checked out (or No-show)
Activity diagram (Report 4 section)	Report 4 §3.2, WF-06 (new, 5 lanes)

Features in this workflow

Feature ID	Feature	Acceptance criteria	Test case IDs
F-20	Family Day management (VIS): events, registrations, visitor passes, visitor check-in/out	Publishing with invalid slots is refused; only residents register, in the period, within N visitors and slot capacity (also in parallel); one pass per approved visitor; a revoked, used or out-of-slot pass and a duplicate check-in are refused; ID checked before check-in; visitors not checked out are flagged	TC-F20-01..10
F-17	Notifications, announcements and push	Staff announce only to their Blocks; pinned announcements top the board; push after commit, dead tokens disabled	TC-F17-01..04 (counted in WF-02)

Demo scenarios

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
DS-06a	Main	Stage A; Family Day on Sunday, slots 08:00–11:00 and 13:00–16:00, 100 visitors each, at most 3 per student; se200009 resident of A-801	1. manager01 publishes the Family Day. 2. se200009 registers father, mother and brother for slot 1; the registration is approved. 3. staffa01 checks the father's ID, checks him in and later out; the mother checks in only; the brother does not come. 4. manager01 has the open case resolved and closes the event.	3 separate passes; father Checked out, mother flagged at 11:00 as not checked out, brother No-show; the summary matches the visit log	Võ Minh Luân
DS-06b	Exception	Stage A; slot 1 is full; the father's pass has been used for check-in	1. se200010 registers a visitor for slot 1. 2. staffa01 scans the father's pass again.	The registration is refused (slot full, choose another slot); the	Võ Minh Luân

Scenario ID	Type	Preconditions and data	Main steps	Expected result	Presenter
				second scan is refused and no duplicate check-in is recorded	

Committed test cases

8. Summary and Cross-check

8.1 By workflow

Workflow	Owner	Features	Demo scenarios (main / exception)	Test cases	Automated
WF-01	Lê Thành Minh Trung	9	1 / 1	78	73
WF-02	Trần Võ Quang Duy	3	1 / 1	18	17
WF-03	Nguyễn Xuân Lộc	3	1 / 1	25	24
WF-04	Nguyễn Xuân Lộc	2	1 / 1	20	14
WF-05	Lê Thành Minh Trung	3	1 / 1	28	25
WF-06	Võ Minh Luân	1	1 / 1	25	24
NFRs	see section 4	—	—	6	2
Total		21	6 / 6	200	179

8.2 By member

Member	Workflows owned	Features	Test cases	Automated	Demo scenarios	Review 2 verification
Lê Thành Minh Trung	WF-01, WF-05	7	88	78	4	
Nguyễn Xuân Lộc	WF-03, WF-04	5	46	38	4	
Trần Võ Quang Duy	WF-02	4	23	22	2	
Võ Minh Luân	WF-06	5	43	41	2	
Total	6	21	200	179	12	

8.3 Committed Numbers

Number of main workflows	6
Number of demo scenarios (main / exception)	6 / 6
Committed functional test cases	200
Of which automated in CI	179 (90 %)

8.4 Eligibility Thresholds for the Viva

Criterion	Minimum threshold	Agreed threshold
Main workflows	*100% run end-to-end*	100 %
Demo scenarios	*100% main; ≥ 80% exception*	100 % main; ≥ 80 % exception
Test case count	*≥ committed number*	≥ 200
Test pass rate	*≥ 90% overall; 100% main-path tests of mandatory features*	≥ 90 % overall; 100 % main-path
Automation	*≥ 50% run in CI*	≥ 50 % (committed 179 of 200)
Defects	*No open Critical or High defects*	0 open
Individual	*Each member demos the workflow they own and meets their delivery commitments*	Each member demos the owned workflow(s)
